Nutanix NCA-6.10 Exam Questions - Best Study Tips And Information

Our NCA-6.10 training materials are excellent. The quality is going through official authentication. So your money paid for our NCA-6.10 practice engine is absolutely worthwhile. In addition, you are advised to invest on yourselves. After all, no one can be relied on except yourself. And you can rely on our NCA-6.10 learning quiz. We can claim that if you study with our NCA-6.10 exam questions for 20 to 30 hours, then you are bound to pass the exam for we have high pass rate as 98% to 100%.

Nutanix Certified Associate v6.10 Sample Questions (Q44-Q49):

NEW QUESTION # 44
An administrator is building a new Windows VM on a Nutanix AHV cluster. However, when the administrator tries to install the OS, no disks are listed as available.
What does the administrator need to do to resolve the issue?

- A. Enable Turbo Mode on the VM.
- B. Mount and install the Nutanix Guest Tools.
- C. Add a second disk to the VM.
- D. Mount and install the VirtIO drivers.

Answer: D

Explanation:
The correct answer is C. Mount and install the VirtIO drivers.
When installing Windows OS on a Nutanix AHV VM, the default virtual disk controller uses the VirtIO interface, which is not natively supported by Windows installation media. As a result, during the OS installation, the virtual disk will not appear unless the VirtIO drivers are manually provided.

Required Steps:
* Attach theVirtIO ISOto the VM.
* During the Windows installation, click"Load Driver".
* Browse to the mountedVirtIO ISOand select the appropriate storage driver.
* Once loaded, the installer will detect the virtual disk.
Clarifications:
* A (Add a second disk):Irrelevant; the issue is driver recognition, not disk quantity.
* B (Enable Turbo Mode):Related to performance, not disk detection.
* D (Install Nutanix Guest Tools):Doneafter OS installation, not before or during.
Prism UI Navigation Path:
VM > Edit > CD-ROM > Mount ISO # Select VirtIO ISO
Official Reference:
* Nutanix AHV Administration Guide - Creating Windows VMs
* Nutanix KB #5967 - AHV: Windows Installation on VirtIO
* Excerpt: "If the disk is not detected during Windows installation, the VirtIO ISO must be mounted and the appropriate storage
controller driver manually installed."

NEW QUESTION # 45

An administrator needs to automate the migration of a VM from ESXi to AHV.
Which utility should the administrator use?

- A. acli
- B. Flow
- C. Ncli
- D. Move

Answer: B

NEW QUESTION # 46

Which statement best describes the Storage Pool?

- A. Group of Storage Containers
- B. Group of boot drives
- C. Group of vDisks
- D. Group of physical disks

Answer: D

Explanation:
The correct answer isB. Group of physical disks.
In Nutanix architecture:
* AStorage Poolis theaggregation of physical storage devices(SSD, HDD) across all nodes in a cluster.
* Each storage pool backs one or moreStorage Containers, which are logical partitions used for data placement.
* Storage poolscannot span clustersand are always confined to the cluster in which they are defined.
Clarifications:
* A (Storage Containers): These are logical groupingswithinstorage pools.
* C (Boot Drives): These are not part of the pool.
* D (vDisks): These exist within VMs and are backed by containers, not pools directly.
Prism UI Navigation Path:
Storage > Storage Pools
Official Reference:
* Nutanix Bible - Storage Pool Definition
* Nutanix Storage Admin Guide
* Excerpt: "A storage pool is made up of physical disks from one or more nodes and serves as the physical storage foundation for
containers."

NEW QUESTION # 47

An administrator wants to collect log files that have been requested by Nutanix Support.
From which Prism Element dashboard can this be accomplished?

- A. Settings
- B. Analysis
- C. Health
- D. Alerts

Answer: C

NEW QUESTION # 48
An administrator needs to enable Self Service Restore (SSR) on a Nutanix-hosted VM.
What is required for the administrator to complete this task?

- A. VMWare Tools
- B. A Storage Container
- C. Prism Central
- D. Nutanix Guest Tools

Answer: D

Explanation:
To enable Self Service Restore (SSR) on a Nutanix-hosted VM, the VM must have Nutanix Guest Tools (NGT) installed. NGT provides integration between the VM and the Nutanix cluster, allowing features like file-level restore, application-consistent snapshots, and SSR. Administrators can use Prism Central or Element to manage SSR after enabling NGT on the VM.
* A. A Storage Container: Incorrect, as a storage container is required for storing snapshots but is not specific to SSR.
* B. Nutanix Guest Tools: Correct, as NGT is essential for enabling SSR functionality.
* C. Prism Central: Incorrect, as Prism Central helps manage SSR but is not directly required to enable it.
* D. VMWare Tools: Incorrect, as this is specific to VMware environments and not Nutanix AHV.
