A Energy and Utilities Cloud Accredited Professional (AP-207) practice questions is a helpful, proven strategy to crack the Energy and Utilities Cloud Accredited Professional (AP-207) exam successfully. It helps candidates to know their weaknesses and overall performance. Prep4sures software has hundreds of Energy and Utilities Cloud Accredited Professional (AP-207) exam dumps that are useful to practice in real-time. The Energy and Utilities Cloud Accredited Professional (AP-207) practice questions have a close resemblance with the actual Energy and Utilities Cloud Accredited Professional (AP-207) exam.

Salesforce Energy and Utilities Cloud Accredited Professional Sample Questions (Q22-Q27):

NEW QUESTION # 22

What tool should be used to migrate configurations from sandbox to production when a customer has completed configuring OmniStudio components?

- A. IDX Workbench
- B. OmniStudio DataPacks
- C. Salesforce Export Wizard
- D. DataLoader.io

Answer: B

Explanation:

When migrating configurations, especially those related to OmniStudio components from a sandbox to production environment in Salesforce, OmniStudio DataPacks are the recommended tool. OmniStudio DataPacks, part of the Salesforce DevOps toolkit, allow for the bundling and deployment of complex configurations and metadata associated with OmniStudio components. This tool is specifically designed to handle the intricate dependencies and settings of OmniStudio components, ensuring a seamless and error-free migration process. Reference = Salesforce documentation on OmniStudio deployment and migration strategies emphasizes the use of OmniStudio DataPacks for effective configuration migrations. This is outlined in the Salesforce OmniStudio Developer Guide, which provides detailed instructions on using DataPacks for deploying OmniStudio solutions:
<https://developer.salesforce.com/docs/atlas.en-us.omnistudio.meta/omnistudio/>

NEW QUESTION # 23

A developer discovers that the Lightning Web Components in their Energy and Utilities Cloud org aren't being rendered correctly. What could be the likely reason for this issue?

- A. Remote Site Settings entries are missing.
- **B. There are incorrect permissions on Lightning Web Components.**
- C. The developer needs to re-write the components to be compatible with Energy and Utilities Cloud.
- D. Lightning Web Components aren't supported on Energy and Utilities Cloud.

Answer: B

NEW QUESTION # 24

An energy utility company is implementing the Customer Acquisition Management application. The application should support unauthenticated self-serve portal users.

What's the preferred method to configure the application security to meet the requirement?

- A. The Customer Acquisition Management application cannot support unauthenticated self-serve portal users
- **B. A consultant should assign an EnergyRuntimeB2CSales sample permission set to the Guest User profile and an EnergyRuntime82CSalesCustomerCommunityUser sample permission set to customer community users.**
- C. A consultant should assign an EnergyRuntimeSales sample permission set to the Guest User profile and an EnergyRuntimeSalesCustomerCommunityUser sample permission set to customer community users.
- D. A consultant should create new permission sets to grant appropriate access to all required objects.

Answer: B

Explanation:

For the Customer Acquisition Management application to support unauthenticated self-serve portal users, the correct configuration of permission sets is crucial. The EnergyRuntimeB2CSales sample permission set designed for Guest User profiles enables unauthenticated users to interact with necessary parts of the application without compromising security or functionality. Additionally, the EnergyRuntimeB2CSalesCustomerCommunityUser permission set provides authenticated community users with appropriate access rights, ensuring a seamless user experience across both authenticated and unauthenticated scenarios.

Reference = The setup and configuration of these permission sets are discussed in the Salesforce Energy and Utilities Cloud security and user management documentation, ensuring applications like Customer Acquisition Management are accessible yet secure.

NEW QUESTION # 25

The project team wants to use the Customer Acquisition Management application to set up and automate the customer enrollment and selling of utility products, services and offers to new customers. A concern is raised about the final UI layout, which needs to be adapted to the branding of the company.

What two processes can modify the look and feel of the application?

- A. Modify the application Page Layout to change/add/remove selected elements
- **B. Modify the VEEConsumerLandingScfreen FlexCard to change the background color, text font size, and style.**
- **C. Modify the VEEDigitalOrder Omniscrypt to adapt the look and feel to suit the company's requirements**
- D. Modify the VEELogoCard FlexCard to change the customer logo.

Answer: B,C

NEW QUESTION # 26

An energy company offers multiple products to its industrial and commercial customers. They need to create a quote for a customer for multiple sites.

How would a consultant meet this business requirement?

- A. Create an opportunity, add products to it. then submit it to the MultiAppHandler class
- B. Create quotes for each individual site and add products, then run multi-site batch jobs.
- C. Create a Master quote, create group(s). add the quote group members, add products, and apply to the group.
- D. Create a multi-site quote, add members to the quote, and add products for each site

Answer: C

Explanation:

For a consultant to meet the business requirement of creating a quote for a customer with multiple sites, the most efficient approach within Salesforce Energy and Utilities Cloud is to create a Master quote and then organize the products and services by site using groups within the quote. This method allows the consultant to manage the complexities of multi-site quotes systematically, ensuring that each site's specific needs are addressed within a single, overarching quote structure, thereby streamlining the quoting process for complex customer scenarios. Reference = Salesforce documentation on CPQ and quoting best practices outlines the process of creating Master quotes and utilizing groups to manage complex quoting scenarios, such as quotes for customers with multiple sites: https://help.salesforce.com/articleView?id=cpq_quotes.htm&type=5

NEW QUESTION # 27

.....
