VMware 3V0-21.23 certification exam is a very difficult test. Even if the exam is very hard, many people still choose to sign up for the exam. As to the cause, 3V0-21.23 exam is a very important test. For IT staff, not having got the certificate has a bad effect on their job. VMware 3V0-21.23 certificate will bring you many good helps and also help you get promoted. In a word, this is a test that will bring great influence on your career. Such important exam, you also want to attend the exam.

VMware 3V0-21.23 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">IT Architectures, Technologies, Standards: This section of the exam measures the skills of IT Architects and covers differentiating between business and technical requirements, as well as conceptual, logical, and physical design. A key skill measured is "Designing System Availability."
Topic 2	<ul style="list-style-type: none">Plan and Design the VMware Solution: This part targets Solution Designers, evaluating their ability to gather business objectives, create conceptual models based on these objectives, develop logical designs, and translate them into physical designs that meet specific requirements like manageability or security.

Topic 3	<ul style="list-style-type: none"> VMware Products and Solutions: Targeting VMware Engineers, this section describes VMware Cloud Foundation architecture, its components like vSphere and NSX, benefits such as automation and scalability, and use cases like hybrid cloud environments. It assesses understanding of VMware Validated Solutions.

3V0-21.23 Latest Dumps Book | Newest VMware vSphere 8.x Advanced Design 100% Free Latest Braindumps Pdf

If you want to pass your exam just one time, then our 3V0-21.23 exam torrent will be your best choice. We can help you pass your exam just one time, and if you fail the exam in your first attempt after using 3V0-21.23 exam torrent, we will give you refund, and no other questions will be asked. Moreover, 3V0-21.23 Exam Braindumps of us are high-quality, and we have helped lots of candidates pass the exam successfully. We have received many good feedbacks from our customers. We offer you online and offline chat service stuff, if you have any questions about 3V0-21.23 exam torrent, you can consult them.

VMware vSphere 8.x Advanced Design Sample Questions (Q84-Q89):

NEW QUESTION # 84

As part of a new hybrid cloud initiative for a large financial company, the customer technical team is presenting an overview of the current state of the infrastructure and their vision for a new solution. The project team captures notes during the presentation and adds them to the discovery documentation.

Which of the listed statements is a design constraint?

- A. The applications are created in-house with in-guest recovery protection
- B. The maximum tolerable data loss is 10 minutes
- C. The two data center locations have a network latency of 8 ms round-trip time (RTT)
- D. The existing storage is out of maintenance

Answer: C

NEW QUESTION # 85

A VMware Service Provider is tasked with delivering a solution for continuous availability for a subset of Tier 1 virtual machines (VMs) and vApps running in their vSAN environment. The VMs make up a mission-critical application and there can be no data loss in the event of an outage at their primary data center. In the event of a regional outage, they have established a 10-minute recovery point objective (RPO). Failover/failback to the third site must be automated.

They have the following in place:

- Two local data centers (primary and secondary) connected with 100 Gb dedicated fiber
- 2ms round-trip time (RTT) latency between the sites
- A third data center located on another power grid
- 70ms latency between the primary and secondary data centers
- Matching storage arrays at all locations

Which two solutions could be used to meet the requirements- (Choose two.)

- A. Site Recovery Manager
- B. Snapshots
- C. vSAN Metro Cluster
- D. vSphere Data Protection
- E. vStorage APIs for Array Integration (VAAI)

Answer: A,C

Explanation:

Metro is a stretched-cluster, vSAN tolerates 5ms to main sites first-second and 150ms to a third site where a witness vm will stay, all details are correct till now. Matching storage arrays at all locations seems to be, or its a single datastore presented to infrastructure itself. As the third site has an infrastructure established as well can be used to replicate VMs from the stretched

datastore from first-second, the need of Site Recovery.

NEW QUESTION # 86

What does addressing scalability requirements involve in a vSphere design?

- A. Identifying potential risks and threats to the scalability of the vSphere environment.
- B. Determining the expected levels of system performance and responsiveness.
- C. Creating a logical representation of the vSphere host's structure and components.
- **D. Ensuring that the vSphere hosts can handle increased workloads and growing demands.**

Answer: D

NEW QUESTION # 87

A VMware Service Provider is tasked with delivering a solution for continuous availability for a subset of Tier 1 virtual machines (VMs) and vApps running in their vSAN environment. The VMs make up a mission-critical application and there can be no data loss in the event of an outage at their primary data center.

In the event of a regional outage, they have established a 10-minute recovery point objective (RPO).

Failover/failback to the third site must be automated.

They have the following in place:

- Two local data centers (primary and secondary) connected with 100 Gb dedicated fiber
- 2ms round-trip time (RTT) latency between the sites
- A third data center located on another power grid
- 70ms latency between the primary and secondary data centers
- Matching storage arrays at all locations.

Which two solutions could be used to meet the requirements? (Choose two.)

- **A. Site Recovery Manager**
- B. Snapshots
- **C. vSAN Metro Cluster**
- D. vSphere Data Protection
- E. vStorage APIs for Array Integration (VAAI)

Answer: A,C

NEW QUESTION # 88

A customer requests a review of its current vSphere platform design.

The following information is noted:

There are three different workload profiles for the virtual machines:

- Tier-1 virtual machines operate resource-intensive applications and require dedicated allocations for CPU and RAM.
- Tier-2 virtual machines operate internet-facing applications and require access to externally facing networks.
- Tier-3 virtual machines operate platform management tools such as vCenter Server and have different lifecycle management requirements.

Tier-1, Tier-2 and Tier-3 virtual machines are all hosted on a single large vSphere cluster.

The Chief Information Security Officer (CISO) has raised concerns that hosting externally facing applications alongside management tools does not meet internal compliance standards.

The Operations team has raised concerns about Tier-1 virtual machines negatively impacting the performance of vCenter Server.

The Operations lead has stated that management changes have consistently been rejected by application teams.

As a result of the review, which recommendation should the architect make regarding the design of this platform?

- A. Separate Tier-1, Tier-2 and Tier-3 virtual machines using dedicated distributed virtual switches (DVS)
- B. Separate Tier-1, Tier-2 and Tier-3 virtual machines using resource pools and shares
- **C. Separate Tier-1, Tier-2 and Tier-3 virtual machines onto dedicated clusters**
- D. Separate Tier-2 virtual machines onto a dedicated cluster

Answer: C

Explanation:

C: Separate Tier-1, Tier-2 and Tier-3 virtual machines onto dedicated clusters This will address the CISO's and Operations team concerns.

NEW QUESTION # 89

Our company has authoritative experts and experienced team in related industry. To give the customer the best service, all of our company's 3V0-21.23 learning materials are designed by experienced experts from various field, so our 3V0-21.23 Learning materials will help to better absorb the test sites. One of the great advantages of buying our product is that can help you master the core knowledge in the shortest time. At the same time, our 3V0-21.23 learning materials discard the most traditional rote memorization methods and impart the key points of the qualifying exam in a way that best suits the user's learning interests, this is the highest level of experience that our most authoritative think tank brings to our 3V0-21.23 Learning Materials users. Believe that there is such a powerful expert help, our users will be able to successfully pass the qualification test to obtain the qualification certificate.
