

OGEA-103 Reliable Test Blueprint & Valid OGEA-103 Test Registration

BONUS!!! Download part of TestPDF OGEA-103 dumps for free: <https://drive.google.com/open?id=1G10LkYTWKu7dn3OR1JtDcHRsY3KHjOr0>

Our OGEA-103 learning questions are famous for that they are undeniable excellent products full of benefits, so our exam materials can spruce up our own company image. Besides, our OGEA-103 study quiz is priced reasonably, so we do not overcharge you at all. Not only the office staff can buy it, the students can also afford it. Meanwhile, our OGEA-103 Exam Materials are demonstrably high effective to help you get the essence of the knowledge which was convoluted. You will get more than you can imagine by our OGEA-103 learning guide.

Preparation of professional TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam (OGEA-103) exam is no more difficult because experts have introduced the preparatory products. With TestPDF products, you can pass the TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam (OGEA-103) exam on the first attempt. If you want a promotion or leave your current job, you should consider achieving a professional certification like TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam (OGEA-103) exam. You will need to pass the The Open Group OGEA-103 exam to achieve the TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam (OGEA-103) certification.

>> OGEA-103 Reliable Test Blueprint <<

Pass Guaranteed Quiz The Open Group - OGEA-103 - TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam –Efficient Reliable Test Blueprint

The customizable The Open Group OGEA-103 practice tests create a scenario of a real-based The Open Group which is helpful for students so they don't feel much pressure when they are giving the final examination. The students can give unlimited OGEA-103 practice tests and make themselves better day by day to achieve their desired destination. The candidates can even access their previously given The Open Group OGEA-103 Practice Test from the history which allows them to be careful while giving the test next time and prepare for The Open Group OGEA-103 certification in a better way.

The Open Group TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam Sample Questions (Q156-Q161):

NEW QUESTION # 156

Consider the following ADM phases objectives.

Which phase does each objective match?

- A. 1C-2B-3A-4C
- B. 1A-2B-3C-4D
- C. 1B-2D-3A-4C
- D. 1C-2D-3B-4A

Answer: A

Explanation:

Explanation

The objectives listed in the question correspond to the objectives of different phases of the TOGAF ADM (Architecture Development Method), which is a method for developing and managing an enterprise architecture¹.

The ADM consists of nine phases, each with a specific purpose and output. The phases are¹:

Preliminary Phase: To prepare and initiate the architecture development cycle, including defining the architecture framework, principles, and governance.

Phase A: Architecture Vision: To define the scope, vision, and stakeholders of the architecture initiative, and to obtain approval to proceed.

Phase B: Business Architecture: To describe the baseline and target business architecture, and to identify the gaps between them.

Phase C: Information Systems Architectures: To describe the baseline and target data and application architectures, and to identify the gaps between them.

Phase D: Technology Architecture: To describe the baseline and target technology architecture, and to identify the gaps between them.

Phase E: Opportunities and Solutions: To identify and evaluate the opportunities and solutions for implementing the target architecture, and to define the work packages and transition architectures.

Phase F: Migration Planning: To finalize the implementation and migration plan, and to ensure alignment with the enterprise portfolio and project management.

Phase G: Implementation Governance: To provide architecture oversight and guidance for the implementation projects, and to manage any architecture change requests.

Phase H: Architecture Change Management: To monitor the changes in the business and technology environment, and to assess the impact and performance of the architecture.

Based on the above definitions, we can match each objective with the corresponding phase as follows:

Objective 1: Develop the Target Data Architecture that enables the Business Architecture and the Architecture Vision. This objective is achieved in Phase C: Information Systems Architectures, where the data architecture is defined as a subset of the information systems architecture².

Objective 2: Develop the Target Business Architecture that describes how the enterprise needs to operate to achieve the business goals. This objective is achieved in Phase B: Business Architecture, where the business architecture is defined as a subset of the enterprise architecture³.

Objective 3: Develop a high-level aspirational vision of the capabilities and business value to be delivered as a result of the proposed Enterprise Architecture. This objective is achieved in Phase A: Architecture Vision, where the architecture vision is defined as a high-level description of the target architecture and its benefits⁴.

Objective 4: Develop the Target Application Architecture that enables the Business Architecture and the Architecture Vision, in a way that addresses the Statement of Architecture Work and stakeholder concerns. This objective is achieved in Phase C:

Information Systems Architectures, where the application architecture is defined as a subset of the information systems architecture².

2: The TOGAF Standard, Version 9.2, Chapter 9: Phase C: Information Systems Architectures

3: The TOGAF Standard, Version 9.2, Chapter 8: Phase B: Business Architecture

4: The TOGAF Standard, Version 9.2, Chapter 7: Phase A: Architecture Vision

NEW QUESTION # 157

What component of the Architecture Repository represents architecture requirements agreed with the Architecture Board?

- A. Architecture Requirements Repository
- B. Governance Log
- C. Reference Library
- D. Architecture Capability

Answer: A

Explanation:

The Architecture Requirements Repository stores all the requirements that are output of the architecture development cycle, as well

as the requirements that are input to the architecture development cycle¹. The Architecture Requirements Repository includes the following types of requirements¹:

*Stakeholder Requirements: These are the high-level requirements and expectations of the stakeholders, derived from the business drivers, goals, and objectives. They are captured and refined in the Architecture Vision phase and the Requirements Management phase.

*Architecture Requirements: These are the detailed requirements that specify what the architecture must do or deliver to meet the stakeholder requirements. They are derived and refined in the Business, Information Systems, and Technology Architecture phases.

*Implementation and Migration Requirements: These are the detailed requirements that specify what the implementation and migration projects must do or deliver to realize the architecture. They are derived and refined in the Opportunities and Solutions and Migration Planning phases.

The Architecture Requirements Repository is used to manage the architecture requirements throughout the architecture lifecycle, ensuring their traceability, consistency, and compliance¹. The Architecture Board is the authority that reviews and approves the architecture requirements, as well as the architecture deliverables and artifacts, as part of the architecture governance process².

NEW QUESTION # 158

Complete the sentence. The four purposes that typically frame the planning horizon, depth and breadth of an Architecture Project, and the contents of the EA Repository are Strategy, Portfolio,

- A. Subordinate, and Superior Architecture.
- B. Project, and Solution Delivery.
- C. Segment, and End-to-end Target Architecture.
- D. Discreet, and Cohesive.

Answer: C

Explanation:

The planning horizon, depth, and breadth of an Architecture Project, along with the contents of the EA Repository, are typically framed by Strategy, Portfolio, Segment, and End-to-end Target Architecture. The

'Segment' refers to a part of the organization, typically addressed in a Segment Architecture, while 'End-to-end Target Architecture' encompasses the complete view of the planned architecture across the entire organization.

NEW QUESTION # 159

Complete the following sentence:

Presenting different _____ and _____ to stakeholders helps architects to extract hidden agendas principles and requirements that could impact the final Target Architecture

- A. Solutions Applications
- B. Alternatives Trade-offs
- C. Architecture Views Architecture Viewpoints
- D. Business Scenarios Business Models

Answer: C

Explanation:

Explanation

According to the TOGAF Standard, an architecture view is a representation of a system from the perspective of a related set of concerns¹. An architecture viewpoint is a specification of the conventions for a particular kind of architecture view¹. Presenting different architecture views and architecture viewpoints to stakeholders helps architects to extract hidden agendas, principles, and requirements that could impact the final target architecture. This is because different stakeholders may have different concerns and interests in the system, and by showing them how the system addresses their concerns from different perspectives, the architects can elicit more feedback and validation from them². For example, a business stakeholder may be interested in the business architecture view, which focuses on the business processes, functions, and capabilities of the system³. A security stakeholder may be interested in the enterprise security view, which addresses the security aspects of the system, such as confidentiality, integrity, and availability³. By presenting these views to the respective stakeholders, the architects can ensure that the system meets their expectations and needs, and also identify any potential issues or gaps that may affect the target architecture. NEW QUESTION # 160

Which of the following are two of the architecture domains that are considered as subsets of an overall Enterprise Architecture?

- A. Business, Technology
- B. Technology, Digital
- C. Vision, Target
- D. Strategy, Enterprise

Answer: A

Explanation:

In the TOGAF Standard, the concept of an Enterprise Architecture is broken into several primary architecture domains. These domains provide a structured way to describe the enterprise from multiple perspectives that collectively support transformation and governance. TOGAF specifies four core architecture domains:

Business Architecture, Data Architecture, Application Architecture, and Technology Architecture. These domains, when combined, form a comprehensive view of how the enterprise functions, how information flows, how systems interact, and what technologies support the organization.

Among the choices provided, only Business and Technology are officially recognized architecture domains in TOGAF. The Business Architecture describes business strategy, governance, organization, and key processes.

The Technology Architecture defines the logical and physical technology infrastructure necessary to support mission-critical applications and data. The other answer options do not represent TOGAF architecture domains; for example, "Strategy," "Vision," "Target," or "Digital" are not formal architecture domains in TOGAF. Thus, the pair that correctly identifies subsets of an enterprise architecture according to the TOGAF framework is Business and Technology Architecture.

NEW QUESTION # 161

.....

As is known to us, if there are many people who are plugged into the internet, it will lead to unstable state of the whole network, and you will not use your study materials in your lunch time. If you choose our OGEEA-103 exam question as your study tool, you will not meet the problem. Because the app of our OGEEA-103 Exam Prep supports practice offline in anytime. If you buy our products, you can also continue your study when you are in an offline state. You will not be affected by the unable state of the whole network. You can choose to use our OGEEA-103 exam prep in anytime and anywhere.

Valid OGEEA-103 Test Registration: <https://www.testpdf.com/OGEEA-103-exam-braindumps.html>

The Open Group OGEEA-103 Reliable Test Blueprint For example, the app version can be installed on your mobile phone, which is easy for you to learn when you go out, So our OGEEA-103 training guide is once a lifetime opportunity you cannot miss, The Open Group OGEEA-103 Reliable Test Blueprint So it is of great Importance to develop your capacity according to the market's requirements, Safely use the questions provided by OGEEA-103 study guide.

Nobody knows what new controversy will erupt tomorrow, In regular OGEEA-103 mail, you have a choice of services: first class, second class, third class, bulk mail, overnight, and so forth.

For example, the app version can be installed on your mobile phone, which is easy for you to learn when you go out, So our OGEEA-103 training guide is once a lifetime opportunity you cannot miss.

Quiz 2026 OGEEA-103: TOGAF Enterprise Architecture Combined Part 1 and Part 2 Exam Pass-Sure Reliable Test Blueprint

So it is of great Importance to develop your Valid OGEEA-103 Braindumps capacity according to the market's requirements, Safely use the questions provided by OGEEA-103 study guide, Based on Web browser, the version of APP can be available as long as there is a browser device can be used.
