Different with other similar education platforms on the internet, the Implementing Analytics Solutions Using Microsoft Fabric guide torrent has a high hit rate, in the past, according to data from the students' learning to use the DP-600 test torrent, 99% of these students can pass the qualification test and acquire the qualification of their yearning, this powerfully shows that the information provided by the DP-600 study tool suit every key points perfectly, targeted training students a series of patterns and problem solving related routines, and let students answer up to similar topic. It may say, the DP-600 Test Torrent can let users in a short time, accurately grasp the proposition trend of each year, doing all effects in the process of the difficulties in the hot, user's weak link and targeted training, and exercise the user's solving problem ability, eventually achieve the objectives of the pass Implementing Analytics Solutions Using Microsoft Fabric qualification test.

The ExamcollectionPass wants to help students ace the certification exam preparation. To achieve this goal the ExamcollectionPass is offering real, valid, and updated exam questions in three different formats. These Microsoft DP-600 exam questions formats are PDF file, desktop practice test software, and web-based practice test software. All these three DP-600 Exam Practice question formats are easy to use. The DP-600 desktop practice test software and web-based practice test software both are the easy-to-use mock Implementing Analytics Solutions Using Microsoft Fabric (DP-600) exam. These DP-600 mock exams are designed to simulate the conditions of a real exam.

DP-600 Instant Download & Test DP-600 Engine Version

Microsoft Implementing Analytics Solutions Using Microsoft Fabric evolves swiftly, and a practice test may become obsolete within weeks of its publication. We provide free updates for Microsoft DP-600 exam questions for three months after the purchase to ensure you are studying the most recent solutions. Furthermore, ExamcollectionPass is a very responsible and trustworthy platform dedicated to certifying you as a specialist. We provide a free sample before purchasing Microsoft DP-600 valid questions so that you may try and be happy with its varied quality features. Learn for your Microsoft with confidence by utilizing the ExamcollectionPass DP-600 study guide, which is always forward-thinking, convenient, current, and dependable.

Microsoft Implementing Analytics Solutions Using Microsoft Fabric Sample

Questions (Q98-Q103):

NEW QUESTION # 98

You have a Fabric tenant named Tenant1 that contains a workspace named WS1. WS1 uses a capacity named C1 and contains a dataset named DS1. You need to ensure read-write access to DS1 is available by using the XMLA endpoint. What should be modified first?

- A. the WS1 settings
- B. the Tenant1 settings
- C. the DS1 settings
- **D. the C1 settings**

Answer: D

Explanation:

To ensure read-write access to DS1 is available by using the XMLA endpoint, the C1 settings (which refer to the capacity settings) should be modified first. XMLA endpoint configuration is a capacity feature, not specific to individual datasets or workspaces.

References = The configuration of XMLA endpoints in Power BI capacities is detailed in the Power BI documentation on dataset management.

NEW QUESTION # 99

Case Study 1 - Contoso

Overview

Contoso, Ltd. is a US-based health supplements company. Contoso has two divisions named Sales and Research. The Sales division contains two departments named Online Sales and Retail Sales. The Research division assigns internally developed product lines to individual teams of researchers and analysts.

Existing Environment

Identity Environment

Contoso has a Microsoft Entra tenant named contoso.com. The tenant contains two groups named ResearchReviewersGroup1 and ResearchReviewersGroup2.

Data Environment

Contoso has the following data environment:

- The Sales division uses a Microsoft Power BI Premium capacity.
- The semantic model of the Online Sales department includes a fact table named Orders that uses Import mode. In the system of origin, the OrderID value represents the sequence in which orders are created.
- The Research department uses an on-premises, third-party data warehousing product.
- Fabric is enabled for contoso.com.
- An Azure Data Lake Storage Gen2 storage account named storage1 contains Research division data for a product line named Productline1. - The data is in the delta format.
- A Data Lake Storage Gen2 storage account named storage2 contains Research division data for a product line named Productline2. The data is in the CSV format.

Requirements

Planned Changes

Contoso plans to make the following changes:

- Enable support for Fabric in the Power BI Premium capacity used by the Sales division.
- Make all the data for the Sales division and the Research division available in Fabric.
- For the Research division, create two Fabric workspaces named Productline1ws and Productline2ws.
- In Productline1ws, create a lakehouse named Lakehouse1.
- In Lakehouse1, create a shortcut to storage1 named ResearchProduct.

Data Analytics Requirements

Contoso identifies the following data analytics requirements:

- All the workspaces for the Sales division and the Research division must support all Fabric experiences.
- The Research division workspaces must use a dedicated, on-demand capacity that has per-minute billing.
- The Research division workspaces must be grouped together logically to support OneLake data hub filtering based on the department name.
- For the Research division workspaces, the members of ResearchReviewersGroup1 must be able to read lakehouse and warehouse data and shortcuts by using SQL endpoints.
- For the Research division workspaces, the members of ResearchReviewersGroup2 must be able to read lakehouse data by using Lakehouse explorer.

- All the semantic models and reports for the Research division must use version control that supports branching.

Data Preparation Requirements

Contoso identifies the following data preparation requirements:

- The Research division data for Productline1 must be retrieved from Lakehouse1 by using Fabric notebooks.
- All the Research division data in the lakehouses must be presented as managed tables in Lakehouse explorer.

Semantic Model Requirements

Contoso identifies the following requirements for implementing and managing semantic models:

- The number of rows added to the Orders table during refreshes must be minimized.
- The semantic models in the Research division workspaces must use Direct Lake mode.

General Requirements

Contoso identifies the following high-level requirements that must be considered for all solutions:

- Follow the principle of least privilege when applicable.
- Minimize implementation and maintenance effort when possible.

Hotspot Question

You need to recommend a solution to group the Research division workspaces.

What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

☐ Explanation:

<https://learn.microsoft.com/en-us/fabric/governance/domains#configure-domain-settings>

NEW QUESTION # 100

You have a Microsoft Power BI project that contains a semantic model. You plan to use Azure DevOps for version control.

You need to modify the .gitignore file to prevent the data values from the data sources from being pushed to the repository. Which file should you reference?

- A. unappliedChanges.json
- B. localSettings.json
- C. cache.abf
- D. model.bim

Answer: B

Explanation:

When using Power BI Project (.pbip) with Git integration:

The .pbip project separates model metadata (schema, measures, relationships, etc.) from actual data values.

The localSettings.json file stores machine-specific and environment-specific settings, including data source credentials and local configurations. These should not be checked into version control to avoid exposing sensitive information or environment-specific configs.

Other options:

unappliedChanges.json # tracks unsaved changes, not data values.

model.bim # defines the semantic model schema (measures, relationships, metadata) and must be included in version control.

cache.abf # stores Analysis Services cache data, not part of source control.

Therefore, the correct file to exclude is localSettings.json.

Reference:

Power BI Projects and Git integration

localSettings.json in PBIP projects

NEW QUESTION # 101

You have a KQL database that contains a table named Readings.

You need to query Readings and return the results shown in the following table.

☐

How should you complete the query? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

□ Explanation:

□

NEW QUESTION # 102

You have a Fabric tenant that contains a warehouse.

A user discovers that a report that usually takes two minutes to render has been running for 45 minutes and has still not rendered.

You need to identify what is preventing the report query from completing.

Which dynamic management view (DMV) should you use?

- A. sys.dm-exec_requests
- B. sys.dm_exec._connections
- **C. sys.dm_pdw_exec_requests**
- D. sys.dm_exec_sessions

Answer: C

Explanation:

The correct DMV to identify what is preventing the report query from completing is sys.dm_pdw_exec_requests (D). This DMV is specific to Microsoft Analytics Platform System (previously known as SQL Data Warehouse), which is the environment assumed to be used here. It provides information about all queries and load commands currently running or that have recently run. References = You can find more about DMVs in the Microsoft documentation for Analytics Platform System.

NEW QUESTION # 103

.....

The procedures of buying our DP-600 study materials are simple and save the clients' time. We will send our DP-600 exam question in 5-10 minutes after their payment. Because the most clients may be busy in their jobs or other significant things, the time they can spare to learn our DP-600 learning guide is limited and little. But if the clients buy our DP-600 training quiz they can immediately use our product and save their time. And the quality of our exam dumps are very high!
