### NEW QUESTION # 90

Which two actions are part of the Scrum Master's role in PI Planning? (Choose two.)

- A. Ensure the team builds a plan they can commit to
- B. Serve as the Customer proxy and work with Product Management
- C. Align the Agile Release Train to a common Vision
- D. Prioritize Features to support the Program Vision
- E. Manage the program board

**Answer: A,E**

### NEW QUESTION # 91

What is one example of an Agile Team development practice?

- A. Visualizing effort
- B. Tracking regulations
- C. Writing requirements
- D. Demoing frequently

**Answer: D**

Explanation:

One example of an Agile Team development practice is to demo working functionality frequently to the product owner and other stakeholders. This practice helps the team to get fast feedback, validate their assumptions, and ensure that they are delivering value that meets the customer needs and expectations. Demoing frequently also helps the team to improve the quality of their work, as they have to ensure that the functionality is tested and meets the definition of done before showing it to others. Demoing frequently is part of the SAFe Scrum and SAFe Team Kanban practices, and is done at the end of each iteration in the Iteration Review event.

:

Iteration Review - Scaled Agile Framework

SAFe Team Kanban - Scaled Agile Framework

Agile Teams - Scaled Agile Framework

There is no way a team can fail if they carry out all of the Scrum or Lean-Agile events successfully.

- Answer: A**
