MB-335 Reliable Exam Review | Dumps MB-335 Cost

We would like to benefit our customers from different countries who decide to choose our MB-335 study guide in the long run, so we cooperation with the leading experts in the field to renew and update our study materials. Our leading experts aim to provide you the newest information in this field in order to help you to keep pace with the times and fill your knowledge gap. We can assure you that you will get the latest version of our MB-335 Training Materials for free from our company in the whole year after payment. Do not miss the opportunity to buy the best MB-335 preparation questions in the international market which will also help you to advance with the times.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q179-Q184):

NEW QUESTION # 179

You are developing a new car audio system kit. The kit configuration has restrictions based on car model, speaker size, and other expression constraints.

You need to set up a new item for the car audio system.

How should you create the new product? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Product Master

Configuration

Constraint-based configuration

The Constraint-based configuration configuration technology can only be defined if the configuration dimension is the only active dimension on the product dimension group.

NEW QUESTION # 180

You need to calculate estimated consumption of ingredients for liquid cleaning solution.

What is the consumption? To answer, select the appropriate option in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Topic 2, CASE STUDY 1 Manufacturing Company

General information

A manufacturing company produces custom configured-to-order motorcycles. The company plans to implement Dynamics 365 Supply Chain Management. The company contains one legal entity located in Missouri where all production and warehousing operations occur.

Customization options

The custom motorcycles have a variety of selections that can be selected in the listed order by the end customer, including the following:

Customization restrictions

The following restrictions on customizations are in place:

* Green color can only be sold with the Legend Trim.

* Orange color can be sold with the Sport or Legend Trim.

* The ML seat must be included in the Legend package.

* The MS seat must be included in the Sport package.

Manufacturing facilities

The company includes the following manufacturing groups: Assembly and Plastic Molding. The Assembly group is responsible for assembling the motorcycles with purchased and manufactured goods. The Plastic Molding group is responsible for manufacture of all plastic parts used in the assembly area.

Motorcycle manufacturing

The parts for the product assembly are picked from the warehouse and staged at the correct workstation by a warehouse operator for each production order.

Plastic manufacturing

Plastic parts are molded using dyes that create multiple parts at once. The parts are machined in the same production process to remove excess plastic and add additional holes for assembly. Excess plastic is recycled back into the feedstock of the same color plastic chips for use in the molding process.

Metal Parts

Raw metal parts are purchased fully machined but without primer or paint. The parts are subcontracted to a vendor for primer and paint based upon the color requirements.

Facility

The company has a single warehouse that supports both the assembly and plastic manufacturing areas. The warehouse consists of three aisles with 15 bins and three shelves. The facility has no Wi-Fi capacity but has hardwired terminal stations throughout the assembly production line.

Transactions are currently completed by office staff. Raw materials transfer must support capacity constraints for paint and primer.
Requirements

The company has a single warehouse that supports both the assembly and plastic manufacturing areas. The warehouse consists of three aisles with 15 bins and three shelves. The facility has no Wi-Fi capacity but has hardwired terminal stations throughout the assembly production line.

Transactions are currently completed by office staff. Raw materials transfer must support capacity constraints for paint and primer.
Sales Order

The company has the following requirements for sales orders:

- * During the configuration of a sales order, invalid combinations must be prevented.
- * Each configuration must create a unique bill of material (BOM) and Route based on options selected.
- * Sales pricing for the sales order must be based upon options selected.
- * Due to emissions regulations, the motorcycles cannot be sold to the state of California.

Motorcycle manufacturing

The company has the following requirements for motorcycle manufacturing:

- * Schedule labor only at the labor pool level without machines by day
- * Produce motorcycles within a scheduled day in any order.
- * Record actual production labor with start/stop times.
- * Record manager approval of labor entered prior to posting.
- * Post actual material consumption after production is finished.

Plastic manufacture

The company has the following requirements for motorcycle manufacturing:

- * Schedule both labor and machines.
- * Adjust schedules by using a Gantt chart.
- * Backflush standard labor by operation.
- * Post actual material consumption at the start of production.
- * Track and allocate costs to the excess plastic.
- * Report multiple molded part numbers during the same production run.
- * Determine the correct mold to use on a production order.
- * Generate a batch number for each production order.

Metal Parts

The company has the following requirements for metal parts manufacturing:

- * Schedule shipments to the vendor for painting.
- * Receive painted parts into inventory from the vendor.
- * Track vendor inventory levels.

Default

You must configure defaults for manufacturing execution production orders to meet the following requirements:

- * Ensure accuracy for production order pick list posting.
- * Ensure correct pick list creation.

Issues

A. In the current system, the company cannot calculate overhead rates and determine the breakdown of material, labor, machine, and overhead costs for production.

B. The company is manually calculating an 8% overhead on materials and posting a journal manually.

NEW QUESTION # 181

You are a manufacturer using Druitt 365 Supply Cham Management

A new series of orders is authorized for production.

You need to identify which documents to use for the released production order.

Which document should you use for each requirement? to answer drag the appropriate documents to the correct requirements. Each document may be used once more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 182

A discrete manufacturer uses the time and attendance registration for production operations.

All employees register daily clock in and clock out times during a 40-hour, Monday through Friday workweek.

Pay periods are every two weeks. Workers are paid hourly.

The production manager will create work schedules with the following windows:

- * Mandatory work hours
- * Work hours during which employees can leave early without accruing absences
- * Work hours during which employees can work extra time

If a junior production worker works over 90 hours in a pay period, the worker will receive time and a half over 80 hours. If a senior production worker works over 90 hours in a pay period, the worker will receive double time over 80 hours.

You need to configure the system for these requirements.

Where should you configure this functionality? To answer, drag the appropriate forms to the correct requirements. Each form may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

To configure the system for these requirements, you should use the following forms:

* Configure the overtime calculations: You should use the Workers form. This form allows you to set up and maintain information about workers, such as their personal details, employment status, and compensation¹. You can also specify the overtime rate for each worker on the Time and attendance tab². For example, you can set the overtime rate to 1.5 for junior production workers and 2 for senior production workers.

* Configure the periods of time that a worker can choose whether to work: You should use the Flex groups form. This form allows you to set up and maintain flex groups, which are groups of workers who have flexible work hours³. You can also define flex profiles for each flex group, which specify the mandatory work hours, the flex time hours, and the extra time hours for each day of the week³. For example, you can create a flex profile that has mandatory work hours from 8:00 AM to 4:00 PM, flex time hours from 4:00 PM to 6:00 PM, and extra time hours from 6:00 PM to 8:00 PM.

1: Workers 2: Set up overtime rates 3: Flex groups : [Flex profiles]

NEW QUESTION # 183

A manufacturing company is implementing the service management features for Dynamics 365 Supply Chain Management. The company has two legal entities: one for manufacturing and one for servicing and repairs.

The company manufactures a group of inventoried items for serialized devices at a single manufacturing location.

The items are used to service devices at a single servicing location.

The company has customers who must make an appointment at the servicing location at least once a year to have their devices inspected and serviced.

You need to configure a service object for this scenario.

What should you configure as a service object?

- A. manufacturing legal entity
- B. services to perform annually
- C. servicing and repairs legal entity
- D. device

Answer: B

NEW QUESTION # 184

.....

If you want to buy Microsoft MB-335 Exam Study Guide online services, then we FreeDumps is one of the leading service provider's site. These training products to help you pass the exam, we guarantee to refund the full purchase cost. Our website provide all the study materials and other training materials on the site and each one enjoy one year free update facilities. If these training products do not help you pass the exam, we guarantee to refund the full purchase cost.
