

Valid 300-445 Test Labs | 300-445 Online Version

P.S. Free 2026 Cisco 300-445 dumps are available on Google Drive shared by ITPassLeader: https://drive.google.com/open?id=1o3ILrjz_MKsok71VAeHQVuXXtpDC4PHV

Latest 300-445 exam torrent can vividly embody the spirits and effort we have put into them. And the power of our 300-445 test prep permit you to apprehend the essence of the exam. All elites in this area vindicate the accuracy and efficiency of our 300-445 quiz guides. They have helped more than 98 percent to 100 percent of customers pass the exam efficiently. When dealing with the similar exam in this area, our former customers order the second even the third time with compulsion and confidence. That can be all ascribed to the efficiency of our 300-445 Quiz guides. On our word of honor, these 300-445 test prep will help you who are devoid of efficient practice materials urgently.

The language of our 300-445 qualification test guide is simple. The learners may come from many social positions and their abilities to master our 300-445 test materials are varied. Based on this consideration we apply the most simple and easy-to-be-understood language to help the learners no matter he or she is the students or the in-service staff, the novice or the experienced employee which have worked for many years. 300-445 Certification guide use the simple language to explain the answers and detailed knowledge points to help pass the 300-445 exam.

Newest Valid 300-445 Test Labs & Leader in Certification Exams Materials & Correct 300-445 Online Version

Now you can think of obtaining any Cisco certification to enhance your professional career. ITPassLeader's 300-445 study guides are your best ally to get a definite success in 300-445 exam. The guides contain excellent information, exam-oriented questions and answers format on all topics of the certification syllabus. If you just make sure learning of the content in the guide, there is no reason of losing the 300-445 Exam.

Cisco Designing and Implementing Enterprise Network Assurance Sample Questions (Q52-Q57):

NEW QUESTION # 52

How does alert rule validation contribute to network assurance?

- A. Increasing network complexity
- B. Reducing hardware redundancy
- C. Limiting data collection
- D. Ensuring alert accuracy

Answer: D

Explanation:

Alert rule validation contributes to network assurance by ensuring alert accuracy and reliability, enabling timely detection and resolution of network issues and vulnerabilities.

NEW QUESTION # 53

Which agent type is responsible for conducting synthetic user interactions with web applications?

- A. Cloud integration agent
- B. Virtualization agent
- C. Remote management agent
- D. Local collection agent
- E. Synthetic user agent
- F. Scripting agent

Answer: E,F

Explanation:

Synthetic user agents and scripting agents are responsible for conducting synthetic user interactions with web applications in network assurance, facilitating performance monitoring and testing.

NEW QUESTION # 54

Route leaking is best identified through which of the following techniques?

- A. Antivirus scanning
- B. Password strength testing
- C. Application whitelisting
- D. BGP route analysis

Answer: D

NEW QUESTION # 55

Which Thousand Eyes test is specifically designed to assess the performance of DNS resolution?

- A. Voice test
- B. DNS test
- C. Web test
- D. Network test

Answer: B

Explanation:

The DNS test in Thousand Eyes is specifically designed to assess the performance of DNS resolution, identifying latency and response time issues in network assurance.

NEW QUESTION # 56

The following exhibit shows the Capacity Planning results for a router interface connected to an ISP, which provides a 1Gbps connection. Based on the evidence, which action is most likely to fix the observed behavior?

- A. Reconfigure business hours settings
- B. Request a link increase from the ISP
- C. Reconfigure maximum capacity for the interface
- D. Restrict the Web Sites that can be visited from the site

Answer: C

Explanation:

In the context of Designing and Implementing Enterprise Network Assurance (300-445 ENNA), capacity planning requires accurate baselining of interface bandwidth against its theoretical and provisioned limits.

Analyzing Exhibit 4.5 Question 4 (image_79d4fc.jpg) reveals a significant discrepancy between the physical reality of the link and its configuration within the monitoring tool.

The exhibit displays a capacity planning dashboard with a calendar heatmap and traffic graphs. The heatmap for February through May shows a high frequency of "Severe" (red) utilization blocks. Looking at the Egress graph for Tue May 07 2024, the traffic spikes clearly exceed 40.0 Mbps. Crucially, the dashboard indicates an "Egress Capacity" of 49.5 Mbps and reports that the "Highest consumption" was 48.0 Mbps, representing 97% of the available bandwidth.

However, the question states that the ISP provides a 1 Gbps (1000 Mbps) connection. Since the actual traffic being sent is less than 50 Mbps, the link is nowhere near physical saturation. The "Severe" alerts and high utilization percentages are occurring only because the monitoring software (likely ThousandEyes or a similar NMS) is configured with a Maximum Capacity of only 49.5 Mbps for this interface. This misconfiguration causes the tool to calculate utilization based on a much smaller "pipe" than what actually exists, leading to false-positive alerts.

Therefore, the most likely action to fix this observed behavior is to reconfigure maximum capacity for the interface (Option B) to match the 1 Gbps specification.

* Option A is unnecessary because the current link is only being utilized at ~5% of its 1 Gbps potential.

* Option C is a restrictive policy change that is not justified given the actual available headroom.

* Option D might shift how data is displayed but will not fix the underlying mathematical error in utilization calculations.

NEW QUESTION # 57

.....

The Cisco 300-445 exam material is getting updated on a daily basis according to the real Cisco 300-445 exam questions so that the students don't face any issues while preparing themselves for the Designing and Implementing Enterprise Network Assurance (300-445) certification exam and pass it with ease. We guarantee our customers that they will pass 300-445 exam on the first try with our given 300-445 exam material.

300-445 Online Version: <https://www.itpassleader.com/Cisco/300-445-dumps-pass-exam.html>

The key to passing the Cisco 300-445 exam on the first try is vigorous 300-445 practice, It will be good helper if you prepare 300-445 test questions and review the pass guide skillfully, Cisco Valid 300-445 Test Labs Note: don't forget to check your spam.) One year free update after purchase, DOWNLOAD 300-445 EXAM PRODUCT AND RELAX!

Multiple regression does require that you have access to a reference sample, one 300-445 in which the variable that is eventually to be predicted is known, Michael Labriola is a Senior Consultant and Project Lead for Digital Primates, Inc.
