Pegasystems PEGACPBA24V1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Security: Designed for Security Analysts and Access Managers, this domain covers the relationship between personas, operators, and access groups within Pega. Candidates articulate the difference between authorization and authentication and understand their applications.
Topic 2	<ul style="list-style-type: none"> • Case Management: This domain targets Case Designers and Process Architects and explores designing a case lifecycle, including setting case statuses and adding instructions for tasks. Candidates demonstrate ability to configure service level agreements with urgency, goals, and deadlines, and manage routing of assignments to users, work groups, or queues. This section also includes configuring email correspondence, identifying duplicate cases, adding optional actions and automating workflow decisions using conditions. Candidates learn to pause and resume case processing, skip stages or processes, configure child cases, use automation shapes appropriately, and create and manage user teams.
Topic 3	<ul style="list-style-type: none"> • Data and Integration: This section measures skills of Data Analysts and Integration Specialists focusing on configuring data objects, relationships, and records. Candidates learn to capture and present data through fields and views, create calculated values, validate data with business logic rules, manipulate application data including setting default property values, and configure data transforms.
Topic 4	<ul style="list-style-type: none"> • Pega Express: This section of the exam measures skills of Business Analysts and Delivery Managers and covers the benefits and best practices of the Pega Express delivery approach. Candidates learn about the Pega Express values and best practices framework, the process and advantages of Directly Capture Objectives (DCO), and understand the four phases of Pega Express delivery along with relevant terminology.
