A lot of my friends from IT industry in order to pass Apple certification DEP-2025 exam have spend a lot of time and effort, but they did not choose training courses or online training, so passing the exam is so difficult for them and generally, the disposable passing rate is very low. Fortunately, ActualVCE can provide you the most reliable training tool for you. ActualVCE provide training resource that include simulation test software, simulation test, practice questions and answers about Apple Certification DEP-2025 Exam. We can provide the best and latest practice questions and answers of Apple certification DEP-2025 exam to meet your need.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 2	<ul style="list-style-type: none">Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 3	<ul style="list-style-type: none">Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.

Topic 4	<ul style="list-style-type: none"> Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 5	<ul style="list-style-type: none"> Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 6	<ul style="list-style-type: none"> Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 7	<ul style="list-style-type: none"> Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 8	<ul style="list-style-type: none"> Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.

Apple DEP-2025 Exams Dumps & DEP-2025 Test Labs

Successful people are those who never stop advancing. They are interested in new things and making efforts to achieve their goals. If you still have dreams and never give up, you just need our DEP-2025 actual test guide to broaden your horizons and enrich your experience you can enjoy the first-class after sales service. Whenever you have questions about our DEP-2025 Actual Test guide, you will get satisfied answers from our online workers through email. We are responsible for all customers. All of our DEP-2025 question materials are going through strict inspection. The quality completely has no problem. The good chance will slip away if you still hesitate.

Apple Deployment and Management Exam Sample Questions (Q40-Q45):

NEW QUESTION # 40

Which type of enrollment requires a Managed Apple ID?

- A. User Enrollment
- B. Device Enrollment
- C. Automated Device Enrollment

Answer: A

Explanation:

User Enrollment, designed for BYOD, requires a Managed Apple ID to separate personal and managed data on the device. The Managed Apple ID authenticates the user for organizational policies while preserving personal privacy. Automated Device Enrollment (option A) and Device Enrollment (option B) are for organization-owned devices and don't inherently require Managed Apple IDs, though they can use them optionally. The Apple Platform Deployment Guide specifies that User Enrollment relies on Managed Apple IDs for its functionality.

Reference: Apple Platform Deployment Guide (Chapter: User Enrollment).

NEW QUESTION # 41

What's required to deploy custom apps to devices?

- A. A VPN configuration
- B. An Apple Developer account
- C. Managed Distribution

- D. User acceptance

Answer: B

Explanation:

To deploy custom apps (e.g., in-house apps developed for an organization), an Apple Developer account is required to create and sign the app using an Enterprise Developer Program or standard Developer Program account. Once signed, the app can be distributed via MDM using Managed Distribution, but the account is the prerequisite for app creation. Managed Distribution (option B) facilitates deployment but assumes the app exists, requiring the developer account first. User acceptance (option C) may be needed for installation on non-supervised devices but isn't the core requirement. A VPN configuration (option D) is unrelated. The Apple Platform Deployment Guide specifies the need for an Apple Developer account for custom apps.

NEW QUESTION # 42

You want to reset a user's forgotten password on a FileVault-encrypted Mac. What should you have escrowed in MDM to enable this?

- A. Secure Token
- **B. Personal recovery key**
- C. Bootstrap Token
- D. Institutional recovery key

Answer: B

Explanation:

On FileVault-enabled Macs, disk encryption ties directly to the user password. If the password is lost, recovery relies on keys. Apple supports two key models: the personal recovery key (PRK) and the institutional recovery key (IRK). The PRK is unique per device and can be escrowed securely to an MDM solution. In the event of a forgotten password, the IT administrator can retrieve the PRK from MDM and provide it to the user for unlocking the Mac. Apple strongly recommends escrow of PRKs in enterprise deployments to ensure encrypted Macs remain recoverable without requiring device erasure.

References: Apple Platform Security - "FileVault"; Apple Platform Deployment - "Manage FileVault with MDM."

NEW QUESTION # 43

What's required to unenroll a supervised device from an MDM solution?

- A. An Apple ID
- B. User acceptance
- **C. An administrator's approval**
- D. A wipe command

Answer: C

Explanation:

Unenrolling a supervised device from an MDM solution requires an administrator's approval, typically executed by removing the MDM profile via the MDM server. For supervised devices (via ADE or Apple Configurator), users cannot remove the profile themselves, ensuring organizational control. An Apple ID (option B) isn't required for unenrollment, though it may relate to Activation Lock. User acceptance (option C) isn't needed for supervised devices. A wipe command (option D) may accompany unenrollment but isn't mandatory. The Apple Platform Deployment Guide outlines this process for supervised devices.

NEW QUESTION # 44

What's required to use Find My on a device?

- A. A VPN configuration
- **B. An Apple ID**
- C. An MDM solution
- D. Supervision

Answer: B

Explanation:

Find My requires an Apple ID (personal or Managed) to enable device tracking, remote locking, or wiping via iCloud. It's a user-initiated feature activated in device settings, not dependent on organizational tools. An MDM solution (option A) can manage Find My settings but isn't required to use it. Supervision (option C) enhances management but isn't necessary for Find My. A VPN configuration (option D) is unrelated. The Apple Platform Security Guide specifies an Apple ID as the prerequisite for Find My.

NEW QUESTION # 45

if you choose to use the software version of our DEP-2025 study guide, you will find that you can download our DEP-2025 exam prep on more than one computer and you can practice our DEP-2025 exam questions offline as well. We strongly believe that the software version of our DEP-2025 Study Materials will be of great importance for you to prepare for the exam and all of the employees in our company wish you early success!
