Salesforce Certified Experience Cloud Consultant Sample Questions (Q153-Q158):

NEW QUESTION # 153
To which three objects can the Partner Super User access be applied?
Choose 3 answers

- A. Accounts
- B. Opportunities
- C. Campaigns
- D. Custom Objects
- E. Cases

Answer: A,B,D

Explanation:
Partner Super User access is a feature that allows you to grant access to records owned by other partner users who have the same role or a role below them in the role hierarchy. You can apply Partner Super User access to three objects: Opportunities, Accounts, and Custom Objects.

NEW QUESTION # 154
DreamHouse Reality (DR) is looking to enter the insurance business. After discussing with business advisor.
DR has decided to use independent agents to manage claims.
Which two feature are available for DR to implement a solution involving insurance agent persona?
Choose 2 answers

- A. Financial Services Lightning template
- B. Financial Services Community permission set license
- C. Insurance Agent Portal Lightning template
- D. Insurance agent permission set license

Answer: B,C

Explanation:
Financial Services Community permission set license is a license type that allows users to access Financial Services Cloud objects and features, such as policies, claims, referrals, and goals. Insurance Agent Portal Lightning template is a template that is designed for insurance agents who need to manage their leads, opportunities, policies, claims, and referrals. These two features are available for DR to implement a solution involving insurance agent persona.

NEW QUESTION # 155
What is the most efficient way that a Salesforce Admin can create a single Experience Cloud Site user from a Contact?

- A. Enable the Contact in Salesforce as a Customer user.
- B. Enable the Account as a Customer Account so all Contacts in that Account become Customer users.
- C. Email the Contact a link to the Self-Registration page for the site.
- D. Use Data Loader to add the Contact in Salesforce as a Customer user.

Answer: A

Explanation:
This option allows the Salesforce Admin to create a customer user from an existing contact that is associated with a customer account. The customer user inherits the role, profile, and permission sets from the contact.
The Salesforce Admin can also specify a username, email address, and nickname for the customer user.

NEW QUESTION # 156

Cloud Kicks (CK) has a Partner Community with an External Account hierarch. The Number of Partner Roles is set to two with the roles defined as Partner Manager and partner user.

If CK has a Partner user at a child account that creates a case, who will have access?

- A. The partner User who created the case, those in the partner Manger role above them, those in the Partner user role in the parentaccount, and those in the partner manager role in the parent account.
- B. The Partner user who created the case those in the Partner Manager role above them, and those in the Partner manager role in the Partner account
- C. The Partner user who created the case, their peers in the Partner user role, those in the Partner manager role above them, those in the Partner user role in the partner account, and those in the partner Manager role in the parent account.
- D. The partner user who created the case, their peers in the partner user role, those in the partner Manager role above them, and those in the Partner Manager role in the parent account.

Answer: C

Explanation:
The members that will be able to see the Rich Content Editor component are those that are part of both the New York City audience and the Legal Department audience. Audience targeting is a feature that allows you to display pages and components to certain users based on their assigned audience. An audience is a group of users who share common attributes, such as profile, location, or language. When you assign an audience to a page or a component, only the users who belong to that audience can see it. If you assign multiple audiences to a page or a component, only the users who belong to all of those audiences can see it.

NEW QUESTION # 157

Northern Trail Outfitters wants to add a background image to a record listof products in its digital experience.
How should an administrator accomplish this?

- A. Create CMS items.
- B. Use an HTML component
- C. Build a custom Lightning component.
- D. Use a Flexible page layout.

Answer: C

Explanation:
To add a background image to arecord list of products in its digital experience, an administrator should build a custom Lightning component. A Lightning component is a reusable unit of user interface that you can create and customize using code. A custom Lightning component allows youto add your own functionality and design to your Experience Cloud site. To add a background image to a record list of products, an administrator should build a custom Lightning component that uses the SLDS Background Image utility class and the lightning-record-list base component.

NEW QUESTION # 158
......
