Scrum Professional Scrum Master I Sample Questions (Q39-Q44):

NEW QUESTION # 39

Which two activities will a Product Owner engage in during a Sprint? (Choose two.)

- A. Answer Questions from the Development Team about items in the current Sprint.
- B. Run the Daily Scrum.
- C. Prioritize the Development Team's work on the Sprint Backlog.
- D. Update management on what is being worked on.

Answer: A,D

NEW QUESTION # 40

Which statement best describes Scrum?
(choose the best answer)

- A. A defined and predictive process that conforms to the principles of Scientific Management
- **B. A framework to generate value through adaptive solutions for complex problems.**
- C. A complete methodology that defines how to develop software.
- D. A cookbook that defines best practices for software development.

Answer: B

Explanation:

According to the Scrum Guide, Scrum is a framework to generate value through adaptive solutions for complex problems. It is based on empiricism, self-organization, and collaboration. The other options are not accurate descriptions of Scrum, as they are either too rigid (such as a defined and predictive process or a complete methodology), too vague (such as a cookbook), or irrelevant (such as scientific management).

NEW QUESTION # 41

Which of the following best describes an increment of working software? (Choose the best answer.)

- A. UML diagrams that describe how to deliver functionality in future iterations.
- B. A decomposition of all Product Backlog items into tasks for future Sprint Backlog lists.
- C. An automated test suite to verify functionality delivered in previous iterations.
- D. A new user interface design for functionality delivered in previous iterations.
- **E. Additional features in a usable state that complement those delivered in previous iterations.**

Answer: E

NEW QUESTION # 42

When does a Developer become accountable for an item in the sprint Backlog?
(choose the best answer)

- **A. Never as Developers on the Scrum Team share accountability for items in the**
- B. As soon as a Developer on the Scrum Team can accommodate more work
- C. At Sprint Planning when all of the Sprint Backlog items are split evenly across the Developers
- D. During the Daily Scrum

Answer: A

Explanation:

A Developer becomes accountable for an item in the Sprint Backlog never as Developers on the Scrum Team share accountability for items in the Sprint Backlog, as stated in the Scrum Guide: "The Developers can select whatever items they want as long as they feel they can complete the work by the end of the Sprint. The Scrum Team is responsible for all estimates. The Product Owner may influence the Developers by helping them understand and select trade-offs, but the people who will perform the work make the final estimate."

NEW QUESTION # 43

What is the time-box for the Sprint Review?

- A. As long as needed.
- B. 2 hours for a monthly Sprint.
- C. 4 hours and longer as needed.
- **D. 4 hours for a monthly Sprint.**
- E. 1 day

Answer: D

Explanation:

According to the Scrum Guide¹, each event in Scrum is a formal opportunity to inspect and adapt something. These events are
