100% Pass 2026 SAP Newest C_BW4H_2505 Reliable Test Review

The RealExamFree is committed to ace your SAP Certified Associate - Data Engineer - SAP BW/4HANA (C_BW4H_2505) exam preparation and ensure your success on the first attempt. To achieve this objective the RealExamFree is offering top-rated, real, and updated SAP Certified Associate - Data Engineer - SAP BW/4HANA (C_BW4H_2505) exam questions in three different formats. The names of these formats are C_BW4H_2505 PDF dumps file, desktop practice test software, and web-based practice test software.

SAP Certified Associate - Data Engineer - SAP BW/4HANA Sample Questions (Q78-Q83):

NEW QUESTION # 78

What are benefits of using an InfoSource in a data flow? Note: There are 2 correct answers to this question.

- A. Splitting a complex transformation into simple parts without storing intermediate data
- B. Providing the delta extraction information of the source data
- C. Enabling a data transfer process (DTP) to execute multiple sequential transformations
- D. Realizing direct access to source data without storing them

Answer: A,C

NEW QUESTION # 79

You want to build a web-based dashboard with interactive visualizations using scripting. Which SAP tool can you use to create this?

- A. SAP Smart Business Cockpits
- B. SAP BusinessObjects Web Intelligence
- C. SAP Crystal Reports
- D. SAP Analytics Cloud

Answer: D

Explanation:

SAP BW/4HANA Project and Modeling Process

NEW QUESTION # 80

What should you consider when you set the High Cardinality flag for a characteristic? Note: There are 2 correct answers to this question.

- A. You cannot use this characteristic as a navigation attribute for another characteristic.
- B. You cannot load more than 2 billion master data records for this characteristic.
- C. You cannot use this characteristic as an external characteristic in hierarchies.
- D. You cannot use navigation attributes for this characteristic.

Answer: A,C

NEW QUESTION # 81

You are involved in an SAP BW/4HANA project focusing on General Ledger reporting want to use the SAP ERP standard DataSource OFI_GL_14 (New GL Items) which is not active in your SAP ERP system.

Which transactions can be used to activate this DataSource? Note: There are 2 correct answers to this question.

- A. Transaction RSA5 (Installation of DataSource from Business Content) in the SAP ERP system
- B. Transaction RSA2 (DataSource Repository) in the SAP ERP system
- C. Transaction RSDS (DataSource Repository) in the SAP BW/4HANA system
- D. Transaction RSORBCT (Data Warehousing Workbench: BI Content) in the SAP BW/4HANA system

Answer: A,B

Explanation:

To activate a standard DataSource like OFI_GL_14 (New GL Items) in an SAP ERP system, you need to use transactions that are specifically designed for managing and activating DataSources within the ERP system.

Below is a detailed explanation of the correct answers:

* Explanation: This transaction is used in the SAP BW/4HANA system to activate or install BI Content objects such as InfoProviders, Transformations, and DTPs. However, it does not activate DataSources in the source SAP ERP system. Activation of DataSources must occur in the ERP system itself.

* RSORBCT is part of the BW/4HANA environment and is unrelated to activating DataSources in the ERP system.

Option B: Transaction RSA5 (Installation of DataSource from Business Content) in the SAP ERP system
Explanation: RSA5 is used in the SAP ERP system to activate standard DataSources delivered by SAP. When you run this transaction, you can search for and activate specific DataSources, such as OFI_GL_14, from the Business Content. This ensures that the DataSource becomes available for extraction.

Reference: RSA5 is a key transaction for enabling standard DataSources in SAP ERP systems. It is essential for preparing the ERP system to deliver data to SAP BW/4HANA.

Option C: Transaction RSA2 (DataSource Repository) in the SAP ERP system
Explanation: RSA2 provides access to the

DataSource repository in the SAP ERP system. While it does not directly activate DataSources, it allows you to view, maintain, and manage the status of DataSources. You can also trigger the activation of DataSources from this transaction.

Reference: RSA2 is often used alongside RSA5 to verify the status of DataSources and ensure they are correctly configured for extraction.

Option D: Transaction RSDS (DataSource Repository) in the SAP BW/4HANA system

Explanation: RSDS is used in the SAP BW/4HANA system to view and manage DataSources that have been replicated from the source system. However, it cannot activate DataSources in the SAP ERP system. Activation must occur in the ERP system using transactions like RSA5 or RSA2.

Reference: RSDS is limited to managing DataSources within the BW/4HANA environment and does not interact with the ERP system's DataSource activation process.

Summary To activate the OFI_GL_14 DataSource in the SAP ERP system:

RSA5: Activates standard DataSources from Business Content.

RSA2: Provides access to the DataSource repository and supports maintenance tasks.

These transactions ensure that the DataSource is properly enabled in the ERP system, allowing it to deliver data to SAP BW/4HANA.

NEW QUESTION # 82

What is the request handling default setting for error handling in a data transfer process (DTP) in SAP BW /4HANA?

- A. Request is set to success, error stack is written, and valid records are updated.
- **B. Request is set to failed, error stack is written, and valid records are updated.**
- C. Request is canceled, records are not tracked, and target is not updated.
- D. Request is canceled, first incorrect record is tracked, and target is not updated.

Answer: B

NEW QUESTION # 83

.....

Our online version of C_BW4H_2505 learning guide does not restrict the use of the device. You can use the computer or you can use the mobile phone. You can choose the device you feel convenient at any time. Once you have used our C_BW4H_2505 exam training in a network environment, you no longer need an internet connection the next time you use it, and you can choose to use C_BW4H_2505 Exam Training at your own right. Our C_BW4H_2505 exam training do not limit the equipment, do not worry about the network, this will reduce you many learning obstacles, as long as you want to use C_BW4H_2505 test guide, you can enter the learning state.
