In today's era, knowledge is becoming more and more important, and talents are becoming increasingly saturated. In such a tough situation, how can we highlight our advantages? It may be a good way to get the test SDS certification. In fact, we always will unconsciously score of high and low to measure a person's level of strength, believe that we have experienced as a child by elders inquire achievement feeling, now, we still need to face the fact. Our society needs all kinds of comprehensive talents, the SDS Study Materials can give you what you want, but not just some boring book knowledge, but flexible use of combination with the social practice.

Therefore, make the most of this opportunity of getting these superb exam questions for the Senior Data Scientist certification exam. We guarantee you that our top-rated DASCA SDS Practice Exam (PDF, desktop practice test software, and web-based practice exam) will enable you to pass the SDS certification exam on the very first go.

>> SDS Latest Real Exam <<

SDS Free Exam - Valid SDS Exam Simulator

DASCA SDS frequently changes the content of the Senior Data Scientist (SDS) exam. Therefore, to save your valuable time and money, we keep a close eye on the latest updates. Furthermore, TestsDumps also offers free updates of SDS exam questions for up to 365 days after buying Senior Data Scientist (SDS) dumps. We guarantee that nothing will stop you from earning the esteemed DASCA Certification Exam on your first attempt if you diligently prepare with our SDS real exam questions.

DASCA Senior Data Scientist Sample Questions (Q32-Q37):

NEW QUESTION # 32

A workflow refers to a:

- A. Indirected acyclic graph
- **B. Directed acyclic graph**
- C. Indirected cyclic graph
- D. Directed cyclic graph

Answer: B

Explanation:

In data pipelines and process orchestration, a workflow is represented as a Directed Acyclic Graph (DAG):

Directed: Each edge has a direction, representing task dependencies.

Acyclic: No cycles exist; tasks must follow a sequence without looping back.

Graph: Represents tasks as nodes and dependencies as edges.

This structure is common in tools like Apache Airflow, Spark DAGs, and Hadoop MapReduce job schedulers.

Option A & B: Incorrect, as workflows cannot have cycles (would cause infinite loops).

Option D: Incorrect, because workflows are directed, not indirected.

Thus, the correct answer is Option C (Directed Acyclic Graph).

Reference:

DASCA Data Scientist Knowledge Framework (DSKF) - Data Engineering Architectures: Workflow Management with DAGs.

NEW QUESTION # 33

Which classification steps are performed in inductive techniques?

- i. Training Step
- ii. Test Step
- iii. Validation Step
- iv. Application Step

- A. ii, iii
- B. i, ii
- **C. i, ii, iii, iv**
- D. i, ii, iv

Answer: C

Explanation:

Inductive learning techniques in machine learning (such as decision trees, neural networks, or SVMs) follow a systematic sequence of steps for classification:

Training Step (i): A model is built using training data, where the system learns relationships between features and target labels.

Test Step (ii): The trained model is evaluated on unseen test data to measure its performance and generalizability.

Validation Step (iii): Often, a validation set is used to fine-tune model parameters, avoid overfitting, and choose the best model configuration.

Application Step (iv): The final validated model is applied to classify new, real-world data.

Since all four steps (i, ii, iii, iv) are essential to inductive classification, the correct answer is Option D (i, ii, iii, iv).

NEW QUESTION # 34

Which of the following is TRUE about monetization exercise?

- A. Both B and C
- B. The monetization exercise provides an opportunity to uncover new product and/or service opportunities
- **C. All of the above**
- D. The monetization exercise process then seeks to identify complementary or secondary recommendations that can be packaged and delivered along with that product or service

- E. The monetization exercise works by first understanding the product usage patterns and customer usage behaviors associated with a particular product and service

Answer: C

Explanation:

The monetization exercise is a critical phase in Big Data Business Model Maturity where organizations turn insights into new revenue opportunities.

Option A: Correct. Monetization often uncovers new product or service opportunities by leveraging analytics.

Option B: Correct. The first step is analyzing product usage patterns and customer behaviors to identify hidden value.

Option C: Correct. Insights help in building secondary recommendations or complementary products/services (cross-sell, upsell opportunities).

Thus, all three statements are valid, making the correct answer Option E (All of the above).

DASCA Data Scientist Knowledge Framework (DSKF) - Business Applications of Data Science: Data Monetization Strategies.

NEW QUESTION # 35

The aim of developing Scribe was to offer reliability with using:

- A. None of the above
- B. Complex protocols
- C. Extensive protocols
- D. High disk space usage

Answer: A

Explanation:

Scribe is a server developed by Facebook for aggregating log data streamed in real time from many servers.

Its primary aim was reliability and simplicity in collecting logs at scale.

Unlike other systems, Scribe was designed to avoid complex or extensive protocols and to ensure lightweight log transfer.

It also avoids unnecessary high disk usage, relying instead on efficient pipelines.

Thus, the correct answer is Option D (None of the above).

NEW QUESTION # 36

What is Scrumban?

- A. It is Scrum
- B. It is Kanban
- C. It combines the principles of Scrum and Kanban into a pull-based system
- D. It combines the principles of Scrum and Kanban into a push-based system

Answer: C

Explanation:

Scrumban is a hybrid Agile methodology that merges Scrum and Kanban to take advantage of the strengths of both.

From Scrum, Scrumban adopts structured sprint planning, roles, and iterative review cycles.

From Kanban, it borrows the visual board system, continuous workflow management, and the pull-based approach, where tasks are pulled into the workflow only when capacity is available.

The pull-based system ensures that teams do not overload themselves and helps manage work-in-progress (WIP) effectively. This makes Scrumban particularly suitable for projects with frequent changes, ongoing maintenance tasks, or teams transitioning from Scrum to Kanban.

Thus, the correct answer is Option C.

NEW QUESTION # 37

.....

Life of future will definitely be much more easy and convenient than the life of today, it is not late whenever you want to work as an IT engine. Our SDS exam questions and answers help you realize your dream easily. We TestsDumps offer the top-class exam materials similar with the real test. SDS Exam Questions And Answers assist people to master the real test questions and key knowledge so that candidates will feel easy and casual in real test so that they can clear exams and obtain a DASCA certification certainly.

SDS Free Exam: https://www.testsdumps.com/SDS_real-exam-dumps.html

DASCA SDS Latest Real Exam You usually receive mail containing our examination questions in 5-10 minutes, Our experts add them into the SDS quiz braindumps constantly after getting the newest points of questions and the supplements will be sent to your mailbox, SDS will be a better decision for you to realize the above wishes, DASCA SDS Latest Real Exam Therefore we can ensure that we will provide you with efficient services.

He also wrote a digital Short Cut titled Apollo in Flight for Sams Publishing, SDS For crying out loud, don't use Notepad for programming, You usually receive mail containing our examination questions in 5-10 minutes.

TestsDumps Enables You to Succeed on The SDS Exam the First Time

Our experts add them into the SDS Quiz braindumps constantly after getting the newest points of questions and the supplements will be sent to your mailbox.

SDS will be a better decision for you to realize the above wishes, Therefore we can ensure that we will provide you with efficient services, As long as our SDS learning material updated, users will receive the most recent information from our SDS learning materials.
