Our CMMC-CCA quiz torrent can help you get out of trouble regain confidence and embrace a better life. Our CMMC-CCA exam question can help you learn effectively and ultimately obtain the authority certification of Cyber AB, which will fully prove your ability and let you stand out in the labor market. We have the confidence and ability to make you finally have rich rewards. Our CMMC-CCA Learning Materials provide you with a platform of knowledge to help you achieve your wishes. Our CMMC-CCA study materials have unique advantages for you to pass the CMMC-CCA exam.

Cyber AB CMMC-CCA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• CMMC Level 2 Assessment Scoping: This section of the exam measures skills of cybersecurity assessors and revolves around determining the proper scope of a CMMC assessment. It involves analyzing and categorizing Controlled Unclassified Information (CUI) assets, interpreting the Level 2 scoping guidelines, and making accurate judgments in scenario-based exercises to define what assets and systems fall within assessment boundaries.
Topic 2	<ul style="list-style-type: none">• CMMC Assessment Process (CAP): This section of the exam measures skills of compliance professionals and tests knowledge of the full assessment lifecycle. It covers the steps needed to plan, prepare, conduct, and report on a CMMC Level 2 assessment, including the phases of execution and how to document and follow up on findings in alignment with DoD and CMMC-AB expectations.
Topic 3	<ul style="list-style-type: none">• Evaluating Organizations Seeking Certification (OSC) against CMMC Level 2 Requirements: This section of the exam measures skills of cybersecurity assessors and focuses on evaluating the environments of organizations seeking certification at CMMC Level 2. It covers understanding differences between logical and physical settings, recognizing constraints in cloud, hybrid, on-premises, single, and multi-site environments, and knowing what environmental exclusions apply for Level 2 assessments.

Topic 4	<ul style="list-style-type: none"> Assessing CMMC Level 2 Practices: This section of the exam measures skills of cybersecurity assessors in evaluating whether organizations meet the required practices of CMMC Level 2. It emphasizes applying CMMC model constructs, understanding model levels, domains, and implementation, and using evidence to determine compliance with established cybersecurity practices.

Free PDF Quiz Cyber AB - CMMC-CCA - Certified CMMC Assessor (CCA) Exam Authoritative Exam Passing Score

At the same time, CMMC-CCA study material also has a timekeeping function that allows you to be cautious and keep your own speed while you are practicing, so as to avoid the situation that you can't finish all the questions during the exam. With CMMC-CCA Learning Materials, you only need to spend half your money to get several times better service than others. And you can get the CMMC-CCA certification with little effort and money.

Cyber AB Certified CMMC Assessor (CCA) Exam Sample Questions (Q33-Q38):

NEW QUESTION # 33

An OSC receives a POA&M during their CMMC L2 assessment. 170 days later, they submit an updated POA&M with evidence of all corrective actions. Can the C3PAO still conduct a close-out assessment?

- A. No, the 180-day window has closed.
- **B. Yes, as long as all corrective actions are verified.**
- C. Yes, but the OSC must re-perform the entire CMMC L2 assessment.
- D. No, the OSC must wait for the next assessment cycle.

Answer: B

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP's 180-day window is a guideline for scheduling, not a strict deadline barring closeout if submitted within reason (170 days here). Option A and B misinterpret this flexibility. Option D (full reassessment) is unnecessary if corrections are verified. Option C is correct.

Extract from Official Document (CAP v1.0):

* Section 3.4 - POA&M Closeout (pg. 35): "Within 180 days from the Final Findings Briefing, conduct a POA&M Closeout Assessment to verify corrective actions, focusing on successful implementation." References: CMMC Assessment Process (CAP) v1.0, Section 3.4.

NEW QUESTION # 34

Angela, a CCA, is conducting a CMMC assessment for Obsidian Technologies, the OSC. During the assessment, Angela learns that her spouse owns a significant amount of stock in Obsidian Technologies, and she has not disclosed this information to Obsidian Technologies or the C3PAO. Which CMMC CoPC guiding principle has Angela violated in this scenario?

- A. Adherence to Materials and Methods
- B. Confidentiality
- C. Impartiality
- **D. Objectivity**

Answer: D

Explanation:

Comprehensive and Detailed in Depth Explanation:

Angela's undisclosed financial tie via her spouse's stock ownership creates a COI, violating the CoPC's Objectivity principle. Option B (Impartiality) is related but not a distinct CoPC principle. Option C (Methods) and D (Confidentiality) are unrelated. Option A is correct.

Extract from Official Document (CoPC):

* Paragraph 2.2 - Objectivity (pg. 5): "Disclose any financial or familial conflicts of interest to maintain objectivity." References: CMMC Code of Professional Conduct, Paragraph 2.2.

NEW QUESTION # 35

The assessment team is discussing the pre-assessment scope with an OSC. The OSC would like to limit the scope of the security requirements in environments that contain FCI and/or CUI. In this case, the OSC should:

- A. Request a single CMMC certification for both activities
- **B. Choose to conduct two separate CMMC certification activities**
- C. Define a CMMC Self-Assessment Scope for only those assets that process, store, or transmit CUI
- D. Define an Assessment Scope for those assets that process, store, or transmit FCI

Answer: B

Explanation:

If an OSC wishes to separate environments that process FCI from those that process CUI, they may pursue two separate CMMC certifications (Level 1 for FCI and Level 2 for CUI). A single certification cannot cover both environments unless all requirements for the higher level are met across the entire enterprise.

Exact Extracts:

* CMMC Assessment Guide: "An OSC may choose to undergo multiple CMMC certification activities if they wish to limit scope between FCI and CUI environments."

* "Level 1 applies to safeguarding FCI, while Level 2 applies to CUI; separate certifications may be pursued if the OSC chooses to segregate these environments." Why the other options are not correct:

* A: A single certification would require all assets to meet Level 2 controls, which may not be the OSC's intent.

* C: Defining scope for FCI only aligns with Level 1, but this does not meet Level 2 certification requirements for CUI.

* D: A self-assessment scope only applies to Level 1 assessments, not Level 2 third-party certification.

References:

CMMC Assessment Guide - Level 2, Version 2.13: Scope determination for FCI vs CUI (pp. 3-5).

DoD CMMC Program documentation: Multiple certification options.

NEW QUESTION # 36

A C3PAO Assessment Team has completed assessing an OSC's implementation of the CMMC practices.

They are now in the process of archiving the assessment artifacts as per the CAP. However, the OSC informed the Assessment Team that they could not take the artifacts offsite even after completing the assessment. The Assessment Team is concerned that the OSC may change the assessment artifacts, compromising their integrity. What should the Assessment Team recommend that the OSC do to protect the confidentiality and integrity of the Assessment Artifacts?

- A. Request the OSC to provide redacted versions of the artifacts for offsite review.
- **B. Hash the assessment artifacts to create unique digital fingerprints for record-keeping purposes.**
- C. Temporarily copy the artifacts to secure portable storage devices for offsite review and return them afterwards.
- D. Take photographs of the artifacts using their personal devices for later reference.

Answer: B

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP requires the OSC to hash artifacts to ensure integrity, especially when they remain onsite. Option B (copying offsite) violates OSC restrictions. Option C (redacted versions) is impractical and not required.

Option D (photographs) breaches security protocols. Option A aligns with CAP's hashing mandate.

Extract from Official Document (CAP v1.0):

* Section 3.5 - Archive Assessment Artifacts (pg. 36): "The OSC must hash all artifacts in accordance with the CMMC Artifact Hashing Tool User Guide to create unique digital fingerprints for record-keeping purposes." References:

CMMC Assessment Process (CAP) v1.0, Section 3.5.

NEW QUESTION # 37

The Daily Checkpoint meeting is a required component of the CMMC assessment process. It is conducted at the end of every day

and includes the Assessment Team, Lead Assessor, OSC PoC, OSC Assessment Official, and other key personnel. This meeting helps ensure all the following, EXCEPT?

- A. The C3PAO Assessment Team is comfortable.
- B. Data collection needs are being met.
- C. The assessment is proceeding as planned.
- D. Issues impacting the completion of the assessment are identified, mitigated, and resolved.

Answer: A

Explanation:

Comprehensive and Detailed in Depth Explanation:

The CAP outlines the Daily Checkpoint meeting's purpose as ensuring progress, data collection, and issue resolution, not team comfort, which is not a formal objective. Options A, B, and D are explicitly listed goals.

Extract from Official Document (CAP v1.0):

* Section 2.3 - Daily Checkpoint Meetings (pg. 27): "The meeting ensures data collection needs are met, issues are identified and resolved, and the assessment proceeds as planned." References:

CMMC Assessment Process (CAP) v1.0, Section 2.3.

NEW QUESTION # 38

.....

The ValidBraindumps acknowledges that Cyber AB aspirants are continuously juggling a couple of responsibilities, so CMMC-CCA questions are ideal for short practise. Candidates can access those questions everywhere and at any time, the usage of any clever device, which allows them to examine at their very own tempo. The CMMC-CCA Questions are portable and you can also print them.
