## Pass Guaranteed 2026 C-BCFIN-2502: SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Useful Exam Tests

To keep you updated with latest changes in the C-BCFIN-2502 test questions, we offer one-year free updates in the form of new questions according to the requirement of C-BCFIN-2502 real exam. Updated C-BCFIN-2502 vce dumps ensure the accuracy of learning materials and guarantee success of in your first attempt. Why not let our C-BCFIN-2502 Dumps Torrent help you to pass your exam without spending huge amount of money.

## SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q53-Q58):

### NEW QUESTION # 53

Which solution helps multi-ERP system clients centralize their accounting and reporting system?

- A. SAP S/4HANA Cloud for central finance
- B. SAP Advanced Financial Closing
- C. SAP Analytics Cloud

- D. SAP Integration Suite

**Answer: A**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

Many large enterprises operate in a fragmented IT landscape where multiple ERP systems (both SAP and non-SAP) are used across different subsidiaries or regions. SAP S/4HANA Cloud for central finance is the specific deployment option designed to bridge these gaps without requiring a full-scale migration of all local systems at once. It allows organizations to replicate financial transactions from various source systems into a single, centralized SAP S/4HANA instance in real-time.

By using Central Finance, a company can create a centralized accounting and reporting system that serves as a "Single Source of Truth" for the entire group. This enables centralized processes such as "Central Payments," "Central Credit Management," and "Centralized Reporting." Instead of waiting for period-end extracts from dozens of different systems, the group finance team can see the total financial position of the company at any moment. This significantly simplifies the consolidation process and provides a clear path for digital transformation. It allows the CFO to harmonize data and processes at the corporate level while local entities continue to operate on their existing legacy systems, providing a low-risk, high-value approach to modernizing the finance function.

#### NEW QUESTION # 54

Which SAP function within International Trade Management is designed to optimize costs by efficiently handling import and duties?

- A. Trade Preference Management
- **B. Customs Management**
- C. Compliance Business Partner Management
- D. Sanctioned Party Screening

**Answer: B**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

Within the SAP Global Trade Services (GTS) framework, Customs Management is the specific functional area dedicated to the technical and financial aspects of moving goods across borders. While compliance-focused modules ensure you are "allowed" to trade, Customs Management focuses on the "how" and the "cost." It automates the calculation of duties and taxes based on the Harmonized System (HS) codes and the value of the goods, ensuring that companies pay the correct amount—and not more.

By leveraging Customs Management, organizations can participate in special customs procedures such as bonded warehousing or foreign trade zones (FTZ), which allow for the deferral or reduction of duty payments.

It facilitates direct electronic communication with customs authorities, speeding up the clearance process and reducing the risk of costly storage fees at ports. For the CFO, this represents a significant opportunity for cost optimization and cash flow management. By automating the filing of entry summaries and import declarations, SAP ensures that the organization maintains a high level of accuracy in its financial records related to landed costs, directly impacting the gross margin and overall profitability of international operations.

#### NEW QUESTION # 55

What is the primary function of SAP SuccessFactors?

- A. To enhance customer relationship management
- B. To manage financial operations
- **C. To optimize human resource management**
- D. To automate payroll processing

**Answer: C**

#### NEW QUESTION # 56

What is the primary function of SAP Ariba?

- A. To enhance customer relationship management

- B. To manage financial operations
- **C. To optimize procurement processes**
- D. To automate payroll processing

**Answer: C**

#### NEW QUESTION # 57

Which of the following is a benefit of using SAP Analytics Cloud?

- **A. Real-time insights and predictive analytics**
- B. Manual data integration
- C. Limited data visualization
- D. No support for financial reporting

**Answer: A**

#### NEW QUESTION # 58
