Online MCE-Admn-201 Training & Review MCE-Admn-201 Guide

Do you want to obtain your MCE-Admn-201 study materials as quickly as possible? If you do, then we will be your best choice. You can receive downloading link and password with ten minutes after buying. In addition, MCE-Admn-201 exam dumps are high quality, because we have experienced experts to edit, and you can pass your exam by using MCE-Admn-201 Exam Materials of us. In addition, we are pass guarantee and money back guarantee, if you fail to pass the exam by using MCE-Admn-201 study materials of us, we will give you full refund. And the money will be returned to your payment account.

Salesforce Certified Marketing Cloud Engagement Administrator Sample Questions (Q105-Q110):

NEW QUESTION # 105

Northern Trail Outfitters' security team has password policies they want enforced within Marketing Cloud. Which policies could the Marketing Cloud admin configure in Setup?

- A. Maximum Password Length, Password Complexity, Unique Password, Expiration Period
- **B. Minimum Password Length, Password Complexity, Password History, Expiration Period**
- C. Minimum Password Length, Use Strong Passphrases, Password History, Number of Security Questions
- D. Minimum Password Length, Use Strong Passphrases, Unique Password, Number of Security Questions

Answer: B

Explanation:

Configure the business unit data retention setting to 12 months is the policy that the Marketing Cloud admin could configure in Setup. Business unit data retention setting is a setting that allows marketers to specify how long records in data extensions should be retained at the business unit level. By configuring the business unit data retention setting to 12 months, any inactive data that is older than 12 months will be automatically deleted from the data extensions in that business unit.

NEW QUESTION # 106

A user asks a Marketing Cloud admin to update and increase their session timeout setting. Which three considerations should the admin review before making this update?

Choose 3 answers

- **A. Typical length of time users spend in Marketing Cloud**
- **B. Change impacts all users**
- C. Best practice suggests a 20-minute timeout setting
- **D. Security risk of unauthorized users for longer timeout settings**
- E. Frustration of users upon timeouts

Answer: A,B,D

Explanation:

When considering an update to increase the session timeout setting in Marketing Cloud, the admin should review several factors:

C). Security risk of unauthorized users for longer timeout settings - Longer session timeouts can pose a security risk as it increases the window during which an unauthorized person could potentially access an unattended user session. This is particularly crucial in environments where users might share computers or work in open office environments.

D). Change impacts all users - Any change to the session timeout settings will affect all users across the platform. It's important to communicate these changes and understand the broader impact, especially in larger organizations where different teams might have different security and operational needs.

E). Typical length of time users spend in Marketing Cloud - Understanding how users interact with Marketing Cloud and the average length of their sessions can help in deciding the appropriate session timeout setting. If users typically engage in longer tasks, a longer timeout might be necessary to prevent disruptions.

NEW QUESTION # 107

Northern Trail Outfitters (NTO) uses Sender Authentication Package (SAP) for branding purposes. Their German business unit is configured with the SAP domain de.ntomarketing.com.

The German NTO team is preparing for a campaign and wants to use customized Cloud Pages with the domain de-special.ntomarketing.com.

How could the Marketing Cloud admin meet this requirement?

- A. CloudPages must use pages.ntomarketing.com
- B. CloudPages must use the SAP domain
- C. Purchase a new SAP for de-special.ntomarketing.com
- **D. Purchase a new private Domain for use in CloudPages**

Answer: D

Explanation:

Purchasing a new private domain for use in CloudPages allows the admin to use a customized domain name for CloudPages, such as

de-special.ntomarketing.com. This domain can be different from the SAP domain, which is used for email branding and deliverability. The other options are not feasible or correct.

NEW QUESTION # 108

Which activity should be used for multivariate content testing within Journey Builder?

- A. Decision Split
- B. Engagement Split
- C. Random Split
- **D. Content Split**

Answer: D

Explanation:

The Content Split activity should be used for multivariate content testing within Journey Builder. This activity allows the journey to send different versions of email content to different audience segments and measure their performance based on open or click rates. The other activities are not suitable for multivariate content testing.

NEW QUESTION # 109

A customer is developing a new eCommerce section of their website and plans to leverage transactional data in customer journeys. Which two Marketing Cloud features will support this effort?

Choose 2 answers

- **A. Content Builder**
- B. Cloud Pages
- **C. Data Designer**
- D. Web Analytics Connector

Answer: A,C

Explanation:

To support the development of a new eCommerce section and leverage transactional data in customer journeys, the following Marketing Cloud features are relevant:

A). Data Designer: Enables the design and configuration of data models within Contact Builder, crucial for managing transactional data effectively for use in journeys.

D). Content Builder: Facilitates the creation of personalized email content using transactional data, enhancing the relevance and engagement of communications sent to customers.

These features are essential for integrating and utilizing transactional data to drive personalized customer interactions within eCommerce contexts.
