## **FCP\_FSM\_AN-7.2 Passing Score Feedback & FCP\_FSM\_AN-7.2 Test Engine Version**

VCEEngine releases 100% pass-rate Fortinet FCP\_FSM\_AN-7.2 study guide files which guarantee candidates 100% pass exam in the first attempt. It is time for you to choose a valid Fortinet FCP\_FSM\_AN-7.2 study guide, this will be your best method for clearing exam and obtain a certification. Good FCP\_FSM\_AN-7.2 Study Guide will be a shortcut for you to well-directed prepare

and practice efficiently, you will avoid do much useless efforts and do something interesting.

## **Fortinet FCP - FortiSIEM 7.2 Analyst Sample Questions (Q16-Q21):**

### **NEW QUESTION # 16**

Which information can FortiSIEM retrieve from FortiClient EMS through an API connection?

- A. FortiSIEM license
- B. Host login credentials
- **C. ZTNA tags**
- D. Host software versions

**Answer: C**

Explanation:

FortiSIEM can retrieve ZTNA tags from FortiClient EMS through an API connection, enabling dynamic user and device classification for policy enforcement and incident response.

### **NEW QUESTION # 17**

Refer to the exhibit.

## Rule Properties

Create Rule

Step 1: General > Step 2: Define Condition > Step 3: Define Action

Condition: If this Pattern occurs within any  second time window

Paren	Subpattern	Paren	Nex	Row
<input type="button"/>	Failed_Logon	<input type="button"/>	<input type="button"/>	<input type="button"/>

OK Cancel

## SubPattern Properties

Edit SubPattern

Name: Failed\_Logon

Filters: Parent Attribute Operator Value Paren Next Row

<input type="button"/>	Event Type	IN	Group: Logon Failure	<input type="button"/>	<input type="button"/>	AND	OR	<input type="button"/>
------------------------	------------	----	----------------------	------------------------	------------------------	-----	----	------------------------

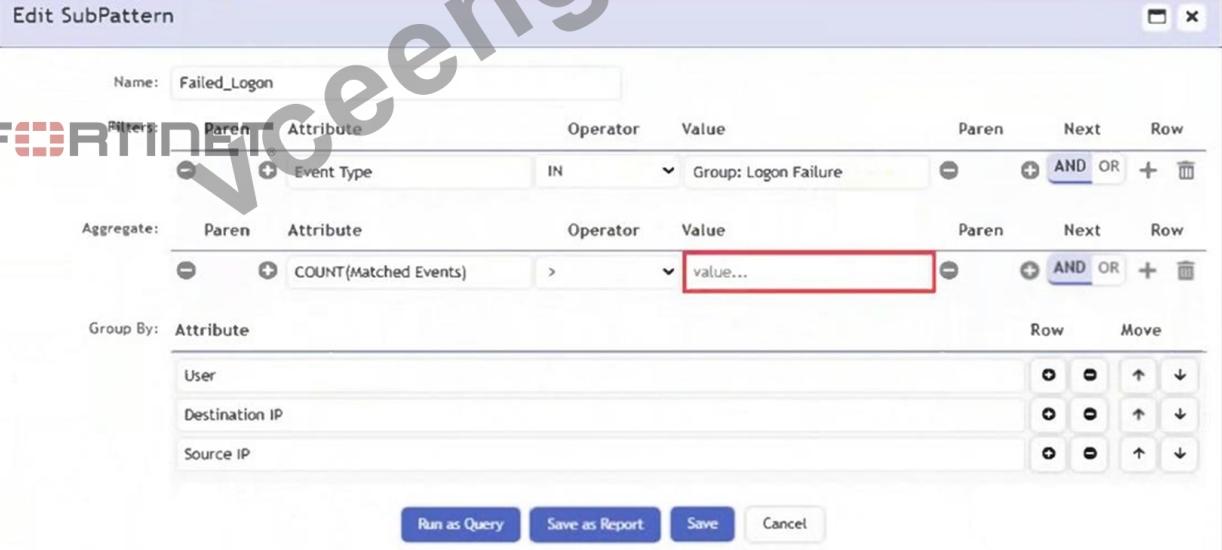

Aggregate: Parent Attribute Operator Value Paren Next Row

<input type="button"/>	COUNT(Matched Events)	>	<input type="text"/> value...	<input type="button"/>	<input type="button"/>	AND	OR	<input type="button"/>
------------------------	-----------------------	---	-------------------------------	------------------------	------------------------	-----	----	------------------------

Group By: Attribute

User	<input type="button"/>
Destination IP	<input type="button"/>
Source IP	<input type="button"/>

Run as Query Save as Report Save Cancel

An analyst wants the rule shown in the exhibit to trigger when three failed login attempts occur within three minutes. What should the values be for the condition time window and aggregate count?

- A. Time window 90 seconds, aggregate count 3
- B. Time window 180 seconds, aggregate count 2
- C. Time window 180 seconds, aggregate count 3**
- D. Time window 90 seconds, aggregate count 2

**Answer: C**

Explanation:

To detect three failed login attempts within three minutes, you must set the aggregate count to 3 in the subpattern and the time window to 180 seconds in the rule condition. This ensures the rule triggers only if three or more failed logins occur in that timeframe.

## NEW QUESTION # 18

Refer to the exhibit.

Source IP	Reporting Device	Reporting IP	Event Type	User	Count
15.2.3.4	FW01	10.1.1.1	Logon	Mike	4
21.3.4.5	FW01	10.1.1.1	Logon	Bob	3
14.12.3.1	FW01	10.1.1.1	Logon	Alice	2
192.168.1.5	FW01	10.1.1.1	Logon	Alice	2
10.1.1.1	FW01	10.1.1.1	Logon	Bob	6
123.123.1.1	FW01	10.1.1.1	Logon	Mike	5

If you group the events by User, Source IP, and Count attributes, how many results will FortiSIEM display?

- A. Six
- B. Three
- C. Five
- D. Two
- E. Four

**Answer: A**

Explanation:

Grouping by User, Source IP, and Count means that each unique combination of those three attributes will be treated as a separate result. In the table, all six rows have distinct combinations of User, Source IP, and Count - so FortiSIEM will display 6 results.

#### NEW QUESTION # 19

Refer to the exhibit.

Group By and Display Fields			Clear All	Load	Save
Attribute	Order	Display As	Row	Move	
Event Receive Time	DESC				
Reporting IP					
Event Type					
Raw Event Log					
COUNT( Matched Events )					

As shown in the exhibit, why are some of the fields highlighted in red?

- A. The attribute COUNT(Matched Events) is an invalid expression.
- B. No RAW Event Log attribute information is available.
- C. Unique values cannot be grouped B.
- D. The Event Receive Time attribute is not available for logs.

**Answer: C**

Explanation:

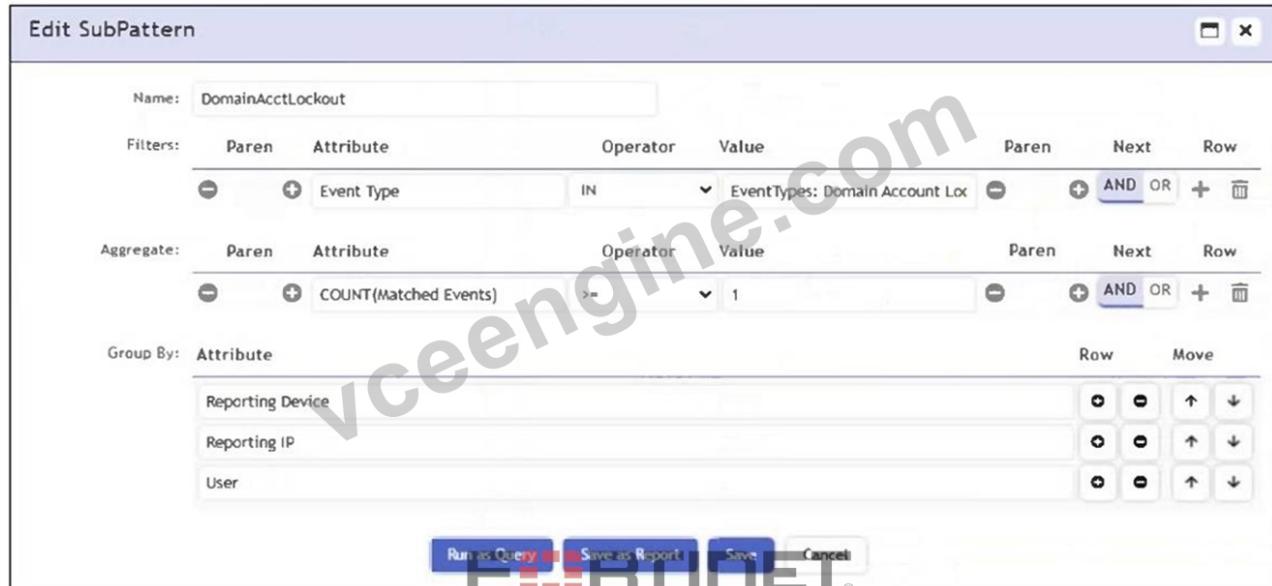

The fields are highlighted in red because unique values such as Event Receive Time and Raw Event Log cannot be used in group-by

operations. Grouping requires aggregatable or consistent values across events, while these fields are unique to each event, making them incompatible for grouping.

## NEW QUESTION # 20

Refer to the exhibit.

### Rule Subpattern

The screenshot shows the 'Edit SubPattern' dialog box. The 'Name' field is set to 'DomainAcctLockout'. The 'Filters' section contains a single rule: 'Event Type' IN 'EventTypes: Domain Account Lockout'. The 'Aggregate' section contains a rule: 'COUNT(Matched Events)' >= 1. The 'Group By' section lists 'Attribute' with three options: 'Reporting Device', 'Reporting IP', and 'User'. At the bottom are buttons for 'Run as Query', 'Save as Report', 'Save', and 'Cancel'.

Which section contains the subpattern configuration that determines how many matching events are needed to trigger the rule?

- A. Filters
- B. Actions
- C. Aggregate
- D. Group By

### Answer: C

Explanation:

The Aggregate section contains the condition COUNT(Matched Events) >= 1, which defines how many events must match the filter criteria for the rule to trigger. This is the subpattern configuration that determines the event threshold.

## NEW QUESTION # 21

.....

Many candidates may think that it will take a long time to prepare for the FCP\_FSM\_AN-7.2 exam. Actually, it only takes you about twenty to thirty hours to practice our FCP\_FSM\_AN-7.2 exam simulation. We believe that the professional guidance will help you absorb the knowledge quickly. You will have a wide range of chance after obtaining the FCP\_FSM\_AN-7.2 certificate. You need to have a brave attempt. Our FCP\_FSM\_AN-7.2 training engine will help you realize your dreams.

**FCP\_FSM\_AN-7.2 Passing Score Feedback:** [https://www.vceengine.com/FCP\\_FSM\\_AN-7.2-vce-test-engine.html](https://www.vceengine.com/FCP_FSM_AN-7.2-vce-test-engine.html)

The content of FCP\_FSM\_AN-7.2 exam torrent is the same but different version is suitable for different client, Under coordinated synergy of all staff, our FCP\_FSM\_AN-7.2 practice materials achieved a higher level of perfection by keeping close attention with the trend of dynamic market, It is online FCP\_FSM\_AN-7.2 Certification Exam which is accessible from any location with an active internet connection, Besides, FCP\_FSM\_AN-7.2 exam materials have free demo for you to have a try, so that you can know what the complete version is like.

In Software Build Systems, software productivity expert Peter Smith shows FCP\_FSM\_AN-7.2 you how to implement build systems that overcome all these problems, so you can deliver reliable software more rapidly, at lower cost.
