PECB NIS-2-Directive-Lead-Implementer Practice Test (Web-Based)

I believe that you must know Actual4dump, because it is the website with currently the highest passing rate of NIS-2-Directive-Lead-Implementer certification exam in the market. You can download a part of NIS-2-Directive-Lead-Implementer free demo and answers on probation before purchase. After using it, you will find the accuracy rate of our NIS-2-Directive-Lead-Implementer test

training materials is very high. What's more, after buying our NIS-2-Directive-Lead-Implementer exam dumps, we will provide renewal services freely as long as one year.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q54-Q59):

NEW QUESTION # 54
What is the role of a sponsoring senior executive in the supply chain risk management approach?

- A. To identify vital suppliers by referencing BIA results for insights
- B. To diversify suppliers, securing backup options to ensure a steady supply of essential products or services
- C. To allocate resources and support SCRM initiative's advancement

Answer: C

NEW QUESTION # 55
What is the role of the Commission within the Union Civil Protection Mechanism regarding cybersecurity situational awareness?

- A. Develop cybersecurity policies for Member States
- B. Provide analytical reports on diverse areas
- C. Coordinate internation cybersecurity collaborations

Answer: B

NEW QUESTION # 56
What is the primary responsibility of an information security manager?

- A. Securing funding and managing resources
- B. Establishing directions and high-level goals
- C. Ensuringthe successful implementation and management of cybersecurity practices

Answer: C

NEW QUESTION # 57
Scenario 2:
MHospital, founded in 2005 in Metropolis, has become a healthcare industry leader with over 2,000 dedicated employees known for its commitment to qualitative medical services and patient care innovation. With the rise of cyberattacks targeting healthcare institutions, MHospital acknowledged the need for a comprehensive cyber strategy to mitigate risks effectively and ensure patient safety and data security. Hence, it decided to implement the NIS 2 Directive requirements. To avoid creating additional processes that do not fit the company's context and culture, MHospital decided to integrate the Directive's requirements into its existing processes. To initiate the implementation of the Directive, the company decided to conduct a gap analysis to assess the current state of the cybersecurity measures against the requirements outlined in the NIS 2 Directive and then identify opportunities for closing the gap.
Recognizing the indispensable role of a computer security incident response team (CSIRT) in maintaining a secure network environment, MHospital empowers its CSIRT to conduct thorough penetration testing on the company's networks. This rigorous testing helps identify vulnerabilities with a potentially significant impact and enables the implementation of robust security measures. The CSIRT monitors threats and vulnerabilities at the national level and assists MHospital regarding real-time monitoring of their network and information systems. MHospital also conducts cooperative evaluations of security risks within essential supply chains for critical ICT services and systems. Collaborating with interested parties, it engages in the assessment of security risks, contributing to a collective effort to enhance the resilience of the healthcare sector against cyber threats.
To ensure compliance with the NIS 2 Directive's reporting requirements, MHospital has streamlined its incident reporting process. In the event of a security incident, the company is committed to issuing an official notification within four days of identifying the incident to ensure that prompt actions are taken to mitigate the impact of incidents and maintain the integrity of patient data and healthcare operations. MHospital's dedication to implementing the NIS 2 Directive extends to cyber strategy and governance. The company has established robust cyber risk management and compliance protocols, aligning its cybersecurity initiatives with its overarching business objectives.
Based on scenario 2, in order to avoid creating additional processes that do not fit with the company's context and culture,

MHospital decided to integrate the Directive's requirements into its existing processes. Is this in accordance with best practices?

- A. Yes, organizations should incorporate the NIS 2 Directive into their existing processes
- B. No, organizations should disregard existing processes completely and create new ones to ensure full compliance with the NIS 2 Directive
- C. No, organizations should create other processes in addition to the existing processes to ensure full compliance with the NIS 2 Directive

Answer: A

NEW QUESTION # 58

Scenario 7:CleanHydro is a forward-thinking company operating in the wastewater industry. Based in Stockholm, Sweden, the company is dedicated to revolutionizing wastewater treatment processes using advanced automated technology aiming to reduce environmental impact.

Recognizing the paramount importance of robust cybersecurity measures to protect its advanced technologies, CleanHydro is committed to ensuring compliance with the NIS 2 Directive. In line with this commitment, the company has initiated a comprehensive employee training program. To do so, the company adheres to Sweden's national cybersecurity strategy, which includes objectives, governance frameworks to guide strategy implementation and define roles and responsibilities at the national level, risk assessment mechanism, incident preparedness measures, a list of involved authorities and stakeholders, and coordination policies.

In addition, CleanHydro engaged GuardSecurity, an external cybersecurity consultancy firm, to evaluate and potentially improve the cybersecurity infrastructure of the company to ensure compliance with the NIS 2 Directive. GuardSecurity focused on strengthening the risk management process of the company.

The company started determining competence development needs by considering competence levels, comparing them with required competence levels, and then prioritizing actions to address competence gaps found based on risk-based thinking. Based on this determination, the company planned the competence development activities and defined the competence development program type and structure. To provide the training and awareness programs, the company contracted CyberSafe, a reputable training provider, to provide the necessary resources, such as relevant documentation or tools for effective training delivery. The company's top management convened a meeting to establish a comprehensive cybersecurity awareness training policy. It was decided that cybersecurity awareness training sessions would be conducted twice during the onboarding process for new employee to instill a culture of cybersecurity from the outset and following a cybersecurity incident.

In line with the NIS 2 compliance requirements, CleanHydro acknowledges the importance of engaging in communication with communities consisting of other essential and important entities. These communities are formed based on industry sectors, critical infrastructure sectors, or other relevant classifications. The company recognizes that this communication is vital for sharing and receiving crucial cybersecurity information that contributes to the overall security of wastewater management operations.

When developing its cybersecurity communication strategy and setting objectives, CleanHydto engaged with interested parties, including employees, suppliers, and service providers, to understand their concerns and gain insights. Additionally, the company identified potential stakeholders who has expressed interest in its activities, products, and services. These activities aimed to contribute to the achievement of the overall objectives of its cybersecurity communication strategy, ensuring that it effectively addressed the needs of all relevant parties.

Based on the scenario above, answer the following questions:

Is the national cybersecurity strategy in accordance with Article 7 of the NIS 2 Directive?

- A. No, the national cybersecurity strategy must also establish formal partnerships with international cybersecurity organizations, as specified in Article 7.
- B. Yes, the national cybersecurity strategy includes all the elements as specified in Article 7
- C. No, Article 7 states that the national cybersecurity strategy must also encompass a plan to raise cybersecurity awareness among citizens

Answer: B

NEW QUESTION # 59

......
