Why ITCertMagic can provide the comprehensive and high-quality information uniquely? Because we have a professional team of IT experts. They continue to use their IT knowledge and rich experience to study the previous years exams of Scaled Agile SAFe-SPC and have developed practice questions and answers about Scaled Agile SAFe-SPC exam certification exam. So ITCertMagic's newest exam practice questions and answers about Scaled Agile certification SAFe-SPC exam are so popular among the candidates participating in the Scaled Agile certification SAFe-SPC exam.

Scaled Agile SAFe-SPC Exam Syllabus Topics:

Topic	Details
Topic 1	• Reaching the SAFe Tipping Point: This section of the exam measures skills of the Transformation Champion and addresses the earliest stages of change. It explains how to establish a clear vision for change and how to build a strong guiding coalition. Lesson 8 highlights the importance of commitment and sponsorship at the start of a transformation journey.

Topic 2	• Becoming a Lean Agile Leader: This section of the exam measures skills of the Team Leader and focuses on the mindset required to lead with Lean Agile values. It explains the Lean Agile mindset, reviews SAFe core values, and presents SAFe principles in simple and practical terms. Lesson 2 helps leaders understand how their actions influence team culture and continuous improvement.
Topic 3	• Leading the Change: This section of the exam measures skills of the Change Leader and focuses on guiding transformation. It reviews how to lead by example, how to lead organizational change, and how to apply the SAFe implementation roadmap. Lesson 6 provides a simple view of the leadership behaviors needed to support enterprise level change.
Topic 4	• Building Solutions with Agile Product Delivery: This section of the exam measures skills of the Product Owner and focuses on delivering customer centric value. It explains design thinking, backlog prioritization, and program increment planning in a clear manner. It also covers developing on cadence and releasing on demand, followed by an overview of the continuous delivery pipeline with DevOps. Lesson 4 guides learners on building solutions that align with user needs.
Topic 5	• Designing the Implementation: This section of the exam measures skills of the Release Train Engineer and covers the steps for designing a SAFe implementation. It introduces the identification of value streams and Agile Release Trains and describes how to create an implementation plan. Lesson 9 shows how structure and planning support a smooth transformation process.
Topic 6	• Enhancing the Portfolio: This section of the exam measures skills of the Enterprise Architect and addresses the scaling of value delivery. It discusses launching additional ARTs and value streams, strengthening enterprise solution delivery, and improving portfolio operations. It also reviews Lean governance and the ongoing work of LPM implementation. Lesson 12 focuses on expanding organizational capability.

Scaled Agile SAFe Practice Consultant SPC (6.0) Sample Questions (Q165-Q170):

NEW QUESTION # 165
AFe assumes that programs commit to the key priorities within the current PI and provide a forecast for a few subsequent PIs.

- A. True
- B. False

Answer: A

NEW QUESTION # 166
(Select 3) Based on the work of Don Reinertsen, SAFe denotes five primary economic factors that can be used to consider the economic perspective of a particular investment. From the list below, choose three of those primary economic factors.

- A. Value stream budget
- B. Lead time
- C. Return on Investment (ROI)
- D. Development expense
- E. Risk

Answer: B,C,D

Explanation:
SAFe adopts the five primary economic factors from Don Reinertsen's "The Principles of Product Development Flow." These are:
Development expense,
Lead time,
Product cost,
Value,
Risk.

From the options given:
A). Lead time is correct (one of the primary factors).
C). Return on Investment (ROI) is a direct measurement of value, so this aligns with "Value." E). Development expense is correct.
"Value stream budget" is not one of the original economic factors. "Risk" is a primary factor, so if you need only three, the best answers are A, C, and E.

SAFe 6.0 SPC Guide: "Exploring Lean Portfolio Management" module

NEW QUESTION # 167
(Select 2) What is true about budgets in SAFe?

- A. Budgets are allocated to value streams.
- B. Budgets are allocated to portfolios.
- C. Budgets are allocated to strategic themes.
- D. Budgets are allocated to teams.
- E. Budgets are allocated to projects.

Answer: A,B

Explanation:
SAFe applies Lean-Agile budgeting by allocating funding at the portfolio level (C) and, more granularly, to value streams (E)-not to individual projects or teams. Budgets are not directly allocated to strategic themes, which serve as investment guidance rather than funding vehicles.
"Lean-Agile budgeting allocates funding to value streams within a portfolio, empowering decentralized decision-making and continuous value flow." (Source: SAFe 6.0 Framework: Lean Portfolio Management, Lean Budgets; SPC 6.0 Guide "Exploring Lean Portfolio Management")

NEW QUESTION # 168
What is NOT a SAFe-recommended practice for DevOps?

- A. Create the ability to automatically build environments.
- B. Build and maintain a production-equivalent staging environment.
- C. Maintain development and test environments to better match production.
- D. Put everything under version control.
- E. Start automating the actual deployment process.
- F. Continuously synchronize all Feature and team branches.
- G. Deploy to staging every sprint.

Answer: F

NEW QUESTION # 169
(Select 3) Who is typically involved in the ART Sync?

- A. Release Management
- B. Product Owners
- C. Business Owners
- D. Scrum Masters
- E. Solution Management
- F. Release Train Engineer

Answer: B,D,F

Explanation:
The ART Sync meeting combines the Scrum of Scrums and PO Sync. The typical participants are:
A). Scrum Masters (coordinate dependencies, remove impediments)
B). Product Owners (manage and align work, ensure backlog readiness)

D). Release Train Engineer (facilitates the meeting)
Business Owners, Release Management, and Solution Management may attend when needed but are not regular participants.
"ART Sync is attended by Scrum Masters, Product Owners, and is facilitated by the Release Train Engineer." (Source: SAFe 6.0 Framework: ART Events, ART Sync)

NEW QUESTION # 170
......

Various study forms are good for boosting learning interests. So our company has taken all customers' requirements into account. Some people are not good at operating computers.
