

# 300-715 Real Exam Answers, Valid 300-715 Test Topics

P.S. Free 2026 Cisco 300-715 dumps are available on Google Drive shared by RealExamFree: <https://drive.google.com/open?id=1PpTfifNvPIcV-2PyLc1MM5ILRJn--ELZ>

Taking practice tests is particularly helpful for those who have exam anxiety. Our practice tests are user-friendly and customizable. Windows support the desktop practice test software. Our web-based practice test is compatible with all browsers and operating systems. The web-based Implementing and Configuring Cisco Identity Services Engine (300-715) practice test is similar to the desktop-based exam and can be taken on any browser without needing to download separate software.

We believe that every customer pays most attention to quality when he is shopping. Only high-quality goods can meet the needs of every customer better. And our 300-715 training quiz has such high quality, because its hit rate of test questions is extremely high. Perhaps you will find in the examination that a lot of questions you have seen many times in our 300-715 Real Exam. And you will find our 300-715 practice questions are so popular that a lot of our candidates have bought them.

## **Pass Guaranteed Quiz 2026 Cisco 300-715: High Hit-Rate Implementing and Configuring Cisco Identity Services Engine Real Exam Answers**

As far as our Cisco 300-715 study guide is concerned, the PDF version brings you much convenience with regard to the following advantage. The PDF version of our 300-715 learning materials contain demo where a part of questions selected from the entire version of our 300-715 Exam Quiz is contained. In this way, you have a general understanding of our Cisco 300-715 actual prep exam, which must be beneficial for your choice of your suitable exam files.

## **Cisco Implementing and Configuring Cisco Identity Services Engine Sample Questions (Q74-Q79):**

### **NEW QUESTION # 74**

An administrator is configuring posture with Cisco ISE and wants to check that specific services are present on the workstations that are attempting to access the network. What must be configured to accomplish this goal?

- A. Create a compound posture condition using a OPSWAT API version.
- **B. Create a registry posture condition using a non-OPSWAT API version.**
- C. Create a service posture condition using a non-OPSWAT API version.
- D. Create an application posture condition using a OPSWAT API version.

**Answer: B**

#### NEW QUESTION # 75

Which two default endpoint identity groups does Cisco ISE create? (Choose two )

- A. endpoint
- B. block list
- **C. profiled**
- **D. unknown**
- E. allow list

**Answer: C,D**

Explanation:

[https://www.cisco.com/c/en/us/td/docs/security/ise/2-](https://www.cisco.com/c/en/us/td/docs/security/ise/2-1/admin_guide/b_ise_admin_guide_21/b_ise_admin_guide_20_chapter_010100.html)

1/admin\_guide/b\_ise\_admin\_guide\_21/b\_ise\_admin\_guide\_20\_chapter\_010100.html Default Endpoint Identity Groups Created for Endpoints Cisco ISE creates the following five endpoint identity groups by default: Blacklist, GuestEndpoints, Profiled, RegisteredDevices, and Unknown. In addition, it creates two more identity groups, such as Cisco-IP-Phone and Workstation, which are associated to the Profiled (parent) identity group. A parent group is the default identity group that exists in the system. Cisco ISE creates the following endpoint identity groups:

**Blacklist**-This endpoint identity group includes endpoints that are statically assigned to this group in Cisco ISE and endpoints that are block listed in the device registration portal. An authorization profile can be defined in Cisco ISE to permit, or deny network access to endpoints in this group.

**GuestEndpoints**-This endpoint identity group includes endpoints that are used by guest users.

**Profiled**-This endpoint identity group includes endpoints that match endpoint profiling policies except Cisco IP phones and workstations in Cisco ISE.

**RegisteredDevices**-This endpoint identity group includes endpoints, which are registered devices that are added by an employee through the devices registration portal. The profiling service continues to profile these devices normally when they are assigned to this group. Endpoints are statically assigned to this group in Cisco ISE, and the profiling service cannot reassign them to any other identity group. These devices will appear like any other endpoint in the endpoints list. You can edit, delete, and block these devices that you added through the device registration portal from the endpoints list in the Endpoints page in Cisco ISE. Devices that you have blocked in the device registration portal are assigned to the Blacklist endpoint identity group, and an authorization profile that exists in Cisco ISE redirects blocked devices to a URL, which displays "Unauthorised Network Access", a default portal page to the blocked devices.

**Unknown**-This endpoint identity group includes endpoints that do not match any profile in Cisco ISE.

In addition to the above system created endpoint identity groups, Cisco ISE creates the following endpoint identity groups, which are associated to the Profiled identity group:

**Cisco-IP-Phone**-An identity group that contains all the profiled Cisco IP phones on your network.

**Workstation**-An identity group that contains all the profiled workstations on your network.

#### NEW QUESTION # 76

An engineer is creating a new authorization policy to give the endpoints access to VLAN 310 upon successful authentication. The administrator tests the 802.1X authentication for the endpoint and sees that it is authenticating successfully. What must be done to ensure that the endpoint is placed into the correct VLAN?

- A. Ensure that the security group is not preventing the endpoint from being in VLAN 310
- B. Configure the switchport access vlan 310 command on the switch port
- C. Ensure that the endpoint is using The correct policy set
- **D. Add VLAN 310 in the common tasks of the authorization profile**

**Answer: D**

Explanation:

We don't need to manually configure the switchport to a certain VLAN, give the proper VLAN allocation from the Authz profile.

### NEW QUESTION # 77

An engineer is configuring a posture policy for Windows 10 endpoints and wants to ensure that users in each AD group have different conditions to meet to be compliant. What must be done to accomplish this task?

- A. identify The users groups needed for different policies and create service conditions to map each one to its posture requirement
- **B. Use the authorization policy within the policy set to group each AD group with their respective posture policy**
- C. Change the posture requirements to use an AD group for each use case then use those requirements in the posture policy
- D. Configure a simple condition for each AD group and use it in the posture policy for each use case

**Answer: B**

### NEW QUESTION # 78

A network administrator changed a Cisco ISE deployment from pilot to production and noticed that the JVM memory utilization increased significantly. The administrator suspects this is due to replication between the nodes What must be configured to minimize performance degradation?

- A. Review the profiling policies for any misconfiguration
- **B. Enable the endpoint attribute filter**
- C. Ensure that Cisco ISE is updated with the latest profiler feed update
- D. Change the reauthenticate interval.

**Answer: B**

Explanation:

[https://www.cisco.com/c/en/us/td/docs/security/ise/2-3/admin\\_guide/b\\_ise\\_admin\\_guide\\_23/b\\_ise\\_admin\\_guide\\_23\\_chapter\\_010111.html](https://www.cisco.com/c/en/us/td/docs/security/ise/2-3/admin_guide/b_ise_admin_guide_23/b_ise_admin_guide_23_chapter_010111.html)

### NEW QUESTION # 79

.....

It seems that it's a terrible experience for some candidates to prepare and take part in the 300-715 Exam, we will provide you the 300-715 training materials to help you pass it successfully. The 300-715 training materials have the knowledge points, it will help you to command the knowledge of the Implementing and Configuring Cisco Identity Services Engine. The pass rate is above 98%, which can ensure you pass it. If you have the Desktop version, it stimulates the real environment, you can know the exact situation about the exam, and your nervous for it will be reduced.
