## Salesforce Certified Administrator Sample Questions (Q119-Q124):

### NEW QUESTION # 119

Ursa Major Solar wants to assist users with a guided expense report process to simplify submissions, routing, and authorizations. Which two tools should an administrator use to build this solution?

Choose 2 answers

- A. Quick Action
- B. Approval Process
- C. Validation Rule
- D. Flow Builder

**Answer: B,D**

### NEW QUESTION # 120

Users at Universal Containers would like to visually see the sales stages on an Opportunity page. The administrator is configuring path for Opportunities.

Which is an important consideration for path configuration?

- A. The Owner field can be edited in the key fields Panel.
- B. Celebrations are unable to be added to a path.
- C. Kanban views for Path must be configured manually.
- D. Path can include guidance and key fields for each stage.

**Answer: D**

Explanation:

Explanation

Path is a feature that can be used to visually see the sales stages on an opportunity page. Path can include guidance and key fields for each stage to help users move opportunities along the sales process. Guidance can provide tips, policy information, or best practices for each stage. Key fields can display important fields that users need to fill in or update for each stage.

### NEW QUESTION # 121

Sales and Customer Care at Ursa Major Solar need to see different fields on the Case related list from the Account record. Sales users want to see Case created date and status while Customer Care would like to see owner, status, and contact.

What should the administrator use to achieve this?

- A. Compact Layout Editor
- B. Page Layout editor
- C. Search Layout Editor
- D. Related Lookup Filters

**Answer: B**

Explanation:

Explanation

Page layout editor is a tool that allows you to customize the layout and organization of detail and edit pages for a specific object and

record type combination. You can also use page layout editor to customize related lists on detail pages by adding or removing fields, changing column order, sorting records, etc. To meet the requirement of showing different fields on the Case related list from the Account record for Sales and Customer Care users, you need to use page layout editor to modify the related list properties for each page layout assigned to those users. ### NEW QUESTION # 122

The administrator at Cloud Kicks has been asked to replace two old workflow rules that are doing simple field updated when a lead is created to improve processing time.

What tool should the administrator use to replace the workflow rules?

- A. Scheduled Flow
- **B. Before Save Flow**
- C. Screen Flow
- D. Quick Action Flow

**Answer: B**

Explanation:

Explanation

Before Save Flows are a type of record-triggered flow that run before a record is saved and can update fields on that record without any additional actions or DML operations. They are faster and more efficient than workflow rules or process builder for simple field updates when a record is created or updated. References:

### NEW QUESTION # 123

An administrator supporting a global team of salesforce users has been asked to configure company settings.

Choose 2 options

- A. Login Hours
- **B. Default Language**
- **C. Currency Locale**
- D. Password Policy

**Answer: B,C**

Explanation:

Explanation

Currency locale and default language are two of the company settings that an administrator can configure in Salesforce. Currency locale determines how currency amounts are formatted and displayed in reports and other places. Default language determines the language used for labels, buttons, tabs, and other elements in Salesforce. References:
