Exam Dumps AB-900 Free | Latest AB-900 Test Testking

Free4Torrent will give you the best exam AB-900 study guide for your exam. The validity and reliability of our AB-900 practice torrent is confirmed by our experts. There are many customers have passed their AB-900 exam with our help. Our AB-900 test materials will be updated on the homepage and timely update the information related to the AB-900 qualification examination. We will give some promotion on our pdf cram, so that you can get the most valid and cost effective AB-900 prep material. So you can rest assured to choose our AB-900 training guide.

Microsoft 365 Copilot & Agent Administration Fundamentals Sample Questions (Q18-Q23):

NEW QUESTION # 18

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Answer Area

Statements	Yes	No
Prompts and responses issued by users in Microsoft 365 Copilot are used by Microsoft to train models.	<input type="radio"/>	<input type="radio"/>
Content retrieved by using Microsoft Graph is used by Microsoft to train models.	<input type="radio"/>	<input type="radio"/>
Microsoft 365 Copilot honors the security permissions in your Microsoft 365 subscription.	<input type="radio"/>	<input type="radio"/>

Answer:

Explanation:

Answer Area

Statements	Microsoft	Yes	No
Prompts and responses issued by users in Microsoft 365 Copilot are used by Microsoft to train models.		<input checked="" type="radio"/>	<input type="radio"/>
Content retrieved by using Microsoft Graph is used by Microsoft to train models.		<input checked="" type="radio"/>	<input type="radio"/>
Microsoft 365 Copilot honors the security permissions in your Microsoft 365 subscription.		<input type="radio"/>	<input checked="" type="radio"/>

Explanation:

The correct selections are No, No, Yes . Microsoft states that in Microsoft 365 Copilot and Microsoft 365 Copilot Chat, prompts and responses aren't used to train the underlying foundation models . Microsoft also documents that Copilot works within the Microsoft 365 service boundary and that data accessed through Microsoft Graph isn't used to train foundation models . That makes statements 1 and 2 No .

Statement 3 is Yes because Microsoft documents that Microsoft 365 Copilot honors the same data protection, access control, and compliance capabilities that apply across Microsoft 365. Microsoft also states that Copilot only surfaces organizational data that users already have permission to access, including content retrieved through Microsoft Graph in services such as SharePoint, OneDrive, Exchange, and Teams.

NEW QUESTION # 19

You need to create a Microsoft 365 Copilot agent that can create charts and visualizations based on a Microsoft Excel workbook. What should you configure for the agent?

- A. the image generator capability
- B. the Scrum Assistant template
- C. the Customer Insights Assistant template
- **D. the code interpreter capability**

Answer: D

NEW QUESTION # 20

Your organization has a Microsoft 365 subscription.

You need to investigate security incidents and alerts raised from the Windows 11 devices in your organization.

What should you use?

- A. Microsoft Entra ID Protection
- B. Microsoft Purview Insider Risk Management
- **C. Microsoft Defender for Endpoint**
- D. Microsoft Defender for Identity

Answer: C

Explanation:

Microsoft Defender for Endpoint in Microsoft 365 allows security teams to investigate, analyze, and remediate security incidents on Windows 11 devices via the Microsoft Defender portal (security.microsoft.com). It provides a unified experience to view device timelines, threat intelligence, and alerts, enabling automatic or manual response to threats like malware and phishing.

NEW QUESTION # 21

Select the answer that correctly completes the sentence.

Answer:

Explanation:

Explanation:

The correct answer is Microsoft Defender XDR . Microsoft Learn defines Microsoft Defender XDR as a unified pre- and post-breach enterprise defense suite that natively coordinates detection, prevention, investigation, and response across endpoints, identities, email, and applications to provide integrated protection against sophisticated attacks. That wording matches the sentence in the question almost exactly, which makes this the clearly correct choice.

The other options do not fit that definition. Microsoft Entra Conditional Access is Microsoft's Zero Trust policy engine used to evaluate signals and enforce access policies, not a cross-domain threat detection and response suite. Microsoft Entra ID Protection focuses on detecting and responding to identity risks such as risky sign-ins and risky users. Microsoft Purview is Microsoft's portfolio for data governance, data security, and compliance. None of those products is described by Microsoft as coordinating detection, prevention, investigation, and response across endpoints, identities, email, and applications in the same integrated XDR manner. Therefore, the only answer that correctly completes the sentence is Microsoft Defender XDR .

NEW QUESTION # 22

Hotspot Question

Select the answer that correctly completes the sentence.

Answer:

Explanation:

NEW QUESTION # 23

.....

As the authoritative provider of AB-900 learning materials, we can guarantee a high pass rate compared with peers, which is also proved by practice. Our good reputation is your motivation to choose our learning materials. We guarantee that if you under the guidance of our AB-900 learning materials step by step you will pass the exam without a doubt and get a certificate. Our learning materials are carefully compiled over many years of practical effort and are adaptable to the needs of the exam. We firmly believe that you cannot be an exception. Choosing our AB-900 Study Material actually means that you will have more opportunities to be promoted in the near future.
