We have three versions of our MD-102 Exam Braindumps: the PDF, the Software and the APP online. And you can free download the demo s to check it out.

## Microsoft Endpoint Administrator Sample Questions (Q149-Q154):

### NEW QUESTION # 149

You use Microsoft Intune and Intune Data Warehouse.

You need to create a device inventory report that includes the data stored in the data warehouse.  
What should you use to create the report?

- A. the Company Portal app
- B. the Azure portal app
- C. Microsoft Power BI
- D. Endpoint analytics

**Answer: C**

Explanation:

You can use the Power BI Compliance app to load interactive, dynamically generated reports for your Intune tenant. Additionally, you can load your tenant data in Power BI using the OData link. Intune provides connection settings to your tenant so that you can view the following sample reports and charts related to:

Devices

Enrollment

App protection policy

Compliance policy

Device configuration profiles

Software updates

Device inventory logs

Note: Load the data in Power BI using the OData link

With a client authenticated to Azure AD, the OData URL connects to the RESTful endpoint in the Data Warehouse API that exposes the data model to your reporting client. Follow these instructions to use Power BI Desktop to connect and create your own reports.

Sign in to the Microsoft Endpoint Manager admin center.

Select Reports > Intune Data warehouse > Data warehouse.

Retrieve the custom feed URL from the reporting blade, for example:

<https://fef.{yourtenant}.manage.microsoft.com/ReportingService/DataWarehouseFEService/dates?api-version=v1.0> Open Power BI Desktop.

Choose File > Get Data. Select OData feed.

Choose Basic.

Type or paste the OData URL into the URL box.

Select OK.

If you have not authenticated to Azure AD for your tenant from the Power BI desktop client, type your credentials. To gain access to your data, you must authorize with Azure Active Directory (Azure AD) using OAuth 2.0.

Select Organizational account.

Type your username and password.

Select Sign In.

Select Connect.

Select Load.

#### NEW QUESTION # 150

You have a Microsoft 365 tenant.

You plan to enable Enterprise State Roaming.

Which three types of data will sync across devices? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Microsoft Teams settings
- B. Microsoft Edge Chromium settings
- C. internet passwords
- D. desktop theme settings
- E. mouse settings

**Answer: B,C,D**

#### NEW QUESTION # 151

You need to meet the technical requirements for the new HR department computers.

How should you configure the provisioning package? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

**NEW QUESTION # 153**

You enable controlled folder access in audit mode for several computers that run Windows 10.

You need to review the events audited by controlled folder access.

Which Event Viewer log should you view?

- A. Windows\Security
- **B. Applications and Services\Microsoft\Windows\Windows Defender\Operational**
- C. Applications and Services\Microsoft\Windows\Known Folders\Operational

**Answer: B**

Explanation:

Review controlled folder access events in Windows Event Viewer

Controlled folder access events appear in Windows Event Viewer under

Microsoft/Windows/Windows Defender/Operational folder.
