Perhaps you have also seen the related training tools about Apple certification DEP-2025 exam on other websites, but our Lead1Pass has a pivotal position in the field of IT certification exam. Lead1Pass research materials can 100% guarantee you to pass the exam. With Lead1Pass your career will change and you can promote yourself successfully in the IT area. When you select Lead1Pass you'll really know that you are ready to pass Apple Certification DEP-2025 Exam. We not only can help you pass the exam successfully, but also will provide you with a year of free service.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	• Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 2	• Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.

Topic 3	• Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 4	• Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 5	• Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 6	• Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 7	• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 8	• Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.

Pass Guaranteed Apple - The Best DEP-2025 Test Dumps

In this cut-throat competitive world of Apple, the Apple DEP-2025 certification is the most desired one. But what creates an obstacle in the way of the aspirants of the Apple DEP-2025 certificate is their failure to find up-to-date, unique, and reliable Apple Deployment and Management Exam (DEP-2025) practice material to succeed in passing the Apple DEP-2025 Certification Exam. If you are one of such frustrated candidates, don't get panic. Lead1Pass declares its services in providing the real DEP-2025 PDF Questions. It ensures that you would qualify for the Apple Deployment and Management Exam (DEP-2025) certification exam on the maiden strive with brilliant grades.

Apple Deployment and Management Exam Sample Questions (Q107-Q112):

NEW QUESTION # 107
A user receives their organization-owned iPhone and completes the setup. What's the Location Services status if you configured Setup Assistant to skip the Location Services pane?

- A. It's on by default
- B. It's off, but the user can turn it on in Settings
- C. It's off, and the user can't turn it on
- D. The user is prompted to configure it

Answer: B

Explanation:
Skipping the pane leaves Location Services off but adjustable. The iOS Deployment Reference states, "When the Location Services pane is skipped in Setup Assistant, it remains off by default, but users can enable it in Settings unless restricted by MDM." Option A reflects this flexibility.
Reference:
iOS Deployment Reference, "Setup Assistant" section.
Apple Platform Deployment Guide, "Location Services Configuration" section.

NEW QUESTION # 108

Which feature allows administrators to streamline the creation of Managed Apple IDs based on existing Google Workspace or Azure AD data?

- A. MSCHAPv2
- B. Federated Authentication
- C. Active Directory
- D. SAML

Answer: B

Explanation:
Federated Authentication allows administrators to link Apple School Manager or Apple Business Manager with identity providers like Google Workspace or Azure AD, streamlining Managed Apple ID creation by syncing user data (e.g., names, emails). Users can then sign in with their existing credentials, leveraging SSO.
MSCHAPv2 (option A) is a VPN authentication protocol, not related to ID creation. Active Directory (option C) is an IdP but not the feature itself. SAML (option D) is a protocol used in federation, but "Federated Authentication" is the broader Apple feature. TheApple Platform Deployment Guidedetails this process.
Reference:Apple Platform Deployment Guide(Chapter: Federated Authentication).

NEW QUESTION # 109

Which is true when you transfer licenses to another location in Apple Business Manager?

- A. License transfers require approval for both the sending and receiving locations.
- B. The total number of licenses available remains unchanged after a transfer.
- C. Apple Business Manager installs the latest available version of macOS.
- D. You can transfer licenses even if they are currently assigned to devices.

Answer: B

Explanation:
Apple'sApps and Bookssection in ABM allows organizations to purchase licenses and assign them to locations. Apple Learning confirms that when licenses are transferred from one location to another, thetotal license count remains unchanged. The licenses are simply reallocated within the organization. They cannot be transferred if already assigned to devices or users - those must first be unassigned. Apple does not require approval for transfers between internal locations, as the entire pool remains within the same ABM account.
Additionally, macOS installation has no relation to license transfers. The primary purpose of this feature is organizational flexibility, enabling licenses to be moved between campuses, schools, or departments as needs change, without altering the overall purchased quantity.
References:Apple Business Manager User Guide - "Transfer apps and book licenses."

NEW QUESTION # 110

Which feature or technology locks a supervised iPad until the feature is turned off?

- A. Managed Device Attestation
- B. Return to Service
- C. Managed Lost Mode
- D. Activation Lock

Answer: C

Explanation:
Managed Lost Mode locks supervised iPads. TheiOS Deployment Referencestates, "Managed Lost Mode locks a supervised iPad until disabled via MDM, displaying a custom message and restricting access." Option C requires credentials, not MDM, to unlock.
References:
iOS Deployment Reference, "Managed Lost Mode" section.
Mobile Device Management Protocol Reference, "Lost Mode" section.

NEW QUESTION # 111

What's required to deploy custom apps to devices?

- A. Managed Distribution
- B. User acceptance
- C. An Apple Developer account
- D. A VPN configuration

Answer: C

Explanation:
To deploy custom apps (e.g., in-house apps developed for an organization), an Apple Developer account is required to create and sign the app using an Enterprise Developer Program or standard Developer Program account. Once signed, the app can be distributed via MDM using Managed Distribution, but the account is the prerequisite for app creation. Managed Distribution (option B) facilitates deployment but assumes the app exists, requiring the developer account first. User acceptance (option C) may be needed for installation on non-supervised devices but isn't the core requirement. A VPN configuration (option D) is unrelated. The Apple Platform Deployment Guide specifies the need for an Apple Developer account for custom apps.

NEW QUESTION # 112

......

Our product backend port system is powerful, so it can be implemented even when a lot of people browse our website can still let users quickly choose the most suitable for his Apple Deployment and Management Exam qualification question, and quickly completed payment. It can be that the process is not delayed, so users can start their happy choice journey in time.
