## Adobe Experience Manager Architect Master Sample Questions (Q71-Q76):

### NEW QUESTION # 71

A customer has a requirement to allow authors to access AEM with single sign-on. To achieve this an Architect needs to integrate AEM with the customer's identity management system.

Which two actions could an Architect take to meet this requirement? (Choose two.)

- A. Configure the generic SSO Authentication Handler
- B. Implement the generic SSO Authentication Handler interface

- C. Implement a custom JAAS Login Module
- D. Configure the SAML Authentication Handler
- E. Configure the Sling Authentication Requirements for the OSGi HTTP Service

**Answer: A,B**

Explanation:

"implementing and configuring the generic SSO Authentication Handler interface can enable single sign-on integration with an identity management system".

#### NEW QUESTION # 72

A customer is about to go live with a new website on AEM on prem. The DNS (www.domam.com) already points to the load balancer of the AEM environment and final sanity checks are being performed. The website was tested in lower environments without SSL. On production, the website is served over https. During sanity testing, all requests result in a 404.

While investigating this issue, an Architect determines the following:

- \* The requests land on port 443 on the load balancer where SSL is terminated and an HTTP header X-Forwarded-Proto is set
- \* The website Sling Mapping is created beneath /etc/map/http/www.domain.com.80
- \* The URLs on the website are externalized with http in the absolute links. Which two actions should the Architect take to resolve this problem? (Choose two.)

- A. Ensure the Sling Mapping exist at /etc/map/https/www.domain.com.80
- B. Ensure the Sling Mapping exist at /etc/map/https/www.domain.com.443
- C. Ensure the Sling Mapping exist at /etc/map/httpjmwpc<.domain.com.443. Configure the Adobe Granite SSL Connector Factory with the correct SSL port
- D. Configure Apache Felix Http Service SSL Filter to use the correct SSL forward header

**Answer: A,D**

#### NEW QUESTION # 73

On AEM 6.5, when an editor tries to edit pages on the author, some pages only show a blank screen. Upon inspection of the logs, the following exception is found:

Which action would an architect try to restore functionality to the system without data loss?

- A. Increase the tar.mk.size value in the SegmentNodeStoreService config
- B. Restore the most recent back-up of the author instance
- C. Run the Data Store Garbage Collection maintenance task
- D. Use the oak-run jar to revert the segment store to the last good revision

**Answer: D**

#### NEW QUESTION # 74

A new AEM Sites implementation includes a component that lists the 10 most recently published PDF documents in AEM Assets. The component works as expected during development and passes QA testing. The business starts to use it while entering content and uploading assets in preparation for go-live. A few days later, the component's PDF list is empty.

What is the most likely cause of the issue?

- A. The component is missing the HTML display context to escape the PDF title.
- B. A PDF with too large file size has been uploaded.
- C. A PDF with incorrect MIME type has been uploaded.
- D. The component is missing a matching Oak index.

**Answer: B**

#### NEW QUESTION # 75

A client is using AEM and wants to make sure they are managing their configurations correctly. Refer to the following requirements: The client has multiple brands that they will be hosting on a single AEM implementation. The client wants to reuse as much between

- A. Use the OOTB Configuration Browser to set configuration defaults and approval group by brand/language/region combination.
- B. Use Context-aware configurations to manage configuration overrides and approval group by brand/language/region combination.
- C. Use OSGi to manage approval group and provide default contact us information by runmode.
- D. Use OSGi Configuration to handle configuration overrides by brand. Create a new workflow for each brand/language/region combination for content approval.
