P.S. Free 2026 Apple DEP-2025 dumps are available on Google Drive shared by ITCertMagic: <https://drive.google.com/open?id=1k5Bqk7X3VVzF2r7g3uBmQSKfDEwjcAa7>

With years of experience in compiling top-notch relevant Apple DEP-2025 dumps questions, we also offer the Apple DEP-2025 practice test (online and offline) to help you get familiar with the actual exam environment. Therefore, if you have struggled for months to pass Apple DEP-2025 Exam, be rest assured you will pass this time with the help of our Apple DEP-2025 exam dumps. Every DEP-2025 exam candidate who has used our exam preparation material has passed the exam with flying colors.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.

Topic 2	<ul style="list-style-type: none"> • Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 3	<ul style="list-style-type: none"> • Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 4	<ul style="list-style-type: none"> • Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 5	<ul style="list-style-type: none"> • Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 6	<ul style="list-style-type: none"> • Device Enrollment: This section of the exam measures the skills of an MDM Specialist and covers the three main enrollment methods for Apple devices, their core concepts, and their properties. It prepares candidates to make appropriate choices based on organizational needs.
Topic 7	<ul style="list-style-type: none"> • Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 8	<ul style="list-style-type: none"> • Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 9	<ul style="list-style-type: none"> • Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 10	<ul style="list-style-type: none"> • Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 11	<ul style="list-style-type: none"> • Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 12	<ul style="list-style-type: none"> • Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.

Exam DEP-2025 Tips | DEP-2025 Exam Paper Pdf

All DEP-2025 online tests begin somewhere, and that is what the DEP-2025 training course will do for you: create a foundation to build on. Study guides are essentially a detailed DEP-2025 tutorial and are great introductions to new DEP-2025 training courses as you advance. The content is always relevant, and compound again to make you pass your DEP-2025 Exams on the first attempt. You will frequently find these DEP-2025 PDF files downloadable and can then archive or print them for extra reading or studying on-the-go.

Apple Deployment and Management Exam Sample Questions (Q139-Q144):

NEW QUESTION # 139

You send an MDM command with a "requires tethering" option to devices to update the operating systems and apps. Where is content cached?

- A. Content isn't cached with the "requires tethering" option
- B. On the tethered iPhone or iPad
- C. At the MDM solution distribution point
- **D. On the host Mac**

Answer: D

Explanation:

When devices are updated using Apple Configurator with the "requires tethering" option, the host Mac acts as the source for software updates. In this model, the Mac downloads and caches update packages, which are then installed onto the connected iOS or iPadOS device. This bypasses typical over-the-air (OTA) caching mechanisms and content delivery networks. Apple specifies this workflow as beneficial when updating large numbers of devices in lab or classroom environments, where bandwidth efficiency and predictable installation are important. Thus, the cached update content resides on the host Mac, ensuring devices receive updates directly from a local source.

References: Apple Configurator Guide - "Update or restore software on iPhone and iPad."

NEW QUESTION # 140

Which type of Apple ID is required for Shared iPad?

- **A. Managed Apple ID**
- B. Personal Apple ID
- C. Shared Apple ID
- D. Apple ID

Answer: A

Explanation:

Shared iPad requires Managed Apple IDs, created via Apple School Manager (ASM) or Apple Business Manager (ABM), to enable multiple users to log in with separate sessions. These IDs are organization-controlled and integrate with MDM for session management. Personal Apple IDs (options B and C, the same) are for individual use and incompatible with Shared iPad. There's no "Shared Apple ID" (option D); Shared iPad uses individual Managed Apple IDs or temporary sessions. The Apple Platform Deployment Guide mandates Managed Apple IDs for Shared iPad.

NEW QUESTION # 141

What should be escrowed in MDM to enable resetting the password on a user's FileVault-encrypted Mac?

- **A. Personal recovery key**
- B. Secure token
- C. Bootstrap token
- D. Institutional recovery key

Answer: A

Explanation:

The personal recovery key, generated when FileVault is enabled, must be escrowed in MDM to allow password resets on an encrypted Mac. The macOS Security Overview states, "For MDM-managed devices, the personal recovery key can be escrowed to enable password resets or disk unlocking by an administrator." Option B is an older method, C is an authentication credential not escrowed for this purpose, and D is for updates, not password resets.

Reference:

macOS Security Overview, "FileVault Management" section.

Apple Platform Deployment Guide, "FileVault and MDM" section.

NEW QUESTION # 142

Which role in Apple Business Manager can purchase apps and assign devices?

- A. Content Manager
- B. People Manager
- C. Device Enrollment Manager
- **D. Administrator**

Answer: D

Explanation:

In Apple Business Manager (ABM), the Administrator role has broad permissions, including purchasing apps and assigning devices to MDM servers. The Content Manager (option B) can manage and distribute content (e.g., apps, books) but cannot purchase apps or assign devices. The Device Enrollment Manager (option C) focuses on enrolling and assigning devices but lacks purchasing authority. The People Manager (option D) manages user accounts, not apps or devices. The Apple Business Manager User Guide outlines the Administrator's comprehensive responsibilities, making it the correct choice.

NEW QUESTION # 143

Which type of Apple ID is required for content caching?

- A. Managed Apple ID
- B. Personal Apple ID
- **C. None of the above**
- D. Apple ID

Answer: C

Explanation:

Content caching on a Mac (macOS 10.13 or later) doesn't require an Apple ID, Managed Apple ID, or Personal Apple ID to function. It's a system-level feature enabled in macOS settings or via MDM, caching content like app updates and iCloud data for network efficiency. While iCloud caching benefits from a user's Apple ID on client devices, the caching Mac itself doesn't need one. The Apple Platform Deployment Guide confirms no Apple ID is required for content caching setup.

Reference: Apple Platform Deployment Guide (Chapter: Content Caching).

NEW QUESTION # 144

.....

If you want to pass DEP-2025 exam certification or improve your IT skills, ITCertMagic will be your best choice. With many years' hard work, the passing rate of DEP-2025 test of ITCertMagic is 100%. Our DEP-2025 Exam Dumps and training materials include complete restore and ensure you pass the DEP-2025 exam certification easier.
