Online BCI CBCI Practice Test Engine Designed by Experts

The rapid development of information will not infringe on the learning value of our CBCI exam questions, because our customers will have the privilege to enjoy the free update of our CBCI learning materials for one year. You will receive the renewal of CBCI study files through the email. And our CBCI study files have three different version can meet your demands: PDF, Soft and APP version. Meanwhile, we offer our customers with considerable services for 24/7, as long as you contact us on our CBCI exam questions, we will give you the best suggestions.

BCI Certificate of the Business Continuity Institute (CBCI) Sample Questions (Q30-Q35):

NEW QUESTION # 30

Which of the following is NOT a critical requirement for an effective response structure?

- A. The number and type of teams required by the organization
- B. A plan to exercise the escalation and response
- C. A plan to communicate with internal and external interested parties
- **D. Guidance on when regulators should be notified and be included in the response**

Answer: D

Explanation:

While communication plans, team structure, and exercising escalation and response are essential for an effective Business Continuity response structure, specific guidance on regulator notification, although important, is not typically considered a core structural element. The CBCI 7.0 course outlines that regulatory communications are usually integrated within communication plans but are not a standalone requirement for response structures. The focus remains on establishing clear roles, responsibilities, and communication mechanisms.

Reference: CBCI 7.0 Study Guide, Module 2: Response Structures, pages 75-78.

NEW QUESTION # 31

When establishing governance for a Business Continuity Management System (BCMS), which of the following will be responsible for developing and communicating the Business Continuity policy and for promoting a Business Continuity culture by leading by example?

- **A. Top Management**
- B. Business Continuity Professional
- C. Business Continuity Plan Owners
- D. Departmental Representatives

Answer: A

Explanation:

Top management holds the ultimate responsibility for developing and endorsing the Business Continuity policy and fostering a culture of continuity within the organization. The CBCI 7.0 course emphasizes that leadership commitment is crucial for the BCMS's success, as top management's active involvement sets expectations, allocates resources, and leads by example. Their role extends beyond policy approval to include visible support and communication to embed Business Continuity values across all levels. Other roles such as plan owners and professionals support implementation but do not carry this overarching governance responsibility.

Reference: CBCI 7.0 Study Guide, Module 1: Governance and Leadership, pages 22-26.

NEW QUESTION # 32

A shared understanding across the organization of the importance and relevance of the Business Continuity Management System (BCMS) and an understanding of how the BCMS will be used are outcomes of:

- A. Defining the scope of the BCMS
- B. Appointing a Business Continuity steering group
- C. Providing access to a risk assessment
- **D. An effectively communicated Business Continuity policy**

Answer: D

Explanation:

An effectively communicated Business Continuity policy sets the tone for organizational commitment and clarifies the purpose, scope, and relevance of the BCMS. The CBCI 7.0 course stresses that clear communication of the policy ensures all personnel understand the BCMS's importance and how it will be applied, fostering engagement and shared responsibility. While defining scope and appointing steering groups are critical, they do not on their own generate organization-wide understanding. The policy acts as the foundational document promoting awareness and alignment.

Reference: CBCI 7.0 Study Guide, Module 1: Establishing the BCMS, pages 15-18.

NEW QUESTION # 33

Which of the following factors affects the way in which an organization selects and combines the different types of Business Impact Analysis (BIA)?

- **A. The scope of the Business Continuity Management System (BCMS)**
- B. Consultation with internal and external stakeholders on the extent of analysis that is required
- C. The outcomes of an organization's risk assessment to determine which part of the organization is at greatest risk
- D. The outcomes of a gap analysis to identify where there is greatest need for Business Continuity capability to be improved

Answer: A

Explanation:

The CBCI 7.0 course explains that the scope of the BCMS is the primary factor influencing the selection and combination of BIA types (e.g., activity, product, or process BIAs). The scope defines which organizational units, activities, and resources are covered, thereby guiding the level and focus of impact analysis. While risk assessments, gap analyses, and stakeholder consultations inform aspects of BCMS development, they do not determine the BIA methodology as directly as the defined scope. Aligning BIAs to scope ensures consistency and resource-effective analysis.

Reference: CBCI 7.0 Study Guide, Module 3: Business Impact Analysis, pages 43-45.

NEW QUESTION # 34

The time period defined by the Recovery Time Objective (RTO) should always be less than which of the following?

- **A. The Maximum Tolerable Period of Disruption (MTPD)**
- B. The Recovery Point Objective (RPO)
- C. The standard timeline set by the organization's customer services charter
- D. The Minimum Business Continuity Objective (MBCO)

Answer: A

Explanation:

The RTO represents the maximum acceptable time to restore activities following disruption, and it must always be shorter than the Maximum Tolerable Period of Disruption (MTPD), which is the absolute limit before unacceptable impacts occur. The CBCI 7.0 course explains that this ensures recovery efforts occur within tolerable timeframes, preventing critical losses. The RPO concerns data restoration points and is not a time period comparison. The MBCO relates to minimum acceptable outputs and is not a time-based measure.

Reference: CBCI 7.0 Study Guide, Module 3: Recovery Objectives, pages 57-60.

NEW QUESTION # 35

.....

BCI exam guide have to admit that the exam of gaining the BCI certification is not easy for a lot of people, especial these people who have no enough time. If you also look forward to change your present boring life, maybe trying your best to have the CBCI latest questions are a good choice for you. Now it is time for you to take an exam for getting the certification. If you have any worry about the CBCI Exam, do not worry, we are glad to help you. Because the CBCI cram simulator from our company are very useful for you to pass the exam and get the certification.
