### CFA Institute CFA Level I Chartered Financial Analyst Sample Questions (Q758-Q763):

#### NEW QUESTION # 758

Accelerated depreciation method is appealing for all of the following reasons EXCEPT

- A. It reflects the physical deterioration of a physical asset more realistically.
- B. It smoothens out the total of depreciation and repair and maintenance costs over time.
- C. It enables a company to better cope with the effects of inflation on assets' replacement values.

#### Answer: A

Explanation:

None of the accounting depreciation methods represent the actual physical depreciation of the underlying asset. They are all assumptions made for convenient allocation of an asset's purchase price over the economic life of the asset. Besides, the accelerated depreciation method generates greater present value of tax savings over the straight line method.

#### NEW QUESTION # 759

An appreciation of the US dollar would \_\_\_\_ (increase, decrease, not affect) aggregate demand, and an increase in the real interest rate would \_\_\_\_ (increase, decrease, not affect) aggregate demand.

- A. increase, decrease.
- B. decrease, increase.
- C. decrease, decrease.

#### Answer: C

Explanation:

An appreciation of the dollar would make U.S. goods and services more expensive to foreigners and would reduce exports. An increase in the real interest rate would depress domestic investment spending and spending on consumer durables such as automobiles and refrigerators.

Spending on U.S. exports, investment spending and consumer spending are components of aggregate demand.

#### NEW QUESTION # 760
