Latest CompTIA CS0-002 Braindumps Files | CS0-002 Certification

It is a virtual certainty that our CS0-002 actual exam is high efficient with passing rate up to 98 percent and so on. We made it by persistence, patient and enthusiastic as well as responsibility. Moreover, about some tricky problems of CS0-002 Exam Materials you do not to be anxious and choose to take a detour, our experts left notes for your reference. So our CS0-002 practice materials are beyond the contrivance of all of you.

CompTIA Cybersecurity Analyst (CySA+) Certification Exam Sample Questions (Q267-Q272):

NEW QUESTION # 267

An administrator has been investigating the way in which an actor had been exfiltrating confidential data from a web server to a foreign host.

After a thorough forensic review, the administrator determined the server's BIOS had been modified by rootkit installation.

After removing the rootkit and flashing the BIOS to a known good state, which of the following would BEST protect against future adversary access to the BIOS, in case another rootkit is installed?

- A. File integrity monitoring
- B. Host-based IDS
- C. TPM data sealing
- D. Anti-malware application

Answer: C

NEW QUESTION # 268

An incident response team is responding to a breach of multiple systems that contain PII and PHI. Disclosure of the incident to external entities should be based on:

- A. the communication plan.
- B. the public relations policy.
- C. the senior management team's guidance.
- D. the responder's discretion.

Answer: A

Explanation:

The communication plan is an important part of incident response, as it outlines how and when information about the incident should be shared with external entities.

A communication plan is a set of procedures and protocols that define how an organization should communicate with external entities during times of emergency or security incident. The plan typically outlines how and when information about the incident should be shared, and ensures that any relevant stakeholders are informed of the incident in a timely manner. It also serves as a guide for determining what information to share with outside parties. Here is a link to an article from CompTIA's website about the importance of a communication plan for incident response for your reference: <https://www.comptia.org/content/incident-response-communication-plan>

NEW QUESTION # 269

A security analyst notices the following entry while reviewing the server logs: OR 1=1' ADD USER attacker' PW 1337password' -- -- Which of the following events occurred?

- A. XSS
- B. RCE
- C. CSRF
- D. SQLi

Answer: D

NEW QUESTION # 270

A team is moving data from the production environment to the test environment to test accuracy and functionality.

Which of the following would BEST protect the sensitivity of this data while still allowing the team to perform the testing?

- A. Encoding
- B. Encryption
- C. Watermarking
- D. Deidentification

Answer: D

NEW QUESTION # 271

While investigating reports of issues with a web server, a security analyst attempts to log in remotely and receives the following message:

□ The analyst accesses the server console, and the following console messages are displayed:

□ The analyst is also unable to log in on the console. While reviewing network captures for the server, the analyst sees many packets with the following signature:

□ Which of the following is the BEST step for the analyst to take next in this situation?

- A. Load the network captures into a protocol analyzer to further investigate the communication with 128.30.100.23, as this may be a botnet command server
- B. Cryptomining malware is running on the server and utilizing a CPU and memory. Reboot the server and disable any cron jobs or startup scripts that start the mining software.

- C. After ensuring network captures from the server are saved isolate the server from the network take a memory snapshot, reboot and log in to do further analysis.
- D. Corporate data is being exfiltrated from the server Reboot the server and log in to see if it contains any sensitive data.

Answer: A

NEW QUESTION # 272

.....

If you are considering to get help from the exam braindumps for you to pass the exam, you need to get a reliable and authentic valid CS0-002 study material, which will help you to pass exams with an ease. But, this is also a must have updated CS0-002 exam questions to save you from the tedious task of collecting resources from multiple sources. And at the same time, the CS0-002 learning guide must stand the test of the market and can make the customers understood by all over the world. And these are exactly the advantages of our CS0-002 practice engine has. Just come and have a try!
