Study Guide FCP_FMG_AD-7.6 Pdf | FCP_FMG_AD-7.6 Latest Exam Cost

One of features of FCP_FMG_AD-7.6 training materials of us is that we can help you pass the exam just one time, and we also pass guarantee and money back guarantee for you fail to pass the exam. You just need to send your failure scanned to us, and we will give you full refund. In addition, FCP_FMG_AD-7.6 exam dumps contain both questions and answers, which can help you have a quickly check after you finish your practice. We also have online and offline chat service stuff, they possess the professional knowledge about the FCP_FMG_AD-7.6 Training Materials, if you have any questions just contact us.

Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q43-Q48):

NEW QUESTION # 43

What is the purpose of ADOM revisions?

- A. ADOM revisions compare previous snapshots of the Policy Package and ADOM-level objects with the device-level database.
- B. ADOM revisions show specific changes in a policy package when it is installed.
- C. ADOM revisions save the current state of all policy packages and objects for an ADOM.
- D. ADOM revisions find unused, duplicate, and unnecessary firewall policies and objects.

Answer: C

Explanation:

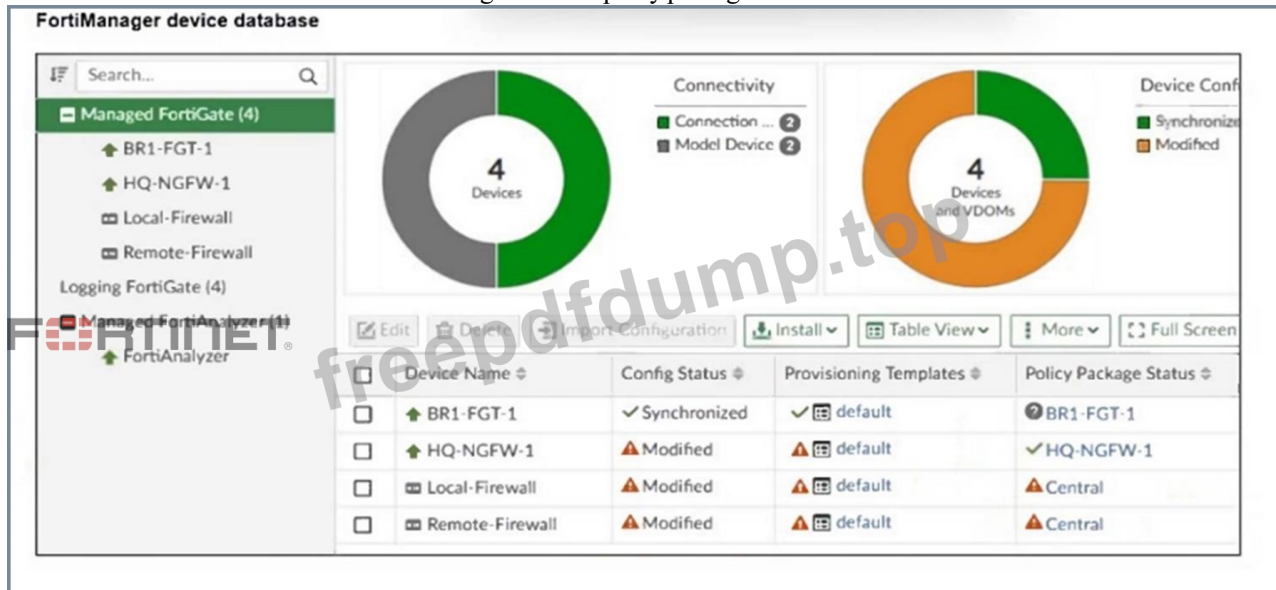

ADOM revisions save the current state of all policy packages and objects within an ADOM, allowing administrators to track changes over time and revert to previous configurations if needed.

NEW QUESTION # 44

Refer to the exhibits. An administrator has been asked to install the same policies from a central policy package onto the BR1-FGT-1 firewall.

The administrator added BR1-FGT-1 as a target in the central policy package installation.

What should the administrator do when reinstalling the central policy package on the BR1-FGT-1 firewall?

Installation Targets Central policy package

BR1-FGT-1	Installation Target	Config Status	Policy Package Status
Central	BR1-FGT-1	✓ Synchronized	BR1-FGT-1
Firewall Policy	Local-Firewall	Unknown	Central
Installation Targets	Remote-Firewall	Unknown	Central
HQ-NGFW-1			
default			

- A. Assign only one policy package to the firewall because FortiManager does not allow more than one policy package assigned per device at the same time.
- B. First resolve the modified status in the configuration and provisioning templates to allow a smooth installation.
- C. Use the install wizard to install the central policy package on the BR1-FGT-1 firewall.
- D. Import the policy package to change the unknown status and synchronize the policy package.

Answer: C

Explanation:

Using the Install Wizard is the recommended method to reinstall the central policy package on the BR1-FGT-1 firewall, ensuring all settings, installation targets, and dependencies are correctly processed during installation.

NEW QUESTION # 45

Push updates are failing on a FortiGate device located behind a network address translation (NAT) device?

Which two settings should the administrator check to correct this problem? (Choose two.)

- A. Make sure the Bind to IP address option on the FortiGuard service interface is set to the virtual IP address from the NAT device.
- B. Make sure FortiGuard updates and web service are enabled on the FortiGuard service interface.
- C. Make sure the virtual IP address and the correct ports are configured on the NAT device.
- D. Make sure the NAT device IP address and the correct ports are configured on FortiManager.

Answer: C,D

Explanation:

What if FortiManager is behind a NAT device?

If FortiManager is behind a NAT device, sending its IP address for push updates causes push updates to fail because this is a non-routable IP address from the FDN. You must configure the following:

- * On FortiManager, configure the NAT device IP address and port used for push updates.
- * On the NAT device, configure the virtual IP and port that forwards to FortiManager.device.

NEW QUESTION # 46

What must you consider before deciding to use FortiManager to manage a FortiAnalyzer device?

- A. Confirm that FortiManager has enough storage capacity for the expected logs.
- B. Ensure that FortiAnalyzer features are installed in advance.
- C. Check whether FortiManager is part of a high availability (HA) cluster.
- **D. Determine whether the VDOMs of the same FortiGate will be assigned to different ADOMs.**

Answer: D

Explanation:

When FMG is managing a FAZ, you cannot switch to advanced mode. And it's only in advanced mode Vdoms of the same Fortigate can be assigned to different ADOM.

NEW QUESTION # 47

The administrator uses FortiManager to push a CLI script using the Remote FortiGate Directly (via CLI) option to configure an IPsec VPN. However, when running the script, the administrator receives the following error:

config vpn ipsec phase2-interface [parameter(s) invalid. detail: object mismatch] What must the administrator do to resolve the script error and successfully apply the IPsec configuration?

- A. Add the end command after finishing the IPsec phase 1-interface configuration block.
- B. Use IPsec templates to deploy provisioning templates.
- **C. Run the script using the policy package or ADOM database method.**
- D. Add a second config vpn ipsec phase2-interface block without linking it to phase1.

Answer: C

Explanation:

When you execute a script directly on a device, the changes are automatically applied on the device. You do not need to take any further action to apply the changes; however, you cannot preview the changes before they are applied.

NEW QUESTION # 48

.....

In the same way, IE, Firefox, Opera and Safari, and all the major browsers support the web-based Fortinet FCP_FMG_AD-7.6 practice test. So it requires no special plugins. The web-based FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) practice exam software is genuine, authentic, and real so feel free to start your practice instantly with FCP - FortiManager 7.6 Administrator (FCP_FMG_AD-7.6) practice test.
