Answer: B

NEW QUESTION # 51

What is an output of good financial viability analysis?

- A. Estimation of financial impact of the product on the market
- B. Identification of which proposed new features are feasible to implement
- C. Estimation of the financials that will create customer value
- D. Calculation of the final cost of releasing a feature

Answer: B

Explanation:

Good financial viability analysis results in identifying which proposed new features are feasible to implement, ensuring that development efforts focus on initiatives that can be supported within available financial resources.

NEW QUESTION # 52

A balanced scorecard is used as part of assessing financial viability by:

- A. understanding the financial aspects of the product with specific attributes.

- B. contrasting financial decisions by managing performance in any business model, organizational structure, or business process.
- C. assessing whether new features or modifications to the product can be met given the currently available finances.
- D. giving alternatives to the current financial strategy through an analysis of the various cost-benefit alternatives.

Answer: B

Explanation:

A balanced scorecard helps assess financial viability by contrasting financial decisions with performance management across various business models, structures, or processes, ensuring alignment between financial goals and overall strategic objectives.

NEW QUESTION # 53

Product planning cycles include focused attention on the:

- A. release iterations.
- B. delivery horizons.
- C. customer.
