## ISACA COBIT 2019 Foundation Sample Questions (Q83-Q88):

### NEW QUESTION # 83

An enterprise is designing a specific governance system that is using diverse technology deployments with multiple domains of business operations. Which of the following is the expected deliverable when tailoring the COBIT 2019 framework?

- A. Enterprise goals
- B. Focus area guidance
- C. Aligned goals
- D. Capability levels

**Answer: B**

Explanation:

The focus areas are specific governance topics that are relevant for an enterprise based on its context, needs, and objectives. The focus areas provide guidance on how to apply the COBIT 2019 framework to address specific issues or challenges related to information and technology governance. The focus areas also help to tailor the COBIT 2019 framework to suit the enterprise's specific governance system design. Therefore, when an enterprise is designing a specific governance system that is using diverse technology deployments with multiple domains of business operations, the expected deliverable when tailoring the COBIT 2019 framework is the focus area guidance. The focus area guidance will help the enterprise to select and prioritize the relevant focus areas that match its governance needs and objectives, and to customize the COBIT 2019 components such as principles, enablers, goals, processes, practices, etc., according to the focus area requirements.<sup>12</sup> References: 1: COBIT 2019 Design Guide, page 51-52 2: COBIT 2019 Framework: Introduction and Methodology, page 27-28

**NEW QUESTION # 84**

The enterprise goal of compliance with external laws and regulations is aligned to which balanced scorecard (BSC) dimension?

- A. Growth
- B. Internal
- **C. Financial**

**Answer: C**

Explanation:

Explanation

The enterprise goal of compliance with external laws and regulations is aligned to the financial dimension of the balanced scorecard (BSC). The BSC is a strategic performance management tool that helps enterprises to translate their vision and strategy into operational objectives and measures. The BSC consists of four dimensions: financial, customer, internal, and growth. The financial dimension focuses on the financial performance and value creation of the enterprise. Compliance with external laws and regulations is one of the

17 generic enterprise goals defined by COBIT that supports the financial dimension.<sup>12</sup> References: COBIT 2019 Framework: Introduction and Methodology, COBIT 2019 Framework: Governance and Management Objectives

**NEW QUESTION # 85**

Which of the following comprises the "information flow" component of a governance system?

- A. People, skills and competencies
- B. Assignment of responsibility and accountability roles
- **C. Process practices that include inputs and outputs**

**Answer: C**

Explanation:

Explanation

The process practices that include inputs and outputs comprise the information flow component of a governance system. A governance system is a set of components that provide direction, oversight, evaluation, monitoring, assurance, etc., for an enterprise's information and technology. A governance system consists of seven components: governance components (such as structures, processes, principles, policies, etc.), governance enablers (such as people, skills, culture, information, services, etc.), governance outcomes (such as value creation, risk optimization, resource optimization, etc.), information flow (the exchange of information among components), culture (the shared values, beliefs, norms, and attitudes), ethical behavior (the conduct that conforms to moral principles), stakeholder needs (the requirements or expectations of internal or external stakeholders). The information flow component comprises the process practices that include inputs and outputs that enable the exchange of information among components.<sup>14</sup> References: COBIT 2019 Framework: Introduction and Methodology, COBIT 2019 Framework: Governance System

**NEW QUESTION # 86**

The alignment goal titled "Knowledge, expertise and initiatives for business innovation" is aligned to which IT balanced scorecard (BSC) dimension?
