Reliable C-SIGDA-2403 Reliable Exam Book | Marvelous C-SIGDA-2403 Reliable Exam Topics and Practical SAP Certified Associate - Process Data Analyst - SAP Signavio Valid Exam Review

Based on the credibility in this industry, our C-SIGDA-2403 study braindumps have occupied a relatively larger market share and stable sources of customers. Such a startling figure --99% pass rate is not common in this field, but we have made it with our endless efforts. The system of C-SIGDA-2403 test guide will keep track of your learning progress in the whole course. Therefore, you can have 100% confidence in our C-SIGDA-2403 exam guide. According to our overall evaluation and research, seldom do we have cases that customers fail the C-SIGDA-2403 Exam after using our study materials. But to relieve your doubts about failure in the test, we guarantee you a full refund from our company by virtue of the related proof of your report card. Of course you can freely change another C-SIGDA-2403 exam guide to prepare for the next exam. Generally speaking, our company takes account of every client' difficulties with fitting solutions.

SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q15-Q20):

NEW QUESTION # 15

Which process-related areas are the focus for Business Process Management? Note: There are 3 correct answers to this question.

- A. Process Improvement
- B. Process Implementation
- C. Process Governance
- D. Process Transparency
- E. Process Discovery

Answer: A,B,D

Explanation:
Business Process Management (BPM) encompasses a range of activities to manage and optimize organizational processes. The SAP Signavio Process Transformation Suite Documentation outlines the key areas:
* Exact Extract:"Business Process Management focuses on:
* Process Implementation: Executing and deploying process designs to achieve business objectives.
* Process Improvement: Continuously optimizing processes to enhance efficiency and effectiveness.
* Process Transparency: Ensuring clear visibility into process structures and performance for all stakeholders." (SAP Signavio Process Transformation Suite Overview, section on "Business Process Management Focus Areas").
* Explanation:
* Option A (Process Implementation):BPM includes implementing designed processes, ensuring they are operationalized effectively, often using tools like SAP Signavio Process Governance for workflow execution.
* Option B (Process Improvement):A core BPM goal is to enhance processes by identifying inefficiencies, reducing costs, or improving quality, supported by tools like SAP Signavio Process Intelligence.
* Option C (Process Transparency):BPM aims to provide clear visibility into processes through modeling, documentation, and analytics, enabling stakeholders to understand and monitor performance, often via the SAP Signavio Process Collaboration Hub.
* Option D (Process Discovery)is incorrect as it is a specific capability of Process Mining within SAP Signavio Process Intelligence, not a broad BPM focus area.
* Option E (Process Governance)is incorrect because, while governance is related to BPM, it is a specific function (e.g., workflow management) rather than a primary focus area like implementation or improvement.
Reference:SAP Signavio Process Transformation Suite Overview, section on "Business Process Management Focus Areas"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 2: BPM Principles.

NEW QUESTION # 16

Which BPMN gateway is best used to create diverging paths where all conditions must evaluate to true to trigger subsequent flows?

- A. Inclusive Gateway
- B. Exclusive Gateway
- C. Event-based Gateway
- D. Parallel Gateway

Answer: D

NEW QUESTION # 17

What are some key topics of the SAP Signavio Process Manager?Note: There are 3 correct answ-ers to this que-stion.

Answer:

Explanation:
B.C.E

NEW QUESTION # 18

What are some benefits of using metrics in SAP Signavio Process Intelligence?Note: There are 2 correct answ-ers to this que-stion.

Answer:

Explanation:
B.D

NEW QUESTION # 19
What does the acronym BPMN stand for?

- A. Business Process Maturity and Notation
- B. Business Process Management and Notation
- C. Business Procedure Model and Notation
- D. Business Process Model and Notation

Answer: D

Explanation:
BPMN stands for:
* Option D (Business Process Model and Notation): BPMN is a standardized graphical notation that depicts the steps of a business process from a start event to an end event. It is a widely adopted standard for business process modeling that provides a graphical representation of business activities and decisions, making it easier for business stakeholders to understand, communicate, and improve their processes.
