**2026 Valid CHF M Exam Cram 100% Pass | Reliable CHF M: Certified Healthcare Facility Manager (CHF M) certification exam 100% Pass**

For candidate who wants a better job through obtaining a certificate, passing the exam becomes significant. Our CHFMM Study Materials will offer you a chance like this. Our CHFMM study guide is known for the high quality and high accuracy. We are pass guarantee and money back guarantee for our customers. If you can get the certificate, you will have a better competitive power in the job market and have more opportunity.

## Medical Professional Certified Healthcare Facility Manager (CHFMM) certification exam Sample Questions (Q47-Q52):

### NEW QUESTION # 47

Which of the following types of duct-mounted humidifiers is recommended by the FGI Guidelines for Design and Construction of Hospitals and Outpatient Facilities?

- A. reservoir
- B. water spray
- C. steam
- D. evaporative pan

**Answer: C**

Explanation:

The FGI Guidelines and ASHRAE healthcare design standards recommend steam humidifiers for duct-mounted systems in hospitals, since they minimize microbial growth. Reservoirs, spray, and pan humidifiers pose contamination risks and are not permitted for patient care areas.

References: FGI Guidelines (Hospitals), ASHRAE 170 Ventilation Standard; NFPA 99.

### NEW QUESTION # 48

Which of the following actions can be taken to reduce water consumption in a healthcare facility?

Reduce the landscape irrigation system usage.

Begin a campaign to use less water.

Meter the cooling tower usage.

Reduce the number of patient showers.

- A. 1 and 3 only
- B. 1 and 2 only
- C. 3 and 4 only
- D. 2 and 4 only

**Answer: A**

Explanation:

Practical and ethical water conservation measures include landscape irrigation reduction (1) and metering cooling tower usage (3) since cooling towers are a major consumer of water.

2. Campaigns: Awareness is useful but not as effective as operational controls.

4. Reducing patient showers: Not appropriate for patient care and safety.

ASHE, Sustainability Roadmap for Hospitals - Water conservation strategies.

AHA/CHFMM Candidate Handbook - Financial Management and Operations domains.

---

### NEW QUESTION # 49

A liquid oxygen tank has the chart shown below attached to the side of the tank:

□ At 107 in. = 234,480 cu. ft. (from chart)

Hospital usage = 15,000 cu. ft./day

How many days of oxygen are left in the tank?

**Answer:**

Explanation:

(15 days)

Explanation:

Calculation:

$234,480 \div 15,000 = 15.63$  days ## 15 days supply available.

References: NFPA 99, Oxygen Storage and Piping Systems; CHFMC Candidate Handbook - Maintenance and Operations domain.

### NEW QUESTION # 50

How many emergency management disaster drills are required per year in a healthcare occupancy?

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: A**

Explanation:

Federal and accreditor requirements establish two emergency exercises per year for hospitals: one full-scale community-based (or facility-based if community-based is not available) and a second exercise (which may be a second full-scale or an exercise such as a tabletop). Real events may be used to meet one of the required exercises when criteria are met.

References:

Centers for Medicare and Medicaid Services (CMS), Emergency Preparedness Rule - State Operations Manual, Appendix Z (Hospitals) - annual exercise requirements.

The Joint Commission, Emergency Management (EM) standards - requirement for two emergency exercises annually.

AHA/CHFMC Exam Content Outline - Compliance domain (emergency management requirements).

### NEW QUESTION # 51

An administrator is considering outsourcing the BioMed function to reduce cost. The low-bid base price for outside annual inspection and testing service is \$180,000 with an \$80/hr repair labor rate and a \$120/hr call-in labor rate. The BioMed department currently has an annual labor budget of \$240,000. Assuming an estimate of 600 hours of repair labor and 100 hours of call-in labor, how much will the administrator save annually with the outsourcing option?

- A. \$48,000
- B. \$12,000
- C. \$80,000

Step-by-Step Calculation:

Current in-house cost: \$240,000.

Outsourcing cost:

Base price: \$180,000

Repair:  $600 \text{ hrs} \times \$80/\text{hr} = \$48,000$

Call-in:  $100 \text{ hrs} \times \$120/\text{hr} = \$12,000$

Total outsourcing =  $\$180,000 + \$48,000 + \$12,000 = \$240,000$

Difference:  $\$240,000 - \$240,000 = \$0$

- D. \$0

**Answer: D**

Explanation:

The outsourcing scenario matches the current in-house budget exactly; therefore, no savings are achieved.

This type of financial analysis is common in the CHFMC Financial Management domain.

### NEW QUESTION # 52

.....

As the talent team grows, every fighter must own an extra technical skill to stand out from the crowd. To become more powerful and struggle for a new self, getting a professional CHFMC certification is the first step beyond all questions. We suggest you choose our CHFMC test prep ----an exam braindump leader in the field. Since we release the first set of the CHFMC Quiz guide, we have won
