PRINCE2 Practitioner Exam (PRINCE2 Practitioner) practice test software is compatible with windows and the web-based software will work on many operating systems.

PRINCE2 Practitioner Exam Sample Questions (Q191-Q196):

NEW QUESTION # 191

Additional Information

Extract from the Communication Management Strategy.

The project information in the table below is true, but it may not be recorded under the correct heading or be in the correct document.

Introduction	1. This document contains details of how the project management team will send information to individuals working on the Calendar project, and receive information from them.
Communication procedure	2. See MNO Manufacturing Company standards for all internal company communications.
Tools and techniques	3. Use the staff newsletter to launch the label design competition and to promote the chosen label design. 4. Using the number of responses to the label design competition as a measure, report fortnightly to the Project Board on the effectiveness of the staff newsletter as a vehicle for communication. 5. Use the company website to advertise the promotional calendar to customers.
Records	6. A record should be maintained for each product of the project. As a minimum this should show the project name, product name, product title, and version number. 7. External email and correspondence relating to the Calendar project should be recorded electronically in the project folder. 8. Information received in hard copy should, where possible, should be scanned and filed as above.
Timing of communication activities	9. At the end of each stage, audit and report on the performance of the communication methods being used. 10. Highlight Reports to be provided to appropriate stakeholders, at the frequency defined in each Stage Plan.
Stakeholder analysis: Interested parties	11. Photographer. 12. Print company.
Information needs for each interested party	13. Weekly updates will be provided by email to the individual producing the staff newsletter. 14. Engineering Manager is to be consulted when preparing the photo session schedule.

Using the Project Scenario, select the appropriate response to each of the following 5 questions which have been raised by the Project Board.

The project is now at the end of the initiation stage. Having decided that the Calendar project is a relatively simple project, the Project Manager combined the Starting Up a Project process and the Initiating a Project process. No Project Brief has been produced. Instead the Project Manager used the project mandate to produce a simple Project Initiation Documentation (PIO). The PIO includes the Business Case, a product checklist and several Product Descriptions, including the Project Product Description. Short sections are also included for each of the strategies and the controls to be applied. The Project Manager has elected to use the Daily Log to record all risks, issues, lessons and quality results.

After the initiation stage there will be two further stages during which a small number of Work Packages will be authorized. While these are being managed, the Project Manager will hold regular checkpoints, which will support the production of weekly Highlight Reports to the Project Board.

This question provides a number of changes which may or may not be required to the Extract from the Communication Management Strategy provided in the additional information.

Which statement applies to the Introduction section?

- A. Amend entry 1 to read 'This document contains the means and frequency of communication between the project management team, the print company and other external parties.
- **B. No change to entry 1 because this shows the purpose and content of this document.**
- C. Amend entry 1 to read 'This document contains the controls and reporting to be established for the project management team'.

Answer: B

NEW QUESTION # 192

Scenario

A central government department, the Ministry of Food Hygiene (MFH), faces increasing pressure to cut costs, better manage suppliers' performance and reduce the confusion caused by inadequate internal controls, outdated standards and outdated technology. External consultants were employed to conduct a feasibility study to identify options to address the problems, and the likely costs and benefits. The following options were considered:

Do nothing

Re-engineer selected business functions.

Outsource selected business functions.

The feasibility study concluded that there was a case for outsourcing the MFH Information Technology Division and the Facilities Division (maintenance of buildings and grounds). The recommendations were:

One service provider should be contracted to provide the services currently provided by the Information Technology Division and

the Facilities Division.

A 10-year service contract should be agreed with the selected service provider.

The feasibility study developed high-level designs of the current organization, processes, systems and operating models, plus an outline Business Case for the required project. The external consultants also made the following recommendations for the management of the project:

Use PRINCE2.

Set up the project with 4 management stages:

Stage 1. Standard PRINCE2 initiation activities.

Stage 2. Create detailed designs (future organization, processes, systems and operating models) and the service level agreement between MFH and the future service provider.

Stage 3. Request and evaluate proposals, select service provider and agree contract.

Stage 4. Transfer equipment and staff, transfer responsibility for service provision and run trial period.

Initial estimates indicated that the project would cost £2.5m and take two years to complete.

MFH senior management agreed that there was a case for outsourcing, and accepted the recommendations as a basis for the project. There is an expected saving of £20m over 10 years.

The Outsourcing project has completed the Starting up a Project process and is now in the initiation stage.

Because of the strategic importance of the project, the MFH Chief Executive Officer has taken the role of Executive. A PRINCE2-experienced Project Manager has been appointed from within MFH. Staff within the business functions being outsourced will work with the external consultants who conducted the feasibility study to define the detailed designs.

Which 2 statements should be recorded under the Business options heading?

- A. The lack of up-to-date technology in MFH means a re-engineering of existing services will not necessarily deliver the performance improvements required.
- B. Use external consultants to provide guidance on the detailed design of the outsourced services.
- C. The re-engineering of selected business functions would not provide the required outcome.
- D. Review a list of service providers to determine a short-list of possible service providers.
- E. Set up a PRINCE2 project to deliver the outsourced services.

Answer: B,E

NEW QUESTION # 193

Scenario

Additional Information

Product Description

Title	Service Level Agreement.
Purpose	<ul style="list-style-type: none"> • This agreement specifies the level of service MFH requires from the selected service provider and provides measurable criteria against which the selected service provider's performance will be assessed.
Composition	<ul style="list-style-type: none"> • Responsibilities of MFH and selected service provider. • Mechanisms for monitoring and reporting performance levels. • Dispute resolution process. • Confidentiality provisions. • Conditions for termination of contract. • Glossary of technical terms contained in SLA.
Format and presentation	<ul style="list-style-type: none"> • A4, Word document, printed both sides in black and white. • Font: Arial, 12pts.
Quality criteria	<ul style="list-style-type: none"> • Contains all composition items listed above. • Not more than 60 pages. • Complies with MFH corporate branding standards. • No typographical errors.
Quality skills required	<ul style="list-style-type: none"> • Proof-reading skills. • Director of Compliance Division - Reviewer. • Director of Information Technology Division - Reviewer. • Administrator.
Quality responsibilities	<ul style="list-style-type: none"> • Producer/Presenter: Director of Facilities Division. • Chair: Project Manager.

Quality notes from the Daily Log

The Director of Information Technology Division (DIT) has been asked to ensure that any changes to the outsourced staff employment contracts adhere to employment law. The DIT will review future job descriptions of the transferred staff before the final contract is signed with the selected service provider.

The service level agreement between MFH and the selected service provider will specify the type and quality of service required.

The selected service provider must follow the industry standards for providing outsourced services.

MFH has a quality management system which contains a document control procedure for all its documentation, however this does not include change management.

All project documents will be subject to a quality review. Nominated products will require a formal approval record signed-off by the quality review chair.

Extract from the draft Quality Management Strategy (may contain errors) Introduction

1. This document defines the approach to be taken to achieve the required quality levels during the project.
2. The Project Board will have overall responsibility for the Quality Management Strategy.
3. Project Assurance will provide assurance on the implementation of the Quality Management Strategy.

Quality management procedure - Quality standards

4. The selected service provider will operate to industry standards for providing outsourced services.
5. MFH document standards will be used.

Records

6. A Quality Register will be maintained to record the planned quality events and the actual results from the quality activities.
7. Configuration Item Records will be maintained for each product to describe its status, version and variant.

8. Approval records for products that require them will be stored in the quality database.

Roles and responsibilities

9. The DIT will check that the employment contracts for outsourced staff adhere to employment law.

10. Team Managers will provide details of quality checks that have been carried out.

11. Team Managers will ensure that the Quality Register is updated with the names of team members who are involved in the review process.

12. The Senior User will review the Product Descriptions of the products to be produced by the selected service provider to ensure that they can be achieved.

Which is a correctly defined acceptance criterion for the service level agreement (SLA) with the selected service provider?

- A. Any changes to the SLA must be managed through formal change control.
- B. External consultants are to assist in the creation of the SLA.
- C. The selected service provider should be located locally.
- **D. The SLA must extend for the full duration of the service contract.**

Answer: D

NEW QUESTION # 194

The Calendar project was delivered as originally planned, and Is now preparing for planned closure.

Lines 1 to 6 in the table below consist of an assertion statement and a reason statement. For each line identify the appropriate option, from options A to E, that applies. Each option can be used once, more than once or not at all.

	Assertion		Reason	
A	Whether the calendar achieves its objective of countering the decline in orders will be confirmed in the Closing a Project process.	True-False	The Benefits Review Plan is created in the Closing a Project process.	True-False
B	A formal quality review meeting, chaired by the Project Manager, should be held for the Project Board to compare the final deliverable against the Project Product Description.	True-False	The Project Product Description is used by the Closing a Project process to verify that the project has delivered what was expected of it.	True-False
C	The End Project Report must be completed before 30 November.	True-False	An End Project Report should be produced before a project closes.	True-False
D	The Stage Plan for stage 3 should contain details of the products to be created or updated during the Closing a Project process.	True-False	Closure activities should be planned as part of the Stage Plan for the final management stage.	True-False
E	As part of the handover of the final product a contract should be agreed with Marketing for ongoing support of this product.	True-False	A service agreement or maintenance contract should always be included as a product of the final stage.	True-False
F	At the end of stage 3, the Managing a Stage Boundary process should be used to update the Project Plan with actual from the final stage.	True-False	An objective of the Managing a Stage Boundary process is to review, and if necessary, update the Project Initiation Documentation.	True-False

Answer:

Explanation:

	Assertion	True/False	Reason	True/False
A	Whether the calendar achieves its objective of countering the decline in orders will be confirmed in the Closing a Project process.	True/False	The Benefits Review Plan is created in the Closing a Project process.	True/False
B	A formal quality review meeting, chaired by the Project Manager, should be held for the Project Board to compare the final deliverable against the Project Product Description.	True/False	The Project Product Description is used by the Closing a Project process to verify that the project has delivered what was expected of it.	True/False
