Peoplecert MSP Practitioner, 5th edition Exam Sample Questions (Q67-Q72):

NEW QUESTION # 67

Who produces Business Case?

- A. Sponsoring Group
- B. Programme Manager
- C. SRO
- D. BCM

Answer: B

NEW QUESTION # 68

Which document is prepared with a purpose to share with stakeholders?

- A. Vision
- B. Programme Plan
- C. Blueprint
- D. Business Case

Answer: A

Explanation:

The Vision document is prepared specifically to share with stakeholders to communicate the desired future state the programme aims to achieve. It is a clear, inspirational statement designed to create alignment, motivation, and understanding among all parties involved.

The MSP Practitioner states: "Vision's purpose is to share the idea of better future planned by programme with all stakeholders." It conveys the strategic intent and overarching goals without delving into technical or detailed delivery plans.

Unlike the Business Case or Blueprint, which are more technical or internal management documents, the Vision serves as a powerful communication tool fostering stakeholder engagement and support from the outset.

NEW QUESTION # 69

Which of the following is not true about programme control?

- A. Programme control defines reporting mechanism
- B. Programme control minimizes impact of ambiguity
- C. Programme control provides supporting activities to refine and improve delivery
- D. Programme control justifies continuance of programme

Answer: A

Explanation:

The statement that "Programme control defines reporting mechanism" is not true. While programme control encompasses refining delivery, managing ambiguity, and justifying programme continuation, defining the reporting mechanism is typically a management or communication function rather than a control function.

The MSP Practitioner clarifies: "Programme control deals with improving delivery, reducing ambiguity & bringing certainty and justifies continuance of programme," focusing on the governance and decision-making controls rather than specific reporting structures.

Effective programme control ensures programmes remain viable and aligned with strategic objectives through structured oversight and governance processes.

NEW QUESTION # 70

Which of the following statements is FALSE?

- A. The SRO is likely to be a peer of the Sponsoring Group.
- B. The SRO must have enough seniority to take on accountability for the programme delivery.
- C. The SRO acts as the Project Executive on all the Project Boards.
- D. The SRO is appointed by the Sponsoring Group.

Answer: C

NEW QUESTION # 71

Which of the following is an influencer type of stakeholder?

- A. Business partner
- B. Management board
- C. Media
- D. Supplier

Answer: C

Understanding and managing influencer stakeholders like media is critical for reputation management, gaining public support, and mitigating risks associated with negative publicity.
