If you are one of them buying our HCL-DOM-AADM-12 Exam Prep will help you pass the HCL-DOM-AADM-12 exam successfully and easily. Our HCL-DOM-AADM-12 guide torrent provides free download and tryout before the purchase and our purchase procedures are safe.

HCL Software Academy HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Sample Questions (Q33-Q38):

NEW QUESTION # 33

Which feature within the Domino Administrator Client allows you to replicate databases across servers manually?

- A. Files > Tools > Replicate
- B. Configuration > Policies
- C. Files > Tools > Compact
- D. Server > Status > Replication Queue

Answer: A

Explanation:

While replication is typically automated via schedules in Connection documents, administrators can trigger it manually when needed. This is done by navigating to the Files tab in the Domino Administrator Client, selecting the desired database, and choosing the Replicate option from the Tools menu. This manual trigger allows for immediate synchronization of data between a source and destination server.

NEW QUESTION # 34

Which Domino server task should be used to enforce message delivery limits and control mail flow?

- A. Router
- B. MailTracker
- C. AdminP
- D. MailConvert

Answer: A

Explanation:

The Router task is the engine responsible for the delivery and transfer of all mail in the Domino system. Because it manages the mail box and determines the delivery path for every message, it is also the task that enforces message delivery limits - such as maximum message size - and controls mail flow based on the configurations set in the Configuration Settings document.

NEW QUESTION # 35

Which directory must be referenced for Domino servers to authenticate users in a multi-domain environment?

- A. domino.key
- B. Directory Assistance database
- C. daoscat.nsf
- D. ID Vault registry

Answer: B

Explanation:

In a complex environment where users are spread across multiple Domino domains or external LDAP directories, a single local Domino Directory is insufficient for authentication. The Directory Assistance database acts as a pointer that tells the Domino server where to look for user credentials when they are not found in the primary local directory (names.nsf). This allows for authentication and name lookups across an entire organization, regardless of which domain the user belongs to.

NEW QUESTION # 36

Which two steps are required to reclaim space from DAOS after deleting large numbers of documents?
(Choose two)

- A. Issue `tell daosmgr resync` command
- B. Issue `tell daosmgr prune` command
- C. Run the Fixup task
- D. Enable Transaction Logging

Answer: A,B

Explanation:

The Domino Attachment and Object Service (DAOS) stores attachments separately from NSF files. When documents are deleted, the associated attachment files (.NLO) are not immediately removed from the storage.

To reclaim this physical disk space, an administrator must:

* Issue the tell daosmgr prune command : This identifies and deletes attachment files that are no longer referenced by any database and have exceeded the deferral interval.

* Issue the tell daosmgr resync command : This synchronizes the DAOS catalog (daoscat.nsf) with the physical files on disk to ensure the repository is accurate.

NEW QUESTION # 37

Which server task is responsible for email routing in Domino?

- A. Router
- B. Fixup
- C. AdminP
- D. Update

Answer: A

Explanation:

The Router task is the specialized engine within HCL Domino dedicated to email routing . It constantly monitors the mail.box file for new messages and determines the delivery path based on the recipient's location, whether it is local to the server, within the same Domino domain, or external via SMTP . Other tasks like AdminP handle administration requests, while Fixup is used for database maintenance.

NEW QUESTION # 38

.....

Our DumpsQuestion web-based practice exam helps you boost your confidence with real HCL Software Academy Dumps questions. Built-in tracker saves all practice exam attempts to point out mistakes. This feature helps you to improve your HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 (HCL-DOM-AADM-12) exam knowledge and skills.
