SAP E-S4CON-2505 Exam Syllabus Topics:

Topic	Details
Topic 1	• Downtime optimization and execution: This section of the exam measures the skills of Technical Consultants and covers methods to optimize downtime during a system conversion. It emphasizes strategies to reduce business disruption, ensure smooth execution, and apply best practices for time-efficient conversion activities.
Topic 2	• Manual interventions during a system conversion: This section of the exam measures the skills of SAP System Administrators and covers the manual steps required during a system conversion. It includes tasks that cannot be automated and require technical oversight, ensuring that system stability and data integrity are maintained throughout the process.
Topic 3	• Activities before starting a system conversion: This section of the exam measures the skills of SAP System Administrators and covers the essential tasks required before beginning a system conversion. It focuses on preparing the system environment, checking compatibility, and ensuring that both technical and business prerequisites are fulfilled to minimize risks during the conversion process.
Topic 4	• Preparing for the usage of Software Update Manager: This section of the exam measures the skills of Technical Consultants and covers preparation for working with the Software Update Manager tool. It focuses on understanding SUM's role in executing conversions, configuring its settings, and applying it effectively to achieve successful project outcomes.
