C-S4CPB-2508 Actual Exam Dumps & C-S4CPB-2508 Latest Dumps Ppt

There is no doubt that work in the field of requires a lot of up gradation and technical knowhow. This was the reason I suggest you to opt to get a certificate for the C-S4CPB-2508 exam so that you could upgrade yourself. However for most candidates time was of essence and they could not afford the regular training sessions being offered. But C-S4CPB-2508 Exam Preparation materials had the best training tools for C-S4CPB-2508 exam. The C-S4CPB-2508 training materials are so very helpful. Only if you study exam preparation guide from RealVCE when you have the time, after you have complete all these trainings, you can take the C-

S4CPB-2508 exam and pass it at the first attempt.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q56-Q61):

NEW QUESTION # 56

Which of the following are examples of indirect digital access? Note: There are 2 correct answers to this question.

- A. A Time Sheet Record from a 3rd party application
- B. A Production Order created through a non-SAP front-end
- C. An unattended bot in SAP Build Process Automation
- D. A Defect document created through an industry application

Answer: A,D

Explanation:

Indirect digital access occurs when humans, devices, or systems use the digital core indirectly through non-SAP intermediary software, such as a non-SAP front end, a custom-solution, or any other non-SAP application¹. Indirect digital access is measured by the number of documents created, updated, or deleted in the SAP system as a result of the indirect use². Examples of indirect digital access include:

- * A Defect document created through an industry application: This is an example of indirect digital access because the industry application is a non-SAP software that triggers the creation of a document in the SAP system.
- * A Time Sheet Record from a 3rd party application: This is also an example of indirect digital access because the 3rd party application is a non-SAP software that triggers the creation of a document in the SAP system.
- * An unattended bot in SAP Build Process Automation: This is not an example of indirect digital access because the bot is using SAP software to access the SAP system directly, not through a non-SAP intermediary software.
- * A Production Order created through a non-SAP front-end: This is not an example of indirect digital access because the production order is not a document type that is counted for indirect digital access. The document types that are counted are: Sales Order, Invoice, Purchase Order, Service and Maintenance Document, Manufacturing Document, Quality Management Document, Time Sheet, Financial Document, and Material Document². References = Digital Access | SAP Help Portal, SAP Digital Access / SAP Digital Access Adoption Program (DAAP) Extension through December 31, 2021

NEW QUESTION # 57

You have assigned a deployment target in SAP Central Business Configuration, but have not yet completed the Confirm Scoping milestone.

Which of the following tasks can you complete? Note: There are 2 correct answers to this question.

- A. Create a company code.
- B. Assign a different deployment target.
- C. Rename the deployment target.
- D. Define the group currency.

Answer: B,C

Explanation:

You can rename or assign a different deployment target in SAP Central Business Configuration before completing the Confirm Scoping milestone. This allows you to change the system tenant that will be used for the initial deployment of the content. However, you cannot define the group currency or create a company code before confirming the scoping, as these are configuration activities that require a deployed system. References = Deployment Targets, Assigning a Deployment Target

NEW QUESTION # 58

What do you use to collect the values that are entered into the configuration activities in SAP Central Business Configuration?

- A. Availability and Dependencies of Solution Processes Excel
- B. SAP Cloud ALM Processes app
- C. SAP Cloud ALM Requirements app
- D. Business Driven Configuration Questionnaire

Answer: D

NEW QUESTION # 59

You are recording actions for a custom process step in a test automate

When do you press the "Read" button on the recording panel? Note: There are 2 correct answers to this question.

- A. To capture a value in a text field that should be stored as a variable.
- B. To capture text in a message screen that can be used for data binding later.
- C. To capture a static label on the screen that should be checked during test execution.
- D. To capture an error message on the screen that can be used later.

Answer: A,B

Explanation:

When you are recording actions for a custom process step in a test automate, you press the "Read" button on the recording panel in the following situations:

* To capture a value in a text field that should be stored as a variable. This allows you to reuse the value in other steps or test cases, or to compare it with an expected value¹.

* To capture text in a message screen that can be used for data binding later. This allows you to extract data from the message screen and use it as an input for another step or test case².

You do not press the "Read" button to capture an error message or a static label on the screen, as these are not values that need to be stored or used later. Instead, you can use the "Check" button to verify that the error message or the label is displayed as expected³. References = Using the Test Automation Tool for Automated Testing - SAP Learning, How to get started with the Test Automation Tool for SAP S/4HANA Cloud Public Edition, SAP S/4HANA Cloud Test Automation Tool- FAQs Blog Series #1.

NEW QUESTION # 60

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note:

There are 2 correct answers to this question

- A. Determine set up instructions for customer-driven integrations.
- B. Demonstrate SAP Best Practice business processes in the starter system.
- C. Highlight areas that require configuration or customization decisions.
- D. Conduct end-user training on active scope items.

Answer: B,C

Explanation:

During the Fit-to-Standard workshops, an implementation consultant supports customer experts by doing the following:

* Demonstrate SAP Best Practice business processes in the starter system. The consultant shows the customer experts how the standard processes work in SAP S/4HANA Cloud Public Edition and how they fit their business needs¹.

* Highlight areas that require configuration or customization decisions. The consultant identifies and documents the gaps between the standard processes and the customer requirements, and proposes solutions that are aligned with the cloud mindset².

The other options are not the correct ways to support customer experts during the Fit-to-Standard workshops. Determining set up instructions for customer-driven integrations is done in the integration phase, after the Fit-to-Standard workshops are completed².

Conducting end-user training on active scope items is done in the deploy phase, before the go-live of the system³. References = Conducting Fit-to-Standard Workshops - SAP Learning, SAP S/4HANA Cloud Public Edition - Integration, Deploying SAP S/4HANA Cloud Public Edition.

NEW QUESTION # 61

.....

Owing to the industrious dedication of our experts and other working staff, our C-S4CPB-2508 study materials grow to be more mature and are able to fight against any difficulties. Our C-S4CPB-2508 preparation exam have achieved high pass rate in the industry, and we always maintain a 99% pass rate with our endless efforts. We have to admit that behind such a starling figure, there embrace mass investments on our C-S4CPB-2508 Exam Questions from our company.
