## **Free PDF 2026 Valid SAP C-BCBAI-2502: SAP Certified Associate - Positioning SAP Business AI Solutions as part of SAP Business Suite Valid Guide Files**

C-BCBAI-2502 test dumps are aiming at helping you to pass the exam in the shortest time and with the least amount of effort. As the saying goes, an inch of gold is an inch of time. Whether you are an office worker or a student or even a housewife, time is your most important resource. With C-BCBAI-2502 study materials, you may only need to spend half of your time that you will need if you don't use our C-BCBAI-2502 test answers on successfully passing a professional qualification exam. In this way, you will have more time to travel, go to parties and even prepare for another exam. The benefits of C-BCBAI-2502 Study Materials for you are far from being measured by money. C-BCBAI-2502 test answers have a first-rate team of experts, advanced learning concepts and a complete learning model. The time saved for you is the greatest return to us.

### **SAP Certified Associate - Positioning SAP Business AI Solutions as part of SAP Business Suite Sample Questions (Q61-Q66):**

#### **NEW QUESTION # 61**

Which SAP solution provides a centralized platform for tracking sustainability performance?

Please choose the correct answer.

Response:

- A. SAP Extended Warehouse Management
- **B. SAP Sustainability Control Tower**
- C. SAP Fieldglass
- D. SAP Business One

**Answer: B**

#### **NEW QUESTION # 62**

Which of the following API types does SAP recommend to use to achieve clean core integrations? Note:

There are 2 correct answers to this question.

- **A. OData**
- **B. SOAP**
- C. RFC
- D. Doc

**Answer: A,B**

Explanation:

SAP recommends specific API types to achieve clean core integrations, ensuring extensibility and maintainability in cloud-based SAP systems. The correct answers are SOAP and OData, as these are explicitly documented as preferred API types for clean core integrations.

SAP documentation explains: "To achieve clean core integrations in SAP S/4HANA Cloud and other cloud solutions, SAP recommends using modern API types such as OData and SOAP for seamless connectivity and extensibility." OData (Open Data Protocol) is widely used for "REST-based integrations," enabling

"standardized, scalable access to SAP data and processes" in solutions like SAP S/4HANA Cloud. SOAP (Simple Object Access Protocol) is recommended for "secure, reliable integrations," particularly in scenarios requiring structured data exchange, such as financial transactions. These API types support SAP's clean core strategy by "minimizing custom code and ensuring upgradability." The incorrect options-RFC and Doc-are not recommended for clean core integrations. RFC (Remote Function Call) is a legacy protocol, less suitable for modern cloud architectures due to its complexity and lack of standardization. Doc is not a recognized API

type in SAP's integration framework. SAP's emphasis on clean core principles, as seen in SAP Business Technology Platform integrations, confirms the preference for SOAP and OData.

#### NEW QUESTION # 63

Which SAP module focuses on workplace safety and environmental compliance?

Please choose the correct answer.

Response:

- A. SAP Business Network
- **B. SAP Environment, Health, and Safety (EHS)**
- C. SAP Financial Closing Cockpit
- D. SAP Predictive Analytics

**Answer: B**

#### NEW QUESTION # 64

(What is Machine Learning?)

- A. A form of deep learning that utilizes foundation models, like large language models, to create new content, including text, images, sound, and videos, based on the data it was trained on.
- **B. A subset of AI that focuses on enabling computer systems to learn and improve from experience or data, incorporating elements from fields like computer science, statistics, and psychology.**
- C. AI systems that use self-supervised learning on vast data to perform a variety of tasks, such as writing documents or creating images.
- D. A technology that equips machines with human-like capabilities such as problem-solving, visual perception, speech recognition, decision-making, and language translation.

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract: Machine Learning is defined as a subset of AI that enables computer systems to learn and improve from experience or data, incorporating elements from fields like computer science, statistics, and psychology. This distinguishes it from general AI, generative AI, or foundation models, focusing on data-driven learning without explicit programming.

Exact extracts supporting this:

"Machine learning is a subset of artificial intelligence (AI) in which computers learn from data and improve with experience without being explicitly programmed."sap.com

"Machine learning (ML) is a subset of AI that enables computer systems to learn and improve from experience or data, and incorporates elements from fields like computer science, statistics, and psychology."sap.com

"Machine learning is a subset of artificial intelligence (AI). It is focused on teaching computers to learn from data and to improve with experience - instead of ..."learning.sap.com Other options are incorrect because:

Option A: This describes foundation models or generative AI systems that use self-supervised learning for multi-task performance, not specifically machine learning.

Option C: This refers to generative AI, a specific application of deep learning using foundation models for content creation.

Option D: This defines artificial intelligence in general, encompassing human-like capabilities beyond just learning from data.

Reference from Positioning SAP Business AI Solutions as part of SAP Business Suite documents or Study Guide: Drawn from the SAP product page "What is Machine Learning?" and the SAP Learning course "Discovering SAP Business AI," which positions machine learning as a foundational subset of AI within SAP Business AI solutions integrated into the SAP Business Suite. Supported by SAP Help Portal glossaries and community blogs, as aligned with C\_BCBAI\_2502 certification for explaining AI concepts.

#### NEW QUESTION # 65

Which SAP solution helps companies ensure compliance with environmental regulations?

Please choose the correct answer.

Response:

- A. SAP Extended Warehouse Management
- **B. SAP EHS**

- C. SAP SuccessFactors
- D. SAP Business Warehouse

**Answer: B**

## NEW QUESTION # 66

.....

On the one hand, our C-BCBAI-2502 quiz torrent can help you obtain professional certificates with high quality in any industry without any difficulty.
