According to the needs of all people, the experts and professors in our company designed three different versions of the GH-900 certification training dumps for all customers. The three versions are very flexible for all customers to operate. According to your actual need, you can choose the version for yourself which is most suitable for you to preparing for the coming exam. All the GH-900 Training Materials of our company can be found in the three versions. It is very flexible for you to use the three versions of the GH-900 latest questions to preparing for your coming exam.

Microsoft GH-900 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Privacy, Security, and Administration: This domain measures skills of Security Administrators and Organization Managers in securing and administering GitHub environments. It covers ensuring repository security through branch protection rules, using security tools like Dependabot, managing access and permissions at repository and organization levels, creating and managing organizations, setting up organization-level security, and overseeing teams and members.
Topic 2	<ul style="list-style-type: none"> Benefits of the GitHub Community: This section targets Community Managers and Open Source Contributors, focusing on engaging with the GitHub community. Candidates learn to participate in open source projects, utilize GitHub Discussions for collaboration and support, and contribute meaningfully to community-driven projects.
Topic 3	<ul style="list-style-type: none"> Collaboration Features: This section measures skills of Software Engineers and Team Leads and covers collaborative workflows using GitHub. It includes forking repositories, creating and managing pull requests, reviewing and merging code changes, and using GitHub Actions to support CI CD pipelines. Candidates also explore project management features such as creating and managing issues, using labels, milestones, and project boards, and tracking progress through GitHub Projects.
Topic 4	<ul style="list-style-type: none"> Working with GitHub Repositories: This domain targets Repository Administrators and Content Managers, focusing on managing repository settings and permissions. Candidates learn to configure repositories, use templates, and effectively manage files by adding, editing, and deleting. The domain also addresses versioning of files and the use of GitHub Desktop for streamlined file management tasks within repositories.

100% Pass 2026 Microsoft Pass-Sure GH-900: Exam Questions GitHub Foundations Vce

And the PDF version can be printed into paper documents and convenient for the client to take notes.

Microsoft GitHub Foundations Sample Questions (Q97-Q102):

NEW QUESTION # 97

Which of the following options is available as a default Discussion category?

- A. Bug report
- **B. Show and tell**
- C. Security concern
- D. Daily check-in

Answer: B

Explanation:

In GitHub Discussions, several default categories are provided to help organize conversations within a project. One of the default categories is Show and tell. This category is designed for users to showcase their work, share progress, or discuss achievements with the community. The other options listed (Bug report, Daily check-in, Security concern) are not default categories but could be custom categories created by the repository maintainers.

NEW QUESTION # 98

When making comments in GitHub, the supported text language is:

- A. CSS.
- **B. Markdown**
- C. JavaScript.
- D. JSON.
- E. XML

Answer: B

NEW QUESTION # 99

As a user, what feature can you use to add an issue to the top of the Issues page for easier visibility?

- A. Label the issue.
- **B. Pin the issue.**
- C. Subscribe to the issue.
- D. Star the issue.

Answer: B

NEW QUESTION # 100

As a user, which of the following default labels is used to indicate that a maintainer needs assistance on an issue or pull request?

- A. Enhancement
- B. Question
- C. Documentation
- **D. Help wanted**

Answer: D

Explanation:

In GitHub, labels are used to categorize issues and pull requests, and certain default labels are provided to help manage tasks:

* Help Wanted Label:

* Option C is correct. The "Help wanted" label is used to indicate that the maintainer of the repository needs assistance on a particular issue or pull request. This label helps in attracting contributors who might be interested in helping with specific tasks.

* Other Options:

* Option A ("Enhancement") is incorrect because it indicates a request for a new feature or improvement rather than a call for help.

* Option B ("Question") is incorrect because it is used to flag issues or pull requests that seek clarification or additional information, not necessarily requiring assistance.

* Option D ("Documentation") is incorrect because it labels issues or PRs related to documentation, not for seeking help.

GitHub Docs: Using Labels

NEW QUESTION # 101

The difference between GitHub Enterprise Server (GHES) and GitHub Enterprise Cloud is that GHES:

- A. can be deployed on both Windows and Linux.
- B. cannot enable rate limiting.
- C. includes authentication with SAML single sign-on and access provisioning with SAML or SCIM.
- **D. is a self-hosted solution that allows organizations to have full control over their infrastructure.**

Answer: D

NEW QUESTION # 102

.....
