PRINCE2 Agile Foundation Sample Questions (Q139-Q144):

NEW QUESTION # 139

Which is a typical characteristic of "business as usual" work?

- A. It is executed by program management
- B. It is delivered by a temporary team
- **C. It is delivered by an established team**
- D. It requires a specific dedicated project manager

Answer: C

Explanation:

Reference: <https://www.prince2primer.com/prince2-agile-overview-part-1/>

NEW QUESTION # 140

In which workshop are the project role descriptions created?

- A. Project initiation workshop
- B. Project kickoff workshop
- C. Project canvas workshop
- **D. Starting-up workshop**

Answer: D

Explanation:

The starting-up workshop is the initial workshop where the foundation for the project is established, including the creation and clarification of project role descriptions. Defining roles early ensures clarity of responsibilities, helps establish governance, and sets expectations for the project team.

Kickoff (B) focuses on launching the project, initiation (C) develops detailed plans, and the project canvas (D) is a tool for capturing high-level information but does not define roles explicitly.

Reference: PRINCE2 Agile Foundation Version 2, Section 4.5 "Starting Up a Project," and PRINCE2 Agile Study Guide, Chapter 4.

NEW QUESTION # 141

Which organizational level is responsible for day-to-day management and decision making within the constraints established by the project manager?

- A. Directing
- B. Commissioning
- **C. Delivering**
- D. Managing

Answer: C

Explanation:

The Delivering level is responsible for the day-to-day management and decision-making within the constraints set by the project manager. Delivering teams carry out the actual work to create the project products and manage their activities under the project's governance framework. The Project Manager manages the overall project, while directing sets the strategic direction and commissioning authorizes initiation.

This separation ensures clear responsibilities and empowers the delivery teams to self-manage within defined boundaries.

Reference: PRINCE2 Agile Foundation Version 2, Section 3.4 "Project Management Structure," and PRINCE2 Agile Study Guide, Chapter 3.

NEW QUESTION # 142

Which role is responsible for facilitating the Agilometer assessment?

- A. Customer subject matter expert
- B. Team manager
- C. Project manager
- D. Project board

Answer: C

Explanation:

Reference: <https://www.axelos.com/news/blogs/september-2019/assessing-agile-factor-prince2-agiles-agileometer>

NEW QUESTION # 143

How are user inputs FIRST gathered in the 'quality' practice?

- A. As the project Definition of Done in the quality management approach
- B. As a quality control activity in the quality register
- C. As epic user stories in the project backlog
- D. As user stories in the product backlog

Answer: D

Explanation:

User inputs are initially gathered as user stories in the product backlog in PRINCE2 Agile. User stories represent small, customer-focused requirements that capture the "who," "what," and "why" of a feature. These stories form the foundation of requirements and quality criteria for the product and ensure that development is driven by user needs and value delivery.

The Definition of Done is developed later as part of the quality management approach to specify when work is complete. Epic user stories are larger features that can be broken down into smaller user stories. The quality register tracks quality-related activities but is not the first step for gathering user inputs.

NEW QUESTION # 144

.....

If you want to get satisfying result in PRINCE2 PRINCE2-Agile-Foundation practice test, our online training materials will be the best way to success, which apply to any level of candidates. We guarantee the best deal considering the quality and price of PRINCE2-Agile-Foundation Braindumps Pdf that you won't find any better available.
