But if you buy our DCPLA Test Torrent, you can invest your main energy on your most important thing and spare 1-2 hours each day to learn and prepare the exam.

# DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q42-Q47):

## NEW QUESTION # 42
Which of the following statement is incorrect?

- A. Misuse of personal information available in public domain may be construed as a privacy violation
- B. None of the Above
- C. Privacy policy may be derived from outcomes of privacy impact assessment
- D. A privacy policy once framed cannot be changed before the specified review period

**Answer: D**

Explanation:
Privacy policies are living documents that reflect how organizations manage personal information. While regular review cycles (e.g., annually) are recommended, nothing restricts updates outside of that cycle when significant changes in processing activities, legal obligations, or identified risks occur.
Therefore, Statement C is incorrect - a privacy policy can and should be updated before the scheduled review if warranted.

## NEW QUESTION # 43
From the following list, identify the technology aspects that are specially designed for upholding privacy:
I) Data minimization
II) Intrusion prevention system
III) Data scrambling
IV) Data loss prevention
V) Data portability
VI) Data obfuscation
VII) Data encryption
VIII) Data mirroring

- A. Only I, II, III, VII and VIII
- B. Only II, V, VI, VII and VIII
- C. Only I, III, V, VII and VIII
- D. Only I, III, IV, VI and VII

**Answer: D**

## NEW QUESTION # 44
Which of the following factors is least likely to be considered while implementing or augmenting data security solution for privacy protection?

- A. Information security infrastructure up-gradation in the organization
- B. Training and awareness program for third party organizations
- C. Security controls deployment at the database level
- D. Classification of data type and its usage by various functions in the organization

**Answer: B**

Explanation:
While training third-party organizations is a relevant privacy governance function, it is not a primary technical or operational consideration when implementing data security solutions.
The other options (A, B, and C) directly relate to core security architecture, system-level controls, and data governance - all

essential for privacy protection at a system level.
Hence, D is least likely to be considered in technical implementation.

**NEW QUESTION # 45**
With respect to privacy implementation, organizations should strive for which of the following:

- A. Meaningful compliance
- B. Checklist based exercise
- C. Demonstrable accountability
- D. None of the above

**Answer: C**

Explanation:
The DSCI Assessment Framework for Privacy (DAF-P) emphasizes the need for organizations to move beyond checkbox compliance to embrace "Demonstrable Accountability." This involves:
* Being able to show evidence of privacy program implementation
* Having appropriate governance structures
* Showing that privacy principles are embedded into processes
This proactive and transparent approach to privacy governance aligns with leading global frameworks.

**NEW QUESTION # 46**
Which of the following is outside the scope of an organization's privacy incident management plan?

- A. Detection of leakage of personal information
- B. Remediation of incidents
- C. Defers data access rules for business users
- D. Communication of privacy incidents

**Answer: C**

**NEW QUESTION # 47**
