

# From Practice AZ-305 Exam Online to Designing Microsoft Azure Infrastructure Solutions, Easiest Way to Pass

2026 Latest Prep4King AZ-305 PDF Dumps and AZ-305 Exam Engine Free Share: <https://drive.google.com/open?id=1jS6UT53l25qIk6GYA7Wk6cvTBiDl5vM3>

Free demo is the benefit we give every candidate. you can download any time if you are interested in our AZ-305 dumps torrent. Don't worry about the quality of our exam materials, you can tell from our free demo. If you would like to receive AZ-305 dumps torrent fast, we can satisfy you too. After your payment you can receive our email including downloading link, account and password on website. You can download our complete high-quality Microsoft AZ-305 Dumps Torrent as soon as possible if you like any time.

Prep4King provides Microsoft AZ-305 desktop-based practice software for you to test your knowledge and abilities. The AZ-305 desktop-based practice software has an easy-to-use interface. You will become accustomed to and familiar with the free demo for Microsoft AZ-305 Exam Questions. Exam self-evaluation techniques in our AZ-305 desktop-based software include randomized questions and timed tests. These tools assist you in assessing your ability and identifying areas for improvement to pass the Microsoft certification exam.

## AZ-305 Certificate Exam | AZ-305 Instant Discount

The learning material is available in three different easy-to-use formats. The first one is a AZ-305 PDF dumps form and it is a printable and portable form. Users can save the notes by taking out prints of Microsoft AZ-305 PDF questions or can access them via their smartphones, tablets, and laptops. The Microsoft AZ-305 Pdf Dumps form can be used anywhere anytime and is essential for students who like to learn from their smart devices.

### Exam Details

In brief, the Microsoft AZ-305 Exam is designed to assess your ability to monitor solutions, design identity, and governance, create data storage solutions, business continuity, and infrastructure solutions. It will include from 40 to 60 questions of different types, and will last either 100 or 120 minutes (depends on the inclusion of labs). If it includes labs, then its duration will be longer. To pass the exam you should score at least 700 points out of 1000. And of course, you need to pay an exam fee, which is now \$165.

## Microsoft Designing Microsoft Azure Infrastructure Solutions Sample Questions (Q189-Q194):

NEW QUESTION # 189

You have an Azure AD tenant that contains a management group named MG1. You have the Azure subscriptions shown in the following table.

Name	Management group
Sub1	MG1
Sub2	MG1
Sub3	Tenant Root Group

The subscriptions contain the resource groups shown in the following table.

Name	Subscription
RG1	Sub1
RG2	Sub2
RG3	Sub3 Microsoft

The subscription contains the Azure AD security groups shown in the following table.

Name	Member of
Group1	Group3
Group2	Group3
Group3 Microsoft	None

The subscription contains the user accounts shown in the following table.

Name	Member of
User1	Group1
User2	Group2
User3	Group1, Group2

You perform the following actions:

- \* Assign User3 the Contributor role for Sub1.
- \* Assign Group1 the Virtual Machine Contributor role for MG1.
- \* Assign Group3 the Contributor role for the Tenant Root Group.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
User1 can create a new virtual machine in RG1.	<input type="radio"/>	<input type="radio"/>
User2 can grant permissions to Group2.	<input type="radio"/>	<input type="radio"/>
User3 can create a storage account in RG2.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Statements	Yes	No
User1 can create a new virtual machine in RG1.	<input type="radio"/>	<input checked="" type="radio"/>
User2 can grant permissions to Group2.	<input checked="" type="radio"/>	<input type="radio"/>
User3 can create a storage account in RG2.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

**Answer Area**

Microsoft

Statements

User1 can create a new virtual machine in RG1.  Yes  No

User2 can grant permissions to Group2.  Yes  No

User3 can create a storage account in RG2.  Yes  No

**NEW QUESTION # 190**

You have an Azure subscription. The subscription contains Azure virtual machines that run Windows Server 2016 and Linux. You need to use Azure Log Analytics design an alerting strategy for security-related events.

Which Log Analytics tables should you query? To answer, drag the appropriate tables to the correct log types. Each value may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Tables**

AzureActivity

AzureDiagnostics

Event

Syslog

**Answer Area**

Events from Windows event logs:

Events from Linux system logging:

**Answer:**

Explanation:

**Tables**

AzureActivity

AzureDiagnostics

Event

Syslog

**Answer Area**

Events from Windows event logs:

Events from Linux system logging:

**NEW QUESTION # 191**

You are designing a storage solution that will ingest, store, and analyze petabytes (PBs) of structured, semi-structured and unstructured text data. The analyzed data will be offloaded to Azure Data Lake Storage Gen2 for long-term retention.

You need to recommend a storage and analytics solution that meets the following requirements:

- \* Stores the processed data
  - \* Provides interactive analytics
  - \* Supports manual scaling, built-in autoscaling, and custom autoscaling
- What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE Each correct selection is worth one point.

**Answer Area**

For storage and interactive analytics:

Microsoft  
Azure Data Lake Analytics  
Azure Data Explorer  
Azure Data Lake Analytics  
Log Analytics

Query language:

KQL  
KQL  
Transact-SQL  
U-SQL

**Answer:**

Explanation:

**Answer Area**

For storage and interactive analytics:

Microsoft  
Azure Data Lake Analytics  
Azure Data Explorer  
Azure Data Lake Analytics  
Log Analytics

Query language:

KQL  
KQL  
Transact-SQL  
U-SQL

Explanation:

**Answer Area**

For storage and interactive analytics:

Microsoft  
Azure Data Lake Analytics

Query language:

KQL

**NEW QUESTION # 192**

You have two on-premises Microsoft SQL Server 2017 instances that host an Always On availability group named AG1. AG1 contains a single database named DB1.

You have an Azure subscription that contains a virtual machine named VM1. VM1 runs Linux and contains a SQL Server 2019 instance.

You need to migrate DB1 to VM1. The solution must minimize downtime on DB1. What should you do? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Prepare for the migration by:

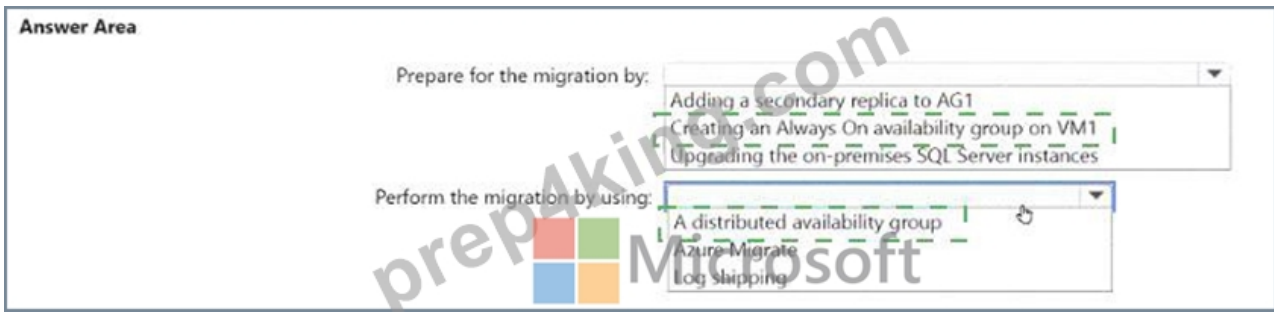

Adding a secondary replica to AG1  
Creating an Always On availability group on VM1  
Upgrading the on-premises SQL Server instances

Perform the migration by using:

A distributed availability group  
Azure Migrate  
Log shipping

**Answer:**

Explanation:

Explanation:

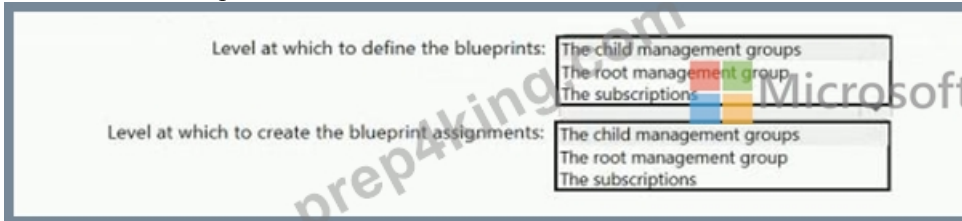

### NEW QUESTION # 193

You plan to create an Azure environment that will contain a root management group and 10 child management groups. Each child management group will contain five Azure subscriptions. You plan to have between 10 and 30 resource groups in each subscription. You need to design an Azure governance solution. The solution must meet the following requirements:

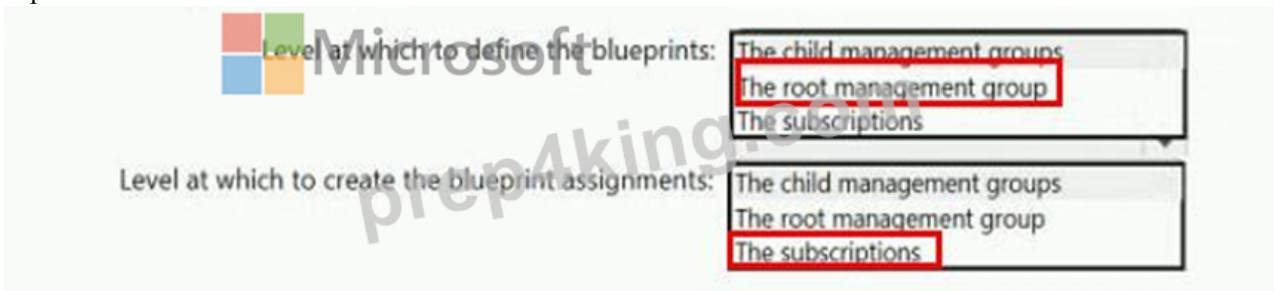

- \* Use Azure Blueprints to control governance across all the subscriptions and resource groups.
- \* Ensure that Blueprints-based configurations are consistent across all the subscriptions and resource groups.
- \* Minimize the number of blueprint definitions and assignments.

What should you include in the solution? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Reference:

Assign a blueprint After a blueprint has been published, it can be assigned to a subscription. Assign the blueprint that you created to one of the subscriptions under your management group hierarchy. If the blueprint is saved to a subscription, it can only be assigned to that subscription.

### NEW QUESTION # 194

.....

Our company is widely acclaimed in the industry, and our AZ-305 study materials have won the favor of many customers by virtue of their high quality. Started when the user needs to pass the qualification test, choose the AZ-305 study materials, they will not have any second or even third backup options, because they will be the first choice of our practice exam materials. Our AZ-305 Study Materials are devoted to research on which methods are used to enable users to pass the test faster.
