

# 156-536 Flexible Learning Mode - 156-536 Reliable Test Topics

P.S. Free 2026 CheckPoint 156-536 dumps are available on Google Drive shared by Dumps4PDF: <https://drive.google.com/open?id=1jfwvKOy7beCQC26WhhZkVKMt8vVDhhA0>

The 156-536 online exam simulator is the best way to prepare for the 156-536 exam. Dumps4PDF has a huge selection of 156-536 dumps and topics that you can choose from. The CheckPoint Exam Questions are categorized into specific areas, letting you focus on the 156-536 subject areas you need to work on. Additionally, CheckPoint 156-536 exam dumps are constantly updated with new 156-536 questions to ensure you're always prepared for 156-536 exam.

## CheckPoint 156-536 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• <b>Harmony Endpoint Security Management:</b> This section focuses on the skills of Harmony Endpoint Security Professionals and covers the management aspects of Harmony Endpoint Security. It emphasizes how to effectively configure and manage security policies across endpoint devices.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• <b>Deploying Harmony Endpoint Data Security Protection:</b> In this domain, CheckPoint Security Administrators will demonstrate their skills in deploying data security protections within Harmony Endpoint. This includes configuring data loss prevention strategies and ensuring data integrity across endpoints.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• <b>Harmony Endpoint Management as a Service:</b> This section targets Harmony Endpoint Security Professionals, focusing on managing endpoint security as a service. It covers the cloud-based management capabilities of Harmony Endpoint, allowing for scalable deployment and policy management.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• <b>Large-Scale Harmony Endpoint Deployment:</b> This domain is aimed at Harmony Endpoint Security Professionals and addresses the challenges associated with deploying Harmony Endpoint at scale. Candidates will learn about strategies for efficient large-scale implementation while maintaining security standards across numerous devices.</li></ul>

## Valid 156-536 test answers & CheckPoint 156-536 exam pdf - 156-536 actual test

We have three versions for your practice according to your study habit. The pdf version is for you to print the 156-536 Dump pdf

out and you can share your 156-536 exam dumps with your friends and classmates. The test engine version enables you feeling the atmosphere of formal test because it is a simulation of real test. The soft version is same as the test engine but it allows you to practice your CCES real dumps in any electronic equipment.

## CheckPoint Check Point Certified Harmony Endpoint Specialist - R81.20 (CCES) Sample Questions (Q64-Q69):

### NEW QUESTION # 64

What does pre-boot authentication disable?

- A. Identity theft
- B. Workarounds to computer security
- C. Incorrect usernames
- D. Weak passwords

**Answer: B**

### NEW QUESTION # 65

On which search engines/web sites is the Safe Search feature supported in Harmony Endpoint?

- A. Google, Bing, Yahoo! by default, and extra support for Baidu, Yandex, Lycos, and Excite if the Harmony Endpoint Management is deployed in Cloud
- B. Google, Bing, and Yahoo!
- C. Google and Bing if the Harmony Endpoint Management is On-Premises deployment
- D. Google, Yahoo!, and OneSearch

**Answer: B**

### NEW QUESTION # 66

What do Push Operations allow?

- A. Allow the Management Console to operate without installing policy
- B. Allows the Endpoint Security Management Server to operate independently of the Security Management Server
- C. Allow the Endpoint clients to push operations to other client computers without installing policy
- D. Allow the Endpoint Security Management Server to push operations to client computers without installing policy

**Answer: D**

Explanation:

The Check Point Harmony Endpoint documentation explicitly defines Push Operations as operations that the Endpoint Security Management Server (EMS) directly sends to client computers without requiring a policy installation. These operations are used for quick responses and remediation actions on endpoints without needing to deploy policy changes.

Exact Extract from Official Document:

"Push operations are operations that the server pushes directly to client computers with no policy installation required."

Reference:Check Point Harmony Endpoint Specialist R81.20 Administration Guide.

### NEW QUESTION # 67

External Policy Servers are placed between the Endpoint clients and the Endpoint Security Management Server. What benefit does the External Endpoint Policy Server bring?

- A. Cluster and Delta requests
- B. Test packet and delta requests
- C. Polling beat and delta requests
- D. Heartbeat and synchronization requests

**Answer: D**

Explanation:

External Endpoint Policy Servers (EPS) are optional components in Harmony Endpoint's architecture, designed to enhance scalability and performance by offloading client communication tasks from the Endpoint Security Management Server (EMS). The CP\_R81.20\_Harmony\_Endpoint\_Server\_AdminGuide.pdf explicitly outlines their benefits.

On page 25, under "Optional Endpoint Security Elements," the guide states:

"The Endpoint Policy Server handles heartbeat and synchronization requests, Policy downloads, Anti-Malware updates, and Endpoint Security client logs." This extract confirms that a primary benefit of the EPS is managing heartbeat and synchronization requests.

Heartbeat requests are periodic signals from clients to report status and connectivity, while synchronization ensures clients remain aligned with server policies and updates. By handling these, the EPS reduces the load on the EMS and optimizes bandwidth, directly supporting Option B.

Let's assess the other options:

\* Option A: Cluster and Delta requests- "Cluster" is unrelated to EPS functionality (it may pertain to HA), and "Delta requests" is not a defined term in the guide.

\* Option C: Test packet and delta requests- "Test packet" is not mentioned in the documentation, and "delta requests" lacks context, making this incorrect.

\* Option D: Polling beat and delta requests- "Polling beat" is not a recognized term (likely a misnomer for heartbeat), and "delta requests" is unsupported by the text.

Option B is the only choice directly supported by the documentation, accurately reflecting the EPS's role in improving communication efficiency.

CP\_R81.20\_Harmony\_Endpoint\_Server\_AdminGuide.pdf, Page 25: "Optional Endpoint Security Elements" (specific benefits of EPS).

## NEW QUESTION # 68

When can administrators prepare the client for the FDE software package installation and deployment?

- A. Once the client system volumes have 32 MB of space
- B. Once the policy is installed
- C. Once a client machine meets the minimum system requirements
- D. Once a client meets the maximum system requirements

Answer: C

## NEW QUESTION # 69

.....

The exam will be vanquished smoothly this time by the help of valid latest 156-536 exam torrent. Written by meticulous and professional experts in this area, their quality has reached to the highest level compared with others' similar 156-536 test prep and concord with the syllabus of the exam perfectly. Their questions points provide you with simulation environment to practice. In that case, when you sit in the Real 156-536 Exam room, you can deal with almost every question with ease.
