DumpsTorrent has designed Apple Deployment and Management Exam (DEP-2025) pdf dumps format that is easy to use. Anyone can download the Apple DEP-2025 pdf questions file and use it from any location or at any time. Apple PDF Questions files can be used on laptops, tablets, and smartphones. Moreover, you will get actual Apple Deployment and Management Exam (DEP-2025) exam questions in this Apple DEP-2025 pdf dumps file. These Apple DEP-2025 exam questions have a high chance of coming in the actual DEP-2025 test. You have to memorize these DEP-2025 questions and you will pass the Apple Deployment and Management Exam (DEP-2025) test with brilliant results.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.

Topic 2	<ul style="list-style-type: none"> • Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 3	<ul style="list-style-type: none"> • Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 4	<ul style="list-style-type: none"> • Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 5	<ul style="list-style-type: none"> • Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 6	<ul style="list-style-type: none"> • Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 7	<ul style="list-style-type: none"> • Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 8	<ul style="list-style-type: none"> • Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 9	<ul style="list-style-type: none"> • Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 10	<ul style="list-style-type: none"> • Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 11	<ul style="list-style-type: none"> • Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.
Topic 12	<ul style="list-style-type: none"> • Manage Content and Data Flow: This section of the exam measures the skills of an IT Administrator and covers app distribution methods including managed, custom, and proprietary apps. It focuses on content purchasing and delivery through Apple Business or School Manager.

Crack the Apple DEP-2025 Exam with Confidence

To keep pace with the times, we believe science and technology can enhance the way people study on our DEP-2025 exam materials. Especially in such a fast-paced living tempo, we attach great importance to high-efficient learning our DEP-2025 Study Guide. Therefore, our DEP-2025 study materials base on the past exam papers and the current exam tendency, and design such an effective simulation function to place you in the real exam environment.

Apple Deployment and Management Exam Sample Questions (Q200-Q205):

NEW QUESTION # 200

What's required to unenroll a device from an MDM solution?

- A. A wipe command
- **B. An administrator's approval**
- C. User acceptance
- D. The device's passcode

Answer: B

Explanation:

To unenroll a device from an MDM solution, an administrator's approval is typically required, especially for supervised or organization-owned devices. This involves removing the MDM profile from the device via the MDM server, which may also require removing the device from Apple Business Manager or Apple School Manager if enrolled via ADE. The device's passcode (option B) isn't required for unenrollment. User acceptance (option C) isn't needed for administrator-initiated unenrollment, though users might remove profiles manually on unsupervised devices if permitted. A wipe command (option D) isn't necessary unless unenrollment includes data removal. The Apple Platform Deployment Guide outlines this process.

NEW QUESTION # 201

Where are bypass codes for Apple devices stored when you use organization-linked Activation Lock?

- A. In the user's personal Apple Account
- B. In Apple Business Manager or Apple School Manager
- **C. In the MDM solution**
- D. In the user's Managed Apple Account

Answer: C

Explanation:

Bypass codes are stored in MDM for organization-linked Activation Lock. The Apple Platform Deployment Guide states, "Bypass codes for organization-linked Activation Lock are stored in the MDM solution, allowing administrators to unlock devices without user credentials." References:

Apple Platform Deployment Guide, "Activation Lock" section.

Mobile Device Management Protocol Reference, "Activation Lock Management" section.

NEW QUESTION # 202

What's required to set up Shared iPad?

- A. User Enrollment
- **B. An MDM solution**
- C. A VPN configuration
- D. Apple Configurator

Answer: B

Explanation:

Setting up Shared iPad requires an MDM solution to configure the feature, assign Managed Apple IDs, and manage user sessions. The MDM applies a configuration profile specifying Shared iPad settings (e.g., temporary session mode or user-specific logins) and integrates with Apple School Manager or Apple Business Manager. Apple Configurator (option B) can supervise devices but isn't required for Shared iPad setup. User Enrollment (option C) is for BYOD, not shared devices. A VPN configuration (option D) is unrelated. The Apple Platform Deployment Guide mandates MDM for Shared iPad deployment.

NEW QUESTION # 203

You want to reset a user's forgotten password on a FileVault-encrypted Mac. What should you have escrowed in MDM to enable this?

- A. Secure Token
- B. Bootstrap Token
- **C. Personal recovery key**
- D. Institutional recovery key

Answer: C

Explanation:

On FileVault-enabled Macs, disk encryption ties directly to the user password. If the password is lost, recovery relies on keys. Apple supports two key models: the personal recovery key (PRK) and the institutional recovery key (IRK). The PRK is unique per device and can be escrowed securely to an MDM solution. In the event of a forgotten password, the IT administrator can retrieve the PRK from MDM and provide it to the user for unlocking the Mac. Apple strongly recommends escrow of PRKs in enterprise deployments to ensure encrypted Macs remain recoverable without requiring device erasure.

NEW QUESTION # 204

What is true when you transfer licenses to another location in Apple Business Manager?

- A. License transfers require approval for both the sending and receiving locations.
- B. You can transfer licenses even if they are currently assigned to devices.
- **C. Both the sending and receiving locations must be part of the same organization.**
- D. Apple Business Manager installs the latest available version of macOS.

Answer: C

Explanation:

Licenses can only transfer within an organization. The Apple Business Manager User Guide states, "Licenses can be transferred between locations, but both the sending and receiving locations must belong to the same organization in Apple Business Manager."

Option D is false as licenses must be unassigned first.

Reference:

Apple Business Manager User Guide, "Manage Licenses" section.

Apple Platform Deployment Guide, "License Management" section.

NEW QUESTION # 205

.....

The users of DEP-2025 exam reference materials cover a wide range of fields, including professionals, students, and students of less advanced culture. This is because the language format of our DEP-2025 study materials is easy to understand. No matter what information you choose to study, you don't have to worry about being a beginner and not reading data. And our DEP-2025 Test Questions are prepared by many experts. The content of our DEP-2025 study guide is very easy for you to understand for all the levels of the candidates.
