Our SC-401 exam materials can help you stand out in the fierce competition. After using our SC-401 study questions, you have a greater chance of passing the SC-401 certification, which will greatly increase your soft power and better show your strength. Our SC-401 training guide can bring you something. After you have used our SC-401 learning braindump, you will certainly have your own experience. Now let's take a look at why a worthy product of your choice is our SC-401 actual exam.

Microsoft SC-401 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Implement Data Loss Prevention and Retention: This section evaluates Data Protection Officers on designing and managing data loss prevention (DLP) policies and retention strategies. It includes setting policies for data security, configuring Endpoint DLP, and managing retention labels and policies. Candidates must understand adaptive scopes, policy precedence, and data recovery within Microsoft 365.

Topic 2	<ul style="list-style-type: none"> • Manage Risks, Alerts, and Activities: This section assesses Security Operations Analysts on insider risk management, monitoring alerts, and investigating security activities. It covers configuring risk policies, handling forensic evidence, and responding to alerts using Microsoft Purview and Defender tools. Candidates must also analyze audit logs and manage security workflows.
Topic 3	<ul style="list-style-type: none"> • Protect Data Used by AI Services: This section evaluates AI Governance Specialists on securing data in AI-driven environments. It includes implementing controls for Microsoft Purview, configuring Data Security Posture Management (DSPM) for AI, and monitoring AI-related security risks to ensure compliance and protection.
Topic 4	<ul style="list-style-type: none"> • Implement Information Protection: This section measures the skills of Information Security Analysts in classifying and protecting data. It covers identifying and managing sensitive information, creating and applying sensitivity labels, and implementing protection for Windows, file shares, and Exchange. Candidates must also configure document fingerprinting, trainable classifiers, and encryption strategies using Microsoft Purview.

Latest SC-401 Demo, Valid SC-401 Exam Prep

As is known to us, the leading status of the knowledge-based economy has been established progressively. It is more and more important for us to keep pace with the changeable world and improve ourselves for the beautiful life. So the SC-401 certification has also become more and more important for all people. Because a lot of people long to improve themselves and get the decent job. In this circumstance, more and more people will ponder the question how to get the SC-401 Certification successfully in a short time. And our SC-401 exam questions will help you pass the SC-401 exam for sure.

Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q180-Q185):

NEW QUESTION # 180

You have a Microsoft 365 E5 subscription that contains the sensitive information types (SITs) shown in the following table.

Name	Detection method
SIT1	Fingerprint
SIT2	Regular expression

You plan to create the policies shown in the following table and assign them to a Microsoft SharePoint Online site.

Name	Type
DLP1	Data loss prevention (DLP) policy
Retention1	Retention label auto-labeling policy
Sensitivity1	Sensitivity label auto-labeling policy

Which policies can use SIT1. and which policies can use SIT2? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

SIT1:

SIT2:

SIT3:

SIT4:

SIT5:

NEW QUESTION # 181

SIMULATION

Username and password

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and select the username below.

To enter your password, place your cursor in the Enter password box and select the password below.

Microsoft 365 Username:

admin@WWLx971455.onmicrosoft.com

Microsoft 365 Password: XXXXXXXXXX

If the Microsoft Edge browser or Microsoft 365 portal does not load successfully, select the Microsoft Edge browser icon from the task bar, type the URL "https://admin.microsoft.com", and press Enter.

The following information is for technical support purposes only:

Lab Instance: XXXXXXXXX.

Task 4

You need to block users from sending emails containing information that is subject to Payment Card Industry Data Security Standard (PCI DSS). The solution must affect only emails.

Answer:

Explanation:

Note: Policy templates

DLP policy templates are sorted into four categories:

* policies that can detect and protect types of Financial information.

Includes PCI Data Security Standard (PCI DSS), Credit card number

* Medical and health

* Privacy

* Custom policy

Use the EAC to configure a DLP policy from a template

Step 1: In the EAC, navigate to Compliance management > Data loss prevention, and then click Add Add Icon.

Step 2: On the Create a new DLP policy from a template page, complete the following fields:

Step 3: Name: Add a name that will distinguish this policy from others.

Step 4: Description: Add an optional description that summarizes this policy.

Step 5: Choose a template: Select the appropriate template to begin creating a new policy.

Step 6: Select the Payment Card Industry Data Security Standard (PCI DSS) template.

Step 7: More options: Select the mode or state. The new policy is not fully enabled until you specify that it should be. The default mode for a policy is test without notifications.

Step 8: Click Save to finish creating the policy.

NEW QUESTION # 182

You have a Microsoft 365 ES subscription that contains two Windows devices named Device1 and Device2. Device1 has the default browser set to Microsoft Edge. Device2 has the default browser set to Google Chrome.

You need to ensure that Microsoft Purview insider risk management can collect signals when a user copies files to a USB device by using their default browser.

What should you deploy to each device? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

Answer:

Explanation:

Answer Area

Device1: [The Microsoft Defender Browser Protection extension, The Microsoft Purview extension, The Microsoft Purview Information Protection client]

Device2: [The Microsoft Defender Browser Protection extension, The Microsoft Purview extension, The Microsoft Purview Information Protection client]

Explanation:
Answer Area

Device1: [The Microsoft Purview Information Protection client]

Device2: [The Microsoft Purview extension]

NEW QUESTION # 183

You have a Microsoft 365 subscription that has a retention label named Retention1. The subscription contains the files shown in the following table.

Name	Stored in	Number of sensitive information types (SITs)		
		IP address	SWIFT code	Shared access signature (SAS)
File1	Microsoft Exchange Online	2	2	4
File2	Microsoft SharePoint Online	3	5	1
File3	Microsoft OneDrive	3	3	2

You create an auto-labeling policy named Policy1 that will automatically apply Retention1 as shown in the Auto-labeling policy Exhibit. (Click the Auto-labeling policy tab.) You configure Policy1 to apply Retention1 as shown in the Locations exhibit. (Click the Locations tab.) For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
Retention1 is applied to File1.	<input type="radio"/>	<input type="radio"/>
Retention1 is applied to File2.	<input type="radio"/>	<input type="radio"/>
Retention1 is applied to File3.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Answer Area

Statements	Yes	No
Retention1 is applied to File1.	<input checked="" type="checkbox"/>	<input type="radio"/>
Retention1 is applied to File2.	<input checked="" type="checkbox"/>	<input type="radio"/>
Retention1 is applied to File3.	<input checked="" type="checkbox"/>	<input type="radio"/>

Explanation:

Answer Area

Statements	Yes	No
Retention1 is applied to File1.	<input checked="" type="radio"/>	<input type="radio"/>
Retention1 is applied to File2.	<input checked="" type="radio"/>	<input type="radio"/>
Retention1 is applied to File3.	<input checked="" type="radio"/>	<input type="radio"/>

NEW QUESTION # 184

You have a Microsoft 365 subscription that contains the users shown in the following table.

Name	Email address	Distribution group
User1	user1@contoso.com	Finance
User2	user2@contoso.com	Sales

You create the data loss prevention (DLP) policies shown in the following table.

Name	Order	Apply policy to	Conditions	Actions	Exceptions	User notifications	Additional options
Policy1	0	Exchange email for the Finance distribution group	Content shared with people outside my organization. Content contains five or more credit card numbers.	Encrypt the message by using the Encrypt email messages option.	user4@fabrikam.com	Send an incident report to the administrator.	If there's a match for this rule, stop processing additional DLP policies and rules.
Policy2	1	All locations of Exchange email	Content shared with people outside my organization. Content contains five or more credit card numbers.	Require access or encrypt the content in Microsoft 365 locations. Block only people outside your organization.	None	Send an incident report to the administrator.	None

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
If User1 sends an email message that contains five credit card numbers to user4@fabrikam.com, the message will be encrypted.	<input type="radio"/>	<input type="radio"/>
If User1 sends an email message that contains five credit card numbers to orders@adatum.com, the message will be encrypted and delivered.	<input type="radio"/>	<input type="radio"/>
If User2 sends an email message that contains five credit card numbers to orders@adatum.com, the message will be encrypted and delivered.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Answer Area

Statements	Yes	No
If User1 sends an email message that contains five credit card numbers to user4@fabrikam.com, the message will be encrypted.	<input checked="" type="radio"/>	<input type="radio"/>
If User1 sends an email message that contains five credit card numbers to orders@adatum.com, the message will be encrypted and delivered.	<input type="radio"/>	<input checked="" type="radio"/>
If User2 sends an email message that contains five credit card numbers to orders@adatum.com, the message will be encrypted and delivered.	<input checked="" type="radio"/>	<input type="radio"/>

Explanation:

If User1 sends an email externally with five credit card numbers, Policy1 applies. # Yes If User1 sends an email externally with five credit card numbers, Policy2 also applies. # No (stopped by Policy1).

If User2 sends an email externally with five credit card numbers, Policy2 applies. # Yes

Policy1

Order: 0 (highest priority).

Scope: Exchange email for the Finance distribution group.

Conditions: Content shared externally AND contains # 5 credit card numbers.

Actions: Encrypt with "Encrypt email" option.

Additional options: Stop processing additional DLP policies and rules.

Policy2

Order: 1 (lower priority).

Scope: All Exchange email.

Conditions: Content shared externally AND contains # 5 credit card numbers.

Actions: Restrict/block OR encrypt depending on configuration, notify admin.

Additional options: None.

User-by-user Analysis

User1 (Finance group):

Policy1 applies first (priority 0).

If User1 sends email externally with # 5 CCNs, Policy1 encrypts the email and stops further processing.

Therefore, Policy2 never applies to User1.

User2 (Sales group):

Not in Finance, so Policy1 does not apply.

Policy2 applies (all Exchange email).

If User2 sends email externally with # 5 CCNs, Policy2 action is enforced (restrict/block or encrypt).

NEW QUESTION # 185

.....

DumpsReview Microsoft SC-401 Dumps are an indispensable material in the certification exam. It is no exaggeration to say that the value of the certification training materials is equivalent to all exam related reference books. After you use it, you will find that everything we have said is true.
