Huawei H19-619_V1.0 (HCSP-Presales-Government Public Services V1.0) Certification Exam is a professional certification exam that focuses on testing the knowledge and skills of individuals who wish to excel in the field of presales in government public services. H19-619_V1.0 exam is designed to test the candidate's ability to understand the unique characteristics and requirements of government public services, as well as their ability to provide effective solutions based on Huawei's products and technologies. Passing H19-619_V1.0 exam will demonstrate that the candidate possesses the necessary knowledge and skills to effectively engage with customers, identify their needs, and provide them with the best solutions that meet their specific requirements.

Huawei H19-619_V1.0 Certification Exam is a vendor-neutral exam, which means that it is not specific to any particular technology or product. H19-619_V1.0 exam focuses on the candidates' ability to analyze customer requirements, understand their needs, and provide effective solutions based on Huawei's products and technologies. H19-619_V1.0 exam also evaluates the candidates' ability to communicate effectively with customers and their colleagues.

Huawei HCSP-Presales-Government Public Services V1.0 Sample Questions (Q154-Q159):

NEW QUESTION # 154

Which of the following is not a business-support component of the Government Service Business Middle Platform?

- A. Process Center
- B. Item (Service) Center
- **C. Contingency/Plan Center**

- D. Material Center

Answer: C

Explanation:

Business middle platforms for government services standardize items, materials, and processes as basic business-support components. The Item Center manages service items, the Material Center standardizes application materials, and the Process Center supports approval flows. A Contingency/Plan Center is used for emergency scenarios and is not a basic business-support component of the government-service business middle platform.

NEW QUESTION # 155

The six major components of digital-government construction include which of the following?

- A. Government big-data system construction
- B. Government office
- C. Digital-city intelligent hub
- D. City operation management
- E. Digital-city integrated perception
- F. Government services

Answer: A,B,C,D,E,F

Explanation:

The framework includes services, operation management, internal office, integrated sensing, intelligent hub/brain, and big-data systems, jointly forming a complete digital-government architecture.

NEW QUESTION # 156

From national policy and provincial "digital government" plans, building a province-/city-wide collaborative office "one network" with unified, secure, mobile, intelligent and platform-based office solutions has become a future trend.

- A. True
- B. False

Answer: A

Explanation:

Policies clearly encourage cross-level, cross-department collaborative office networks, emphasizing centralized construction, security, mobility, intelligence, and platformization.

NEW QUESTION # 157

Which of the following is not an intelligent-roadside perception device in an intelligent-connected-vehicle solution?

- A. Radar
- B. ITS800
- C. Camera
- D. RSU
- E. OBU

Answer: E

Explanation:

OBU (On-Board Unit) is an in-vehicle device, not a roadside sensor; all others are road-side or perception devices.

NEW QUESTION # 158

The data-change prediction platform uses big-data models to forecast data accuracy, guiding local departments to verify instead of re-collect, ensuring accurate updates.

- A. True
- B. False

Answer: A

Explanation:

Predictive modeling helps replace redundant collection with verification-based updates, improving data accuracy and cost efficiency. This aligns with intelligent data-governance frameworks promoting predictive maintenance of data quality.

NEW QUESTION # 159
