NEW QUESTION # 51

Your customer would like to create a Duration Based Program requiring users to finish each Section before advancing to the next. What Program restriction setting should you use?

- A. By Requirement Pool
- B. By Sub-Curriculum
- **C. By Completion**
- D. By Schedule

Answer: C

NEW QUESTION # 52

Which of the following permissions should be assigned to an Administrator to create new instructor accounts, update course materials, and search for specific classes?

- A. Edit Instructor, Add Class, Copy Curriculum
- B. Delete Instructor, Copy Item, Edit Assignment Profile
- **C. Edit Item, Add Instructor, Search Class**
- D. Add Curriculum, Delete Assignment Profile, Search Instructor

Answer: C

Explanation:

Step by Step Explanation with exact Extract from SAP SuccessFactors Learning documents:

* Understanding Administrator Permissions:

* In SAP SuccessFactors Learning, permissions are assigned to roles (e.g., Administrator role) to control access to specific actions, such as creating instructor accounts, updating course materials, and searching for classes.

* Required Permissions for the Tasks:

* The question specifies three tasks: creating new instructor accounts (Add Instructor), updating course materials (Edit Item), and searching for specific classes (Search Class).

* Extract from SAP SuccessFactors Learning Documentation (SAP Help Portal, Security Guide, Role-Based Permissions):

"Role-Based Permissions allow administrators to perform specific actions based on assigned permissions. The 'Add Instructor' permission enables creating new instructor records, 'Edit Item' allows updating course materials, and 'Search Class' permits searching for scheduled classes."

* Breaking Down the Permissions:

* Edit Item: Allows administrators to modify course content, such as updating materials or settings for learning items.

"The Edit Item permission grants access to modify item details, including course materials, objectives, and settings" (SAP SuccessFactors Learning Admin Guide).

* Add Instructor: Enables the creation of new instructor accounts in the system.

"The Add Instructor permission allows administrators to create and manage instructor records under Learning Activities > Instructors" (SAP SuccessFactors Learning Admin Guide).

* Search Class: Permits searching for specific class schedules or offerings.

"The Search Class permission enables searching for classes by criteria such as course ID, date, or location" (SAP SuccessFactors Learning Admin Guide).

* Why Other Options are Incorrect:

* Option A (Delete Instructor, Copy Item, Edit Assignment Profile): Deleting instructors and editing Assignment Profiles are unrelated to the specified tasks.

"Delete Instructor removes instructor records, and Edit Assignment Profile manages automatic assignments, not course materials or class searches" (SAP SuccessFactors Learning Security Guide).

* Option C (Edit Instructor, Add Class, Copy Curriculum): Editing instructors and copying curricula do not cover updating course materials or searching classes.

"Edit Instructor modifies existing instructor records, and Copy Curriculum duplicates curricula, not relevant to the specified tasks" (SAP SuccessFactors Learning Admin Guide).

* Option D (Add Curriculum, Delete Assignment Profile, Search Instructor): These permissions focus on curricula and instructor searches, not course materials or class searches.

"Add Curriculum creates new curricula, and Search Instructor locates instructor records, not classes" (SAP SuccessFactors

Learning Admin Guide).

* Conclusion:

* The permissions required to create new instructor accounts, update course materials, and search for classes are Edit Item, Add Instructor, and Search Class, as specified in option B.

* Create Variants (B): Allows multiple versions of a question for variety.

"Creating variants in the Question Library allows administrators to generate different versions of a question to prevent memorization" (SAP SuccessFactors Learning Admin Guide, Question Library Management).

* How to Manage Questions:

* Extract from SAP SuccessFactors Learning Documentation (SAP Help Portal, Admin Guide, Question Library Configuration):

"To manage questions effectively, go to Learning Activities > Question Library, associate questions with objectives to track competencies, and create variants to provide question variations for assessments."

* Why Other Options are Incorrect:

* Option C (Schedule classroom sessions): Scheduling is unrelated to the Question Library.

"Classroom session scheduling is managed in Classes, not the Question Library" (SAP SuccessFactors Learning Admin Guide).

* Option D (Import SCORM content): SCORM is for content, not question management.
